countries to have dealt with the crisis, but he repeated Iran's support for the UN Security Council sanctions.

and Letters...

Oil stocks...

America and Britain have given the UN photographic evidence that those sanctions are being breached, it emerged yesterday. Douglas Hurd, the foreign secretary, said an Iraqi tanker had unloaded oil at Aden on Tuesday, a second was in port and three more appeared to be heading there. The photographs submitted to the UN were believed to be of oil tankers and of an oil tank in Libya. America said Iraq had been receiving shipments for chemical warfare products

and other military material. The evidence presented to was part of the British and suade the other three permanent members of the security council to agree a resolution allowing a UN blockade to enforce the sanctions. Mr Command structure". Hurd said the tabling of a resolution had been delayed to

> able to the Soviet Union. President Gorbachev indicated last night that he was inclined to support such a resolution when he sent President Saddam a message saying that if he did not abide by the UN Security Council resolutions, it would be obliged to approve additional measures.

The Soviet Union has also joined other nations in declaring its embassy in Kuwait still Iran would stay out of any war open, even though it has

moved all its nationals out of the country and left the embassy empty.
Other nations who have said they would defy the Iraqi order and keep their em-Japan, Bangladesh, Switzer-land, Austria, Poland, Czecho-slovakia, Yugoslavia and the 12 EC countries. The em-bassies being patrolled by lraqi troops included those of the United States, Britain, France, Japan, Norway, Sweden, Romania and Hungary. Guards had orders not to let anyone in or out. Virtually the last action of Michael Weston, the British ambassador, before he was confined to the embassy compound was to gain consular access to the ten Britons who were taken to the Meridian hotel from their homes at

gunpoint on Tuesday. Mr Hurd declined yesterday to say what Britain's response would be if Iragis carried out their threats, but he said that it should be a collective one. He was concerned that force might be used against the embassy and its staff, and he

did not expect unarmed dip-lomats to give physical resis-tance to physical force. Mr Hurd emphasised that the Iraqi order for the embassies to close was all part of the central issue which was the act of aggression by President Saddam and the need to reverse that: "To put it bluntly the need for him and his to get out of Kuwait." It had to be "rammed home" that every Iraqi citizen would be held personally responsible for their involvement in illegal

The White House spokes-man, Marlin Fitzwater, said there was a "high degree of danger", although he, too, action would be taken should any American diplomat be harmed. Mr Fitzwater said that Mr Bush had watched President Saddam's meeting with British hostages on Thursday, which he described

as "sick beyond expression". One of the boys seen fleetingly in that broadcast, 15year-old Alan Barnett, was sterday allowed to leave for Amman from where he was travelling home to Hamilton. The boy had been among the British Airways passengers caught in Kuwait by the invasion as he was flying back

to his boarding school in India. Other refugees started to flood across the border to Jordan after it was re-opened

## **Pretoria** imposes tough law on black townships From Gavin Bell In Johannesburg

PRETORIA has imposed what amounts to a state of emergency in almost 30 black townships in the Transvaal, where more than 500 people have been killed in blackagainst-black violence in the past two weeks.

Adriaan Vlok, the minister of law and order, announced the decision to implement special security legislation as additional army reservists were called up yesterday to support riot police in the worst-affected areas. Mr Vlok said the normal laws of the country were not sufficient to deal with the violence and he was therefore declaring 27 townships in and around Johannesburg "unrest areas" under the Public Safety Act.

The number of police assisted by troops would be "drastically" increased, he said, and the carrying of weapons, spears as well as garden forks, would be banned. Appealing for an end to the violence, he said he would not hesitate to take

even tougher steps.

A Johannesburg lawyer said the crackdown involved powers of arrest and detention just as wide as those provided for in a general state of emer-

gency.

Mr Vlok said that since the national emergency was lifted on June 8, except in Natal, the government had tried to pre-vent strife and promote the peace process by stepping up police action, having intensive discussions with political leaders and establishing liaison forums between the police and various organisations.

Despite these positive steps, hundreds of people had been killed in widespread violence involving shooting incidents, hand-grenade attacks and large-scale destruction of property. "Such destruction of human life and property is senseless and unacceptable. It cannot be allowed to con-

tinue," he said. Earlier, during a television phone-in programme, Presiment could not allow anarchy to prevail or radicals to set the country on fire. "We will do everything possible to keep order. We cannot prevent every incident of violence . . . but when it does occur the police will deal with it."

Nelson Mandela, the deputy president of the African National Congress, rejected the government's measures as useless and unnecessary, and expressed annoyance that his organisation had not been consulted. After meeting Mr de Klerk he said: "Issues of this nature, which we are addressing, require consultation. I totally disagree that these measures are necessary."

Mr Mandela appeared to rule out direct peace talks with Chief Mangosuthu Buthelezi, the leader of the Zulu Inkatha organisation, whose members are virtually at war with the ANC in many townships, saying that the issues could be resolved by

individuals.
"They should be resolved by the organisations involved. and we are talking already," he

By ROSEMARY RIGHTER

PRESIDENT Gorbachev's ultimatum to Iraq last night, telling President Saddam Hussein to pull out of Kuwait or face "additional measures" by the United Nations, returns the UN Security Council to some semblance of life, and none too SOOIL In the first week after Iraq invaded Kuwait, the United Nations astonished the world. With only two abstentions, the security council voted to condemn the invasion while President Saddam's troops were still "mopping up" in Kuwait city, in an uncompromising resolution demanding Iraq's unconditional withdrawal.

Gone was the dreary charade of the veto. The Soviet Union, Iraq's armourer and close ally, was as forthright as Washington or London in its public strictures. The permanent members, America, the Soviet Union, Britain, France and China, acting as one, spent the weekend drafting a further resolution which on August 6 imposed comprehensive sanctions on trade with Iraq.

More significant, resolution 661 made UN history by activating Chapter VII of the UN Charter which is the UN's war-making authority to deal with "acts of aggression".

Chapter VII requires the security council to act

if its demands are disobeyed, first by peaceful measures and then, if the council believes these are or would be inadequate, by using whatever "air, sea or land forces" are needed to drive back the aggressor. Forty-eight hours later, Iraq defied the security council by announcing it had annexed Kuwait Unanimously, the council declared its action illegal.

Then: silence, a silence the outside world has found impossible to comprehend. The UN secretary-general departed for Latin America on a pre-planned trip from which not even Iraq's announcement on August 17 that it would use foreign civilians as hostages deflected him. The security council's demand for their release was accompanied only by the dispatch of UN officials to expostulate in Baghdad (from which UN staff were being evacuated). The UN had no power to stop further violations of international law by President Saddam - unless it advanced further

down the Chapter VII road, to military action. Yet when America and Britain, citing the catchall collective self-defence clause of the charter, article 51, ordered their navies in the Gulf to use minimum force if necessary to stop sanctionsbusting, they drew coos of disapproval from diplomats in Turtle Bay, the UN's headquarters

on the East River. Iraqi tankers beaded down the Gulf and one slipped into Aden. On Monday, the United States sought the security council's blessing to use minimal naval force to stop them.

Instead of rallying in the face of evidence that Iraq was determined to evade UN sanctions, the security council shied at the critical sence. The Soviet Union, having insisted on the need for UN endorsement of a blockade, declined to follow through. The council embraced the doubtful assurances of Yemen, a warm friend of Iraq, that the tanker would not be allowed to discharge its oil as an excuse for deferring a vote.

In a week when the United States, its Arab allies and almost every country in Western Europe have been accelerating military prepara-tions, the UN has reverted to the familiar diplomatic game of haggling over small print.

Parallels with the Falklands, when Britain won strong early backing from the UN only to see it evaporate as fighting loomed, suggest themselves. The ghost of the League of Nations, which in 1935 imposed sanctions against Italy for invading Abyssinia and lost all credibility when it failed to enforce them, stalks the UN's corridors. Must the UN always run out of steam just when it matters? The answer may be that military enforcement

50 years of diplomatic history that hesitation was inevitable. Soldiers under the UN flag have never before been required to shoot: the "blue benet" UN peacekeeping forces interpose their bodies between combatants, firing only in self-defence.

The great powers have much at stake, and none more than the Soviet Union - the sincerity of whose belated conversion to the UN here confronts the decisive test. As recently as 1985, the Kremlin's attitude to the UN was decidedly negative. But in January 1987, the Soviet Union began co-perating in five-power consultations over the Iran-Iraq war and that September President Gorbachev made the volte-face official.

Having assigned the UN a decisive role in preventing and dealing with armed conflicts, the Soviet Union has sought to use the security council to assert its claims to equal partnership with the Western powers. That is why the Kremlin has been so insistent on bringing UN military action under the joint control of the five permanent members, using the long-moribund Military Staff Committee. Its case is strong because the committee, comprising the chiefs of staff of the "Big Five", is charged under Chapter VII with "the strategic direction of any armed forces placed at the disposal of the security council". But the Americans are equally determined to retain operational freedom, using the UN as an umbrella, not a command structure And the Pentagon has the deepest reservations about the notion of military "partnership"

That, even more than President Gorbachev's need to watch his back with the Soviet military (and get Soviet citizens out of Iraq), has been the reason for the delay in bringing an enforcement resolution to the vote. The Cold War may be over: superpower rivalry is not. The Soviet Union, looking beyond the Gulf affair, wants to lay down firm precedents for its involvement in any future use of the UN. The Kremlin his become the world's most ardent advocate of President Roosevelt's idea that the great powers

should operate as "global policemen".

Moscow will settle for a loose "co-ordination" of the naval blockade by the Military Staff Committee. But if the next step, military action on the ground to drive iraq out of Kuwait, has in be taken, the Soviet Union is likely to demand a unified UN command as its price for witholding its security council veto. The silence at the UN derives in part from its unprecedented proximity to the real world of great power politics.

Homeward bound: Hundreds of Egyptian workers who have fled Kuwait and Iraq on board a ship leaving the Jordanian Red Sea port of Aquba

## Trapped Westerners want US rescue from a city of fear

who fled the emirate said yesterday.

Get the Americans in here fast," was the message brought by the exhausted wife of one Briton from Western friends in Kuwait.

The woman was among 42 British embassy dependants who made an arduous 26-hour journey across the desert from Baghdad to Amman. She refused to be named because her husband was still in Kuwait.

Interviewed by Independent Television News (ITN), she said: "Nobody is optimistic any more. Some were until four or five days ago, but not any more,"

The most immediate fear was hunger, she said. Iraqi authorities were trying to restore law and order by summarily hanging looters, creating a climate of fear. She said that Iraqi soldiers had raned a German woman whom she knew, but she could not confirm other reported rapes. She blamed the looting on Iraqi reservists and some of the foreign residents, and said Iraqi regulars were "nice and

thing." Kuwaitis were hiding Westerners in defiance of the severe penalties threatened by Iraq. The resistance was small in scale but underground fighters had managed to kill many Iraqi soldiers. "People are not willing to ... let the others just walk over them," she said. "Neighbourhoods are almost empty. Everybody hides inside, nobody goes out

except to get food." Fear of an imminent military showdown was rife. The streets were teeming with Iraqi soldiers, tanks and missiles. A tearful woman with a German accent, married to a Briton, said looters had stripped Kuwait's luxury hoteis. "Nobody can find any furniture, or carpets or curtains, nothing." She said Iraq had turned clocks in Kuwait to Iraqi time and changed car sources claimed that more number plates to Iraqi ones. than 15 people so far had died They looted the whole city, nothing is left there, no cars, no buses, all kinds of transportation just disappeared. It's a disaster ... I can't

believe that somebody could

make such a disaster in such a

short time like Iraq did."

## THE INVASION OF KUWAIT: THE MIDDLE EAST

# Saddam's military strategy causes surprise in West

By MICHAEL EVANS, DEFENCE CORRESPONDENT

PRESIDENT Saddam Hus- "We expected the Republican withdrawing his main offensein has begun to redeploy his Guards divisions to be pulled sive units, President Saddam elite Republican Guard diback 30 to 60 miles," one appears to have given orders visions which carried out the source said. nine-hour invasion of Kuwait, but there is no clear indication lican Guards divisions stayed prepared for an assault on asse

Western intelligence sources. The latest intelligence is divisions which were located south of Kuwait city have now moved northwest to a desert region at Al Jahrah. The assessment is that this is just a staging post and that they will either move farther north into Iraq towards Baghdad or that they will regroup for an attack

against the Americans.
The other four divisions of Republican Guards, all infantry, are still in Kuwait city. But according to the latest intelligence, they are now showing signs of packing up,

ready to move north.

President Saddam's military tactics have caused some surprise. Following the successful invasion of Kuwait, replaced almost immediately by regular divisions who would then take up garrison positions, leaving the Republican Guards, Iraq's strategic reserve force, to regroup and prepare for the next offensive.

However all seven Repubyet whether they are being in position. The intelligence sment was that President Saudi Arabia or a defensive Saddam was taken aback by role in the event of an the international reaction to American attack, according to the invasion and considered it wise to postpone redeployment, to give him the option that the three mechanised and of moving across the border are equipped with T52s, the into Saudi Arabia in a quick sources said.

But this option was abandoned, partly because the Americans moved F15s and F16s very rapidly into Saudi Arabia, once the kingdom had requested military assistance, and partly because his Republican Guards divisions are not geared for long periods of offensive action Sources said that, although

these elite traqi forces are trained on the lines of the Soviet "operational manoenvie groups", they do not have the same staying power. Soviet operational manoeuvre groups have been trained for an East-West war, to mount an offensive that does not stop the normal tactic would have until they have reached the been for the elite units to be Channel. "We learned from the Iran-Iraq war that the Iraqi Republican Guards operate in short bursts and need to regroup before considering another attack," one source

Having waited before

for the three mechanisedarmoured divisions to move north on about August 19. That was the day American intelligence first spotted a movement of troops. The three Republican Guards divisions are equipped with Soviet T72 tanks. The regular

iraq has eight Republican Guards divisions under the control of the Iraqi high command. The regular divisions, normally on the Iranian border, come under corps

• Medical team: As the clearest sign that Britain expects conflict in the Middle East, a medical team of 25 men and 3 female nursing officers has arrived in Saudi Arabia. The defence ministry said that a 28-strong team from 16 Field Hospital, based at Bulford and from 22 Field Hospital from Aldershot, is now in Dhahran, the base for the squadron of air defence Tornado F3s.

The three women in the party are the first to be sent to Saudi Arabia since the Iraqi invasion of Kuwait. The defence ministry said that medical support units were always sent to places where British servicemen were deployed.

## Iraq may exploit loophole in non-proliferation pact

By OUR DEFENCE CORRESPONDENT

TWELVE miles south of Baghdad there is a large complex containing four separate facilities, all protected by air defence systems. This is Iraq's nuclear research in-stitute at Tuwaitha, near the

With all the focus on Iraq's ambition to have nuclear weapons and warnings from Western intelligence that, the country is between two and five years from achieving that objective, it seems strangely contradictory to hear an official from the International Atomic Energy : Agency proclaim that there is no evidence that Iraq is attempting to divert fissionable material for

The Vienna-based IAEA, whose 200 inspectors monitor 922 declared nuclear installations around the world, last visited the Iraqi nuclear research plant in March under a ''safeguards agreement'' signed with Baghdad in 1972. Iraq signed up as a member of the Nuclear Non-Proliferation

Treaty on October 29, 1969. The inspectors first checked the accountancy records, to see how much nuclear fuel had. come in, how much had been used up, what spent fuel was in storage and how it related to the records from the previous visit six months ago. Then, by taking samples and weighing fuel elements, they were able to check whether the fissionable material was of a quality suitable only for civilian nuclear research or whe-

ther it was of weapons grade. Finally, the IAEA team examined the special seals placed over video cameras installed by the agency under the treaty to provide remote monitoring of nuclear lab-oratories. The seals prevent

any tampering of equipment.
An IAEA official said: "For the last 12 years, we have been conducting inspections at the site at Tuwaitha, which has two research reactors, a fuel laboratory and storage facilities. We have found no evidence of diversion from their civil programme to military. We have no reason to doubt Iraq's adherence to their treaty obligations."

The Nuclear Non-Proliferation Treaty is being reviewed by its 140 signatories in Geneva. But even if amendments to tighten the treaty are agreed, there are too many loopholes in nuclear weapons acquisition to stop Iraq from making an atomic bomb.

The so-called London Suppliers Club of Western nations with nuclear technology capability is supposed to stop sensitive technology from reaching countries. Only a month ago, in spite of apparent objections by the US commerce department, Washington stopped the shipment to Iraq of a \$15 million (£7.7 million) metallurgical furnace, reported to be for the manufacture of titanium alloy devices. But it could have been used for frag's nuclear and ballistic missile programme. Similarly the attempt by Baghdad to acquire nuclear trigger devices was stopped just in time earlier this year. Yet there are countries such

to standing of PLO

## **Treaty hopes** are dashed

HOPES, so high even four months ago for a treaty banning chemical weapons by the end of this year, have been dashed (Alan McGregor

writes from Geneva).
As the 40-nation disarmament conference wound up its annual session the most optimistic forecast for agreement was 1992. This is despite the search for agreement being given top priority for the fourth consecutive year.

The draft text is almost pable of being used in chemical weapons have been listed and limits set for those which also have legitimate industrial uses. The rest of the draft covers verification, in particular the concept of "challenge inspection" where clandestine production is suspected. Progress from this point depends

as Brazil and Argentina, neither of them signatories of the treaty, who are close to assembling a nuclear device and only diplomatic pressure from the London Club can stop them passing on their technol-

on political decisions and the

negotiators are asking for an

early ministerial conference.

ogy to others. If Iran succeeded in acquiring all the components for a nuclear bomb, the IAEA would be the only agency capable of checking whether the fuel was being upgraded for military purposes. But it has limited scope for random checks. Inspection at short notice has to be agreed with

the government involved. Moreover, there can be no absolute confidence that Iraq is not carrying out clandestine research in underground facilities which have not been declared to the IAEA. If the IAEA discovered a

serious treaty breach, its director-general could present the evidence to the Security Council. This power has never been used since the agency was formed in 1957.

Richard Perie, an assistant secretary of defence in the Reagan administration, is in no doubt about what action should be taken. Writing in The Wall Street Journal, he recalls the military strike by Israeli jets in 1981 on the Osirak reactor which was suspected of producing plutonium for nuclear weapons.

MIT Perie S210: "The destruc tion of Iraq's nascent nuclear capability, together with its capacity to build chemical weapons, should be the first priority of American policy."

He added: "Even a strictly enforced, comprehensive export control regime would be unlikely to stop Iraq's nuclear and chemical programmes at this late stage in their development. That is why an air attack on the facilities is an essential first step to putting the Iraqi genie back in the bottle."

• Biological capability: Less is known about Iraq's biological weapons capability (Cathy Jaskowiak writes). Scientists disagree even over whether Iraq is researching biological agents. There is agreement. however, that if the Iragis had

Francis Tusa, European editor of Armed Forces Journal International, said: "Biological weapons could make forces feel ill for a couple of weeks, but it is highly unlikely that anyone would die."

There are fears, however,

that Iraq might be able to use

biological weapons effectively against civilians, eliminating

troops in Saudi Arabia would

FRANCE

## Poll shows public backing for tough line

From Alan Tillier IN PARIS

THE French want their country to be firm towards Iraq, according to a poll published yesterday in Le Figaro, the conservative daily, and 74 per cent favour unity with the British and Americans. However, 48 per cent oppose an American first strike.

The poll supports President Mitterrand's recent hardening of attitude towards President Saddam after 15 years of Franco-Iraqi friendship and commerce, notably arms. The president has said there was a "logic of war". He is the supreme commander of French forces, in the manner of George Bush, but likes to

keep an eye on the polls. The French, after the Americans, are the most "polled" nation, but often replies are contradictory. The Figaro poll shows that public opinion is solidly behind the president and does not agree with the defence minister, Jean-Pierre Chevenement, who wanted to offer President Saddam another chance to come to the negotiating table.

Yesterday M Chevenement, the defence minister, said he had "accepted" the government's strong line - seven ships, 1,000 troops en route, plus the permanent forces based at Djibouti in the Horn of Africa. These include Foreign Legion units.

Another finding in yesterday's poll was that 51 per cent favoured French military action. President Bush also received a 66 per cent favourable rating.

Yet 51 per cent also approved of concessions to Baghdad to liberate the hostages. The French foreign ministry has denied US press reports of a "deal" on French hostages via the PLO.

ISRAEL

## Calm returns after advice about gas attack misfires

From Richard Owen in Jerusalem

RELATIVE calm returned to noses in the event of gas the Gulf confrontation began a jittery Israel yesterday as attack. The Israeli Army, clearly officials assured the public that the prospect of an Iraqi angered by the panic this caused, yesterday emphasised

gas attack was "very, very low" and that President Saddam was more likely to wage war on Egypt, Saudi Arabia or even Syria than on

The latest alarm was provoked by Israeli press reports this week, based on intelligence briefings, that war is imminent. Colonel Dov Peled, head of Civil Defence. appeared on television to advise Israelis how to prepare for a gas attack. He told viewers to seal off

an upper room with maskin tape and sponge strips, buy the baking soda was never extra batteries for their radios. needed as an antidote it could stock up with two weeks' supply of food and dip a cloth in a solution of baking soda stomach gases". and water to place over their

spersed with cautious vigilance. Some Western analysts believe the changes of mood that civil defence regulations were general recommendations and not an invitation to hoard foodstuffs or start sealing up rooms. Tomorrow

Israeli newspapers are to pub-lish a Citizens' Guide for Times of Emergency issued by the Civil Defence Command. As shops closed yesterday for the sabbath, shopkeepers said there was little sign of panic buying except for a run on tinned goods and baking soda. Consumer groups, taki relaxed view, said that it

has been one of alarm inter-

reflect a hidden Israeli desire to be part of the conflict. Yitzhak Shamir, the prime minister, this week said Israel was worried about an Iraqi attack but was determined not to be drawn into the Gulf confrontation. "We live in this storm, but have no part of it," he said. "We need strong nerves, patience and a high

state of readiness. But Mr Shamir himself set off alarm bells on Thursday night by saying that "our to pre-empt it. If, heaven forbid, these two fail, and there is no alternative, we have to win quickly and decisively." He later explained he did not mean Israel would launch a pre-emptive strike, as it had against Iraq's nuclear reactor near Baghdad

in 1981. Some Western diplomats none the less say that Israel is dismayed by the delay in American military action and that some Israelis are champing at the bit to join any attack on Iraq. It is widely accepted in Israel that the United States and the West owe thanks to Israel for destroying Iraq's nuclear capability nine years ago, and that the chance must now be taken to neutralise Irag as a military power for

years to come. Israeli security sources vesterday said the United States was finding it difficult to prepare the American public for the "cold, hard fact" that in any Gulf war thousands of Western hostages and American troops might perish. Large numbers of Iraqi civilians would also die in bombing

"It will be Hiroshima without the atomic bomb," one intelligence source said.

WASHINGTON

## cost of call-up to industry

From Susan Ellicott IN WASHINGTON

IMAGINE trying to run an airline and suddenly finding that roughly one in six of your pilots must quit his job without handing in any notice. Or telephoning your hospital in advance of a major operation to find that your trusted surgeon is no longer available.

These are but two possible scenarios that could bring home to Americans the reality of being on the verge of war with Iraq, after a decision by President Bush this week to call up thousands of military

His announcement, though expected, has left many of the country's more than one million reserve and National Guard members in shock. Not only is the call-up the first for military purposes since the 1968 Tet offensive in Vietnam, but it is also the first time a US president has called upon America's so-called "weekend warriors" since President Nixon ordered them to deliver mail during a postal

strike 20 years ago. Richard Chency, the defence secretary, has authorised the call-up of 49,703 reservists by October 1. Legally Mr Bush is entitled to activate as many as 200,000 for up to 180 days without approval from Con-gress. Among the bank clerks, doctors and lawyers who traditionally leave their jobs for occasional weekends of duty and "summer camp" each year, are many who are psychologically ill-prepared for active duty.

Those who could be re-

quired to lend a hand include 13 members of Congress who would have to give up their seats if their units are called.

Those who previously enjoyed the extra pocket money brought in by their reserve duties are now contemplating significant loss in income if called up to take the place of absent, full-time members of the US armed services. Their employers, too, are mulling their legal obligations to mem-bers of staff who may have to

Army reserve offices have reported a deluge of telephone calls from employers and employees wanting to know their rights. Many employers have been surprised to learn they are obliged to hold open a reservist's job for at least four years. They are relieved to ar they do not have to pay the employee during that

The call-up underscores how the United States has reorganised its armed services to rely more on part-timers since the abolition of the draft in 1973. Although economists have said the call-up will not damage the US economy in the short term, at least some companies have reason for concern. American Airlines, for instance, has 1,200 pilots who are reserves, representing about 15 per cent of its total.

Military experts have interpreted Mr Bush's decision as sending two possible signals: either he wished to stress to Iraq America's willingness to fight, or he wanted to deliver a message to the Democrat-led Congress that the US cannot weather deep cuts in its defence budget if it needs to activate reserves during an emergency.

Mr Bush's decision to call up the reserves is also likely to be useful to him as a gauge of public support for military operations in the Gulf. So far. as Americans typically rally around their leader in the early stages of a potential conflict, opinion polls show he has their overwhelming support - at least while there are no civilian casualties.

**PALESTINE** 

## Arafat takes tumble in balancing act over region's tensions Even Mr Arafat, a master of Iraq. "The Israelis were able to

Arafat: dealt a blow

From Christopher Walker IN AMMAN

TO THE delight of Israel, one of the first casualties of the Gulf confrontation has been Yassir Arafat and his mainstream Palestine Liberation Organisation, whose credibility and finances have been badly hit without a single US bomb being dropped. From the moment that Iraqi

troops crossed into Kuwait the organisation was torn by conflicting pressures. The Gulf states. notably Saudi Arabia, which traditionally finances the PLO, expected it to condemn Iraq, while Palestinians in Jordan and the Israeli-occupied territories lauded President Saddam as a saviour and Arab nationalist hero.

The Palestinians, dogged throughout their history by illfated choices, saw Mr Arafat give his backing to Iraq, a move which, despite subsequent ineffectual rowing-back, will have done the PLO grave damage. Even before the invasion the PLO chairman appeared to have hitched his

wagon to President Saddam and thrown away 18 months of diplomatic effort to win a place in the Middle East peace process. He is now likely to lose much of the PLO's funding.

Scorn for the PLO's uncomfortable stand in trying to please both the strongman of Baghdad and the money men of Riyadh has been greatest in Egypt. Relations between the moderate government of President Mubarak and the PLO were already near breaking point. Soon after the emergency Cairo

summit meeting on August 10, at which Egypt claimed that the PLO had voted on the side of the Iraqis, al-Ahram, the main Cairo daily, carried a cartoon depicting Mr Arafat as a pair of Siamese twins facing in opposite directions. One was following a sign reading "Occupied Kuwait" and the other "Occupied Jerusalem". Each of the two Arafats was carrying a placard. One read "Viva taking territories by force", while the other parroted the regular PLO complaint against Israel by declaring, "Down with taking territory by force".

verbal ambiguity, has been unable to find suitable middle ground capable both of keeping his members happy, appeasing his main patron. President Saddam, and maintaining the favour of the Saudi royal family.

With Egypt, the Saudis have been dismissive of the PLO-Libyan attempt to provide a Gulf peace initiative. Under the terms of the "plan" Mr Arafat has peddled in various Arab capitals Arab troops would supervise an Iraqi withdrawal from Kuwait and then protect the rights of neighbouring countries.

As well as damaging the PLO's standing with conservative Gulf states, which are estimated to have handed the organisation some \$10 billion (£6.2 billion) over the past 20 years, the crisis has strengthened Israel's argument against both the PLO and the notion of an independent Palestinian state on its border. The invasion of Kuwait enabled the Israelis to hand America a Mossad (secret service) dossicr, detailing PLO links to

plead for sympathy from the Bush administration as well as to cash in on the abhorrence felt around the world for Saddam," an Amman-based diplomat said. "The clear message from Jerusalem was that an independent Palestinian state would constitute a second Iraq."

Attempts by the PLO to try to extricate itself from the Cairo vote (dismissed by many senior Arab officials present in Cairo) threatened to force it into conflict with grassroots Palestinian support for President Saddam in the West Bank, Gaza Strip and Jordan which is now at fever pitch,

Young Palestinians have relied on emotion rather than reason to depict President Saddam as the new Arab hero who will liberate Palestine.

"if he does," one disgruntled Palestinian refugec from Kuwait said, "it will be on his terms and not those of Arafat".

The 700,000 Palestinians living in the Gulf, notably the 300,000 who were in Kuwait, have reacted differently from the young mili-

Mr Arafat's pro-Iraqi stand. "How can we any longer have respect for Arafat when he has backed a man whose soldiers have stolen all our possessions and who has forced us to leave with nothing?" asked a resident, aged 54, of Nablus on the West Bank who fled from Kuwait after working there for 20 years as a supervisor. He saw all his savings

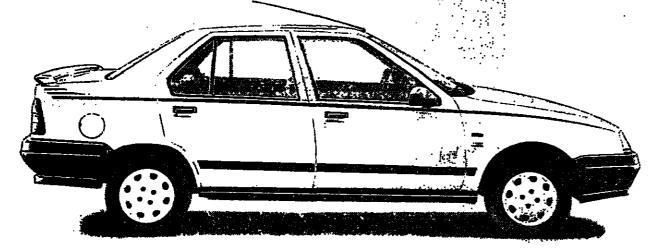

and his pension rights lost. The flare-up has also done immense damage to the Palestinian cause by diverting attention from the occupied territories and handing Israel support for its argument that solving the Palestinian problem is not the key to a stable Middle East.

"In the short term, the crisis obscures the problem that is central to the PLO's raison d'être. In the medium term, it stands to deprive it of a lot of funds, not only from governments but also from Palestinians in Kuwait no longer able or willing to send their remittances," a Western official

## RENAULT

THE REPORT OF THE PROPERTY OF

lesport

Introducing Le Sport, a special edition of the Renault 19 Hatchback and Chamade.

Both versions already display considerable flair.

Now they have distinctive body striping, a sports spoiler, a glass sunroof and smart 'Mondial' wheel stylers. The option of three ice-cool colours completes the look.

All this on top of what you already get with the Renault 19. A rough aerodynamic body that encloses more space than any other car in its class.

The choice of a 1.4 'Energy' engine for a perfect balance of economy and performance.

Plus, with the Chamade, even higher levels of elegance and style. (We designed it as a saloon, not a hatchback with a boot.)

And now both versions of Le Sport can be yours on very healthy terms. 0% finance over two years. (There are attractive terms on all other Renault 19s, too.)

Which means you can take up Le Sport without losing pounds.

## MIDDLE EAST: RELEASE OF HOSTAGE

## Release was part of long Iranian plan to restore relations

By Edward Gorman, irish affairs correspondent

THE release of Brian Keenan, meanwhile and Charles representations to the people which finally became a reality
yesterday after countless false
starts are represented to the property of the president's office. You starts, owes more to the they have long viewed as a have to accept that in parts of machinations of Middle East potential Irish diplomatic the Lebanon the only aupolitics than it does to the triumph. campaigns on his behalf by lrish diplomats and his sisters.

When his release looked possible in July, most analysts interpreted it as another carefully planned step in the diplomatic and political campaign by Iran to gradually restore relations with Western powers. An Israeli air raid on Hezbollah targets in southern Lebanon stopped that.

Observers of the Iranian regime believe that the same Objective is behind Mr Keenan's release. They argue that those in favour of it in Tehran have had their positions strengthened in the interim by the Western build up, and by President Saddam Hussein's amassing of thousands of hostages.

Another key element is the apparent "transfer" of 15 Shia prisoners held in Kuwait to baghdad by President Sad at all the freedom of which was a central demand of the Hezbollah movement which

citizen of a neutral country whose abduction in the first official sources and to so-place is generally considered called "intermediaries", o have been in some sense a including Shia clerics and mistake", is an intermediate militia leaders who liaise beto have been in some sense a step by pro-Iranian kidnappers, suggesting that further releases of British and Ameri-

In Dublin particular plea-sure is derived from the fact that Mr Keenan chose to treat to have been helped by a himself as an Irishman and not British and to make this clear to his captors and fellow hostages, in spite of being a Belfast-born Protestant.

Irish diplomatic efforts on his behalf were stepped up in April this year after the release of Frank Reed, an American hostage who had spent time with Mr Keenan in captivity and was able to explain fully for the first time his wish to be represented by Dublin. A flurry of diplomatic activ-

ity followed from Irish ambassadors to Syria based in Saudi Arabia, to the Lebanon-based staff. The charge d'affairs in Tehran atteinted to convince those who could influence Mr Keenan's kidnappers that they

The Irish emphasised Dublin's relatively good relations Hezbollah movement which holds most of the Western hostages in Beirgt.

Freedom for Mr Keenan, a in the Middle East.

This message was taken to tween governments and kidnappers inside Beirut. As one close observer of the

can hostages could be possible Irish approach put it, "In the in the near future. Lebanon there is not much the near future.

Lebanon there is not much real frish government point in confining your

thority is that which derives from the barrel of a gun."

Mr Keenan's case is thought recent visit to the Iranian capital by a delegation of Irish politicians. They are said to have made "the right balancing noises" to their Iranian hosts, and returned to Dublin sharply critical of Israeli behaviour in the occupied territories and in Southern Lebanon.

They were particularly vociferous over the treatment of 300 Shia prisoners held at Khiam by the Israelis, and publicly called for their

Elaine Spence (left) and Brenda Gillham, Brian Keenan's sisters, answering questions after hearing yesterday that he was to be released

## Impulsive and artistic teacher with love of life

community worker who went to Beirut more than four years ago in a spirit of adventure to teach and to do what he could to help ordinary

people (Edward Gorman writes).

His family believe that living for so long with Northern Ireland's troubles as part of his everyday life gave Mr Keenan a special understanding and affinity with the Lebanese and contributed to his fateful decision to choose a posting in Beirut over a similar one offered him in Libya.

He had been planning to spend only a year in the Lebanon based at the American

University in Beirut where he was appointed lecturer in English, before taking a holiday and travelling to India. He was kidnapped by Moslem gunmen of Islamic Jihad after only four months as he made the short journey on

telephone engineer. He was brought up in the Protestant East of the city in the closely knit community around the huge Harland & Wolff shipyard and attended Avoniel primary

After attending Orangefield secondary school, he went on to the university of Belfast at Coleraine, from where he graduated in 1974 with a degree in English. He spent the following year working as an English tutor in Spain before returning to his old school where

he taught English and took rugby.

Between 1977 and 1984 he was employed by Belfast City Council as a community worker and contributed to a number of projects designed to encourage integration between

foot to work one morning, and has been in captivity for a total of 1,574 days.

Brian Keenan is the son of a Belfast post graduate certificate in community studpost graduate certificate in community studies, a masters degree in Anglo Irish literature and a doctorate in English literature.

In East Belfast he was known as something of an eccentric and used to ride around on an old bicycle often in the company of his scruffy dog called Saoirse, which in Gaelic means freedom and which he left with his mother when he flew to Beirut.

His sisters say Brian Keenan is an artistic and impulsive character, at times gregarious and outgoing, at others a very private man who writes his own poetry and enjoyed long walks in the country. During captivity he is said to have dreamed of Ulster and in particular the beautiful Ards peninsula, running along the eastern side of Strangford

Lough, where his ambition is to farm pigs. He has a strong sense of humour which his sisters hope has held him in good stead during his incarceration. He is also thought to have exercised as much as he has been able and along with the British hostage John McCarthy, with whom he was incarcerated for a time, is said to be in good physical shape.
In spite of Mr Keenan's strongly loyalist

working class background, he regards himself principally as an Irishman and believes passionately in a future united Ireland achieved by peaceful means.

While he can claim both British and Irish

nationality he chose to travel to the Middle East on an Irish passport, a decision which is now considered to have been crucial in securing his release above his British fellow

## Sisters count the cost of four years of hope and uncertainty

that they have done every. The telephone calls, inter-thing in their power to secure views, travelling to meet other thing in their power to secure views, travelling to meet other neir brother's freedom. freed hostages and their fam-Their efforts have been ilies, meetings with the Irish conference marking the first unrelenting in the face of government, special events to anniversary of his capture, eo Brian's di meticulously recorded. The second anniversary. Dublin and maintained the sisters have compiled scrap books for each year and have stored piles of videos and literature recording Brian's

captivity and their campaign. The most difficult part of it Belfast housewives, who have has been coping with the about 2½ years before we had to come to grips with the regular flow of rumour and faced up to the fact that it was speculation from Beirut and from Fleet Street that has convinced the sisters that Mr Keenan was on the point of release, or death.

"You get very frustrated when there is no news coming through" Elaine said. "Then, of course, you get the times when you read things in the media that can be so damaging and you can't get them con-firmed. If it's rumour coming out of Beirut, you don't know if it's the truth or what it is and nobody will tell you

as possible each time there brother by the fireplace. as possible each time there in the hall, Brenda Gillham were fresh signs of a release, half expecting the news to be in another way'." bad again. The sisters have always said that the family would be happy if any hostage

they told reporters that the were sure there would be no

"The first year we kept thinking next week, next week, they can't hold him any longer," Elaine said. "We never ever dreamt it would be this long. It must have been

going to be a long wait."

By then their brother's captivity became an obsession which gripped the sisters ever more tightly as they became increasingly well known. It was soon impossible for them to go shopping in Belfast without people stopping and bringing Brian back to them with words of sympathy.

"Even if we were on a sociable night out, someone would come over to you and bring it back. There are people who don't have the courage without a drink or two to come over. It certainly became an obsession within the home, and it took other people to come along sometimes and say 'sit down, let's look at this

Over the years, the sisters have built up a strong relationship with the Irish government. They particularly appreciate the fact that Irish officials have, after an initial coolness, never talked down to them. From their conversations with support groups for British hostages, they believe that they have been treated far better than have their counterparts in Britain by the Foreign Office. Elaine is quite clear that she would not want the Foreign Office to touch her brother's case now, whatever the circumstances.

The sisters have already prepared themselves for the difficulties that may lie ahead. Their conversations with Frank Reed, the freed American hostage, in the United States earlier this year, taught them a lot about the possible psychological and adjustment problems Brian will face on his return. They believe they are going to have to get to know their brother all over again, although they are con-vinced, from what Mr Reed told them, that he is physically fit and in a reasonably positive frame of mind.

Among those who have suffered most have been Elaine and Brenda's four young children. "I think that we have all lost four years" Elaine said. "Our kids are affected by it. We are educated by it, but at the same time, if it is Brian coming out, we have four years to make up to our

# BEWARE OF CHEAP LIMITATIONS

## Some cheaper compacts

Beware cheaper cameras daiming to be fully automatic - some just won't be!

Autofocus, automatic flash maybe, but the chances are they won't have automatic exposure and that means some pictures will be too dark, some too light, and some just right - it's all a matter of luck.

The limitations of the cheaper camera will

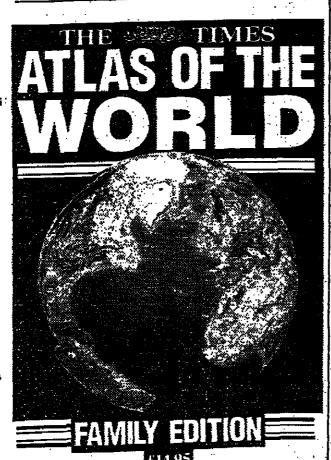

## The **NEW** fully automatic Minolta RIVA AF35

Perfect pictures every time at the touch of a button.

- Precise autofocus for ultra sharp pictures. Advanced autoexposure to give perfect exposure whatever the lighting conditions, not too dark, not too light, but just right, every time.
- Automatic flash whenever it's needed. The Minolta Riva AF35 makes the flash decisions
- Automatic film handling for complete peaceof-mind — it can even set the film speed automatically. The film is advanced after each exposure and rewound after the last shot on
- The self-timer will let you picture your own smile of satisfaction at the precisely focused and perfectly exposed picture.

There's no limit to the fun and pleasure you'll have with the new Minolta Riva AF35. Get the feel of it at your Minoita dealer today, it has to be the automatic choice.

TWO years after water supplies in Camelford, north Cornwall, were contaminated with aluminium sulphate, levels of aluminium nine times the EC limit have been recorded in tap water at a neigh-

bouring village.
Samples of drinking water collected at St Minver, ten miles from Cameliord, have revealed excessive levels of aluminium, iron, lead and manganese as well as traces of organic pollution. The private tests were conducted in March by the scientific adviser and county analyst's department of Somerset for north Cornwall's housing and enviromental service.

In its report, dated March 30 this year, the county analyst found that one sample contained 1.80 mgi of aluminium compared to an EC limit of .20 mgl, and levels of iron and lead which "grossly exceeded" the applied limits for drinking

the concentration of metals. They had been dislodged after the local main was flushed out on March 13 to clear dirty water caused by the burst. A spokeswoman said the problem had been rectified and that the metals could not be absorbed into the water itself and

had therefore posed no danger. Elizabeth Sigmund, of the South West Environmental Protection Agency, which has campaigned for an enquiry into the long-term effects of the 1988 contamination, said: "We have had other recent examples in north Cornwall of these metals being recorded at extremely high levels following flushes of the system.

Carole Wyatt, aged 46, who lives in St Minver, has aiready provided three recent samples for analysis. She claims that she had not been informed of the burst main until April, and that heavy brown particles still discoloured her watthe sampling and monitoring of the water supply in the Camelford area was now "meticulous" and that its quality was the best in the region. The South West water authority.

which was reponsible for water treatment in the Camelford region before being privatised last year, is being taken to court later this year by the Director of Public Prosecutions for the contamination in July 1988, when 20 tonnes of aluminium sulphate were tipped into the wrong tank at the authority's Lowermoor treatment

Since that date, Mrs Wyatt has been treated for a list of illnesses. She has suffered from stomach pains, diarrhoea and bouts of depression. Two toenails cracked and peeled away last month.

Mrs Wyatt is one of ten people who drank contaminated water who have been diagnosed as suffering from minor brain injury. She has been informed that her memory capacity may well have been reduced to that of a 70-year- in likely revenue because of the old. Now capable of working only a few hours a week as a council home-help, she also suffers from a mild form of osteo-arthritis.

Mrs Wyatt has joined some 60 lleged victims of contamination who, with county councillors and several medical specialists, are calling for a full public enquiry into the long-term medical consequences of the 1988 spillage.

Doreen Skudder, who leads the local action group, says many more people had been similarly affected but were too concerned at losing their jobs to come forward. "Most people in Camelford regard us as troublemakers. This area relies heavily on tourism and it does not present a favourble image to talk of something nasty in the water," she

Malcolm and Janet Van-Nuil moved to Camelford from Derbyshire in August 1988 after buying a local hotel. Last summer, they estimate their business lost £16,000

An enquiry has already been ruled out by the health department. which says that there is no evidence to connect claims of longterm damage to health with ingestion of the contaminated water. The department points to the findings of last year's Clayton re-port, commissioned by the government, which concluded that aluminium and other metals in water would not be absorbed into the body and that long-term health effects should be attributed to

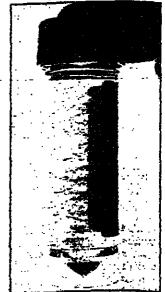

"anxiety", This week, however, a study published in The Lancer by a team of scientists confirmed that two of those contaminated in 1988 may well have absorbed toxic amounts of aluminium from their gut, which was then deposited into the

The study follows three reports by independent medical experts, released last month, which found

evidence of long-term damage to the health of those who drank affected water. In one study 11 people tested were found to have symptoms of minor brain injury that could not be attributed to anxiety. Another disclosed that 30 out of 40 were found to have 'significant memory deficits".

Last week, a random survey found that one fifth of a sample group of 60 people from the Camelford area had mentioned loss or deformity of their finger and toe nails.

Mrs Skudder and her husband Ivan have now put their house on the market and are hoping to move to France. Several protesters have already left the region and others are seeking financial compensa-tion. "It has been two years since the highest-ever concentration of aluminium was exposed to the public on this scale," Mrs Skudder said. "We just want an enquiry to find out once and for all what has happened to our health and why."

would be no competition." • Boeing engineers last night produced a modification to the engine pylon of British Airways' fleet of seven Boeing 767 jets that they believe will solve the problem of cracks that led to the recent ground-

ing of the aircraft. The changes, which will have to be approved by the tion in America and the Civil Aviation Authority, involve strengthening the bulkhead and spars that connect the Rolls-Royce engines to the wings of the twin-engined jet.

The 3in to 10in cracks were spotted by British Airways' maintenance staff in a routine inspection of a 767 at Heathrow. The discovery led to similar cracks being found in six of the seven aircraft in the

Bolts on the outer skin of the engine pylon appeared to have worked slightly loose, so engineers decided to strip the pylon to find the cause of the problem.

As a result, they saw the cracks in the bulkhead, to which the spars are mounted close to the wing, and it was immediately decided to ground the aircraft while modifications were designed.

British Airways is the only carrier to use the Rolls-Royce RB 211-524 G engine on 767s.

## Haemophiliacs 'denied safer BRITISH airports are fighting one of the busiest in Britain. director of Luton airport, said: blood treatment be airport claims that the airport claims that the life in the airport claims that the life in the airport claims that the life in the l

By A STAFF REPORTER

CHILDREN suffering from denied that Dr Winter had haemophilia are to be denied a been told to stop prescribing new specialised treatment the treatment for individual because it is too expensive, a doctor claimed this week. Dr Mark Winter, director of

the Margate haemophilia centre in Kent, has been prescribing an American highurity clotting agent for his child patients because he beeffective than the NHS Factor VIII produced at the Blood Products Laboratory in Elstree, Hertfordshire.

But Dr Winter said that his health authority was "pulling the plug" on him by telling him to prescribe the cheaper NHS product, which he dismissed as "yesterday's

technology".

The high-unity product, called Monoclate P, provides concentrated Factor VIII
while the standard NHS product is clogged with additional
proteins. Dr Winter said that South East Thames Health Authority had now told him to stop prescribing Monoclate P for any of his patients because

it cost too much. Although Dr Winter said he would like to give all his patients the new treatment, which is widely used in America and France, he agreed four months ago to prescribe it only to his child patients because of the added expense...

The new treatment costs 45p a unit against a product which is now free in his area although it will cost 25p a unit from next April.

A health authority spokesman said yesterday that dis-cussions were being held with several consultants in the ments for haemophilia. He shortly.

cases, but admitted that there had been discussions about how to contain overall costs for these patients. "We think there might have

been some misunderstanding," the spokesman said "The regional specialty team lieves it is safer and more that commissions haemophilia services is not becoming involved in individual treatments for patients. That is a matter for clinical judgment for doctors but we want to agree budget costs with them to meet the growing demand for these products." He added that changing treatments had increased the pressure on the blood products supply, which had obvious budgeting

implications. The case for monoclonal products is backed by the Haemophilia Society and leading heamophilia specialists. A leaked report from the regional haemophilia centre directors' committee endorses the use of monoclonal products although it admits there is little scientific evidence about their benefits.

"If it were not for their current high cost, and provided that further experience confirms there is no increased risk of inhibitor development, high-purity products would be preferred for the routine treatment of haemophilia," the report said.

The Blood Products Laboratory also recognised the need for a high-purity Factor VIII as well as the standard product, and an announcement about extending the region about prescribing treat- laboratory's work is expected

## been recorded Wildcat strike at Jaguar

workforce on the Jagnar assembly line at Browns Lane, Coventry, staged a two-sour strike yesterday as a minour spread that the company proposed to produce a new car at another plant. Management told shop stewards that their fears were unfounded.

Shop stewards sought assurances that any new middlerange executive model would be built in Coventry and not, as they feared, at the company's body plant at Castle Bromwich, Birmingham, where there is capacity for expansion. Management said that it had been told that the men would return to work on Monday. The unrest follows plans by Ford, Jaguar's new owner, to increase production from 50,000 cars a year to 150,000 a year by the end of the century. The move is expected to involve introduction of a middle-sauge execntive model to rival Mercedes and BMW. Ford is preparing a five-year business plan for laguar, expected to be com-pleted by November.

## Three face frand trial

Three men charged with conspiracy to defrand with share certificates worth £11.6 million, were committed to stand fron, were communed to stand trial at the Congral Criminal Court when the appeared at City magistrates, court, in London, yesterday. Lionel Rawinson, aged 67, of Elm Park Gardens, Chelses; Ziaul Siddioni, 45, of Grandon Gardens, Weinbley, and Christopher Huntals, 43, of Lower Mortale Road, Richmond, were all granted bail.

## Scientists put their case for animal experiments

By NIGEL HAWKES, SCIENCE EDITOR

medical research was issued yesterday by the British Association at its meeting in Swansea. It is an attempt by scientists to regain the initiative from animal rights groups against a background of opin-ion poll findings that show declining support for animal

The declaration has the support of the Medical Research Council, the royal colleges, the Imperial Cancer Research Fund and other scientific organisations, as well as ten eminent individuals, six of them Nobel prize winners. Further support is hoping that the issue would go expected now that the declaration has been made public.

on animals have made an important contribution to advances in medicine and surgery, and that continued research is essential for the conquest of many unsolved medical problems, including cancer and Aids, and genetic, developmental, neurological and psychiatric conditions.

Much basic research also needs animal experiments, to provide the foundation for improvements in medical and veterinary knowledge, the statement says. It acknowledges that the scientific community has a duty to explain the aims and methods of its research, to abide strictly by legislation governing animal experiments, and to use animals only when essential

and as humanely as possible. The declaration concludes: "Freedom of opinion and disattacks on people and property, hostile campaigns against individual scientists, and the use of distorted, inaccurate or experiments in Britain.

A STRONG declaration de-misleading evidence should be publicly condemned." Sir Walter Bodmer, director

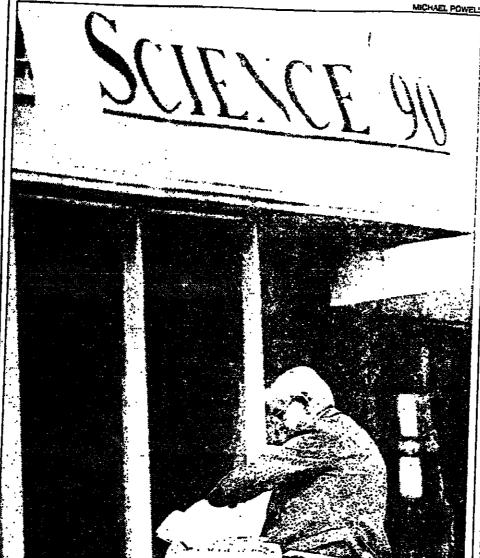

of the Imperial Cancer Research Fund, said yesterday that it had become more and more important to speak out for the use of animals in medical research. In recent years, the number of animal experi-ments had fallen, but their relevance had increased, with genetically engineered mice now providing precise models for human diseases.

Colin Blakemore, professor of physiology at Oxford, said recognition by scientists that keeping their heads down and away was not enough. They had to assert the necessity of It asserts that experiments using animals in medical research, balanced by the obligation on scientists to look after

their animals properly.
Scientists should be prepared to debate the issue, but they objected to defamatory and violent attacks

The statement refers only to medical research, and not to the use of animals in testing cosmetics, or their treatment in intensive farms. "It's a matter for society to decide whether we want or need more cosmetics," Sir Walter said. Only 0.5 per cent of the animals used in experiments were used for testing cosmetics.

The vast majority of the 3.5 million animal experiments carried out each year were simply manipulations of diet, or a single injection of a drug. Sir Waher said. In 85 per cent of them, the animals used were rodents. Relatively few cussion on this subject must higher mammals were used be safeguarded, but violent Ten times as many cats and dogs were destroyed by the RSPCA after being abandoned than were used in animal

## Uphill effort to alter acquired sex-role models

ADOLESCENTS are extra- flicted with expert argument, ordinarily resistant to mes- the folk model usually won. sages about sex equality. preferring to believe "folk models" about human behaviour acquired at home and school or in a job or family

setting (Nigel Hawkes writes). Sara Delamont, a sociologist from the University of Wales at Cardiff, told the much better chance of changassociation that most of the efforts to promote sex equality had ignored the myths about gender strongly held by childen, parents and teachers.

"If teachers believe that sex pupils that any adolescent girl vho takes an apprenticeship in a garage is "boy mad" and any boy interested in fashion design is gay, programmes to change their ideas and practices have to start from those premises," she said.

Experts frequently de-

spaired when people did not follow good advice or behaved in self-damaging ways. The reason why they did so was that they had a logically consistent folk model of life, which was quite different from 'scientific" or "expert" mod-

Teaching designed to change pupils' views should therefore begin from the target group's lay beliefs, not simply ignore them as most sexequality initiatives so far had. That, Dr Delamont concluded, would give them a

ing minds permanently.

John Archer from the department of psychology at Lancashire Polytechnic, reported that his studies among children did show some lessening roles are genetically deter- of sexually stereotyped attimined (that women, for instance, are naturally more over the past decade. He con-patient with small children) or cluded that the generation now in the early years of sec-ondary school took a less gen-der-linked view of subjects. • If the government refused to set up a royal commission into education, as recom-mended this week by Sir Claus Moser, the association will establish its own high-level committee to do the job. Sir Denis Rooke, who took over yesterday from Sir Claus as president, said the association would hold early discussions with other organisations about

setting up such a committee.

## Restarting the human heart

By THOMSON PRENTICE, MEDICAL CORRESPONDENT

pital, Newcastle upon Tyne, and David Cumberland, of the Northern General Hos-Sheffield, described

some of them yesterday. At least 100,000 deaths a year in Britain are due to ventricular fibrillation. That is when chaotic irregularities in the heart stop blood output and death from brain damage follows within four minutes unless there is speedy resuscitation. "If we were able to prevent this rhythm disturbance, it would have a major impact on national health," Professor Campbell said.

Spectacular advances have been made in developing drugs, electrical devices and surgery to prevent it.

Cardiopulmonary resuscitation, in which a surgeon cuts open the chest and squeezes the heart with his hand, was introduced in 1940. Few patients survived the technique. but it led to more sophisticated methods.

Defibrillators that deliver an electrical charge to the chest and jolt the heart back to

life are in common use and the man heart going or to restart government recently said that when it stops are becoming all ambulances would carry ever more ingenious. Ronald the equipment. Drugs to prefibrillation have had little success, and in some cases, death rates have been higher in patients given them than in those on placebo therapy. Beta-blocker drugs, how-

ever, have shown remarkable promise in reducing deaths among heart attack survivors. Defibrillator implants have been used for ten years but cost £12,500 and have to be replaced after four years. Surgical techniques in

which abnormal areas of the heart that cause rhythm disturbance are identified from their electrical "signature" and then removed were producing remarkable results. Dr Cumberland described the use of a small balloon, inserted into an artery in the groin and guided towards the heart, which was inflated to split material that had narrowed or blocked the coronary artery. The operation was carried out under local anaesthetic, and if successful patients could go

home within two days. There were drawbacks and narrowings returned in about 25 per cent of cases.

## Action needed to heal rural scars

CLEARER and firmly enforced guidelines will be needed if large areas of the methods of agricultural countryside are not to degenerate into a kind of extended suburbia, Dame Jennifer Jenkins, director of the National Trust, warned the association yesterday (Nigel Hawkes writes).

In each of the past five years an average of nearly 14,000 acres of open countryside had been developed, she said. In 1987-88, 161 sites of special scientific interest were either partially lost or suffered such severe long-term damage as to have lost the qualities which made them special in the first place. If damage were to continue at this rate, by the year 2025 more than half hose special sites would be lost or blighted.

The 50 per cent expansion of the road-building programme recently announced by the government posed an additional threat, she said. The plans were equivalent to building a motorway 257 lanes wide from London to the Scottish border, and the extra traffic generated would need an area the size of Berkshire

for parking. She called for a be return to more extensive production, together with the planting of broad-leaved forests, to protect the character of the countryside. The planning system needed to be "firm and predictable" and give greater weight to environmental con-

"In the last decade the trend direction. Planning authorities' powers have been restricted and their decisions have become more likely to be overturned on appeal." In the decade beginning 1979 planning appeals in England had more than doubled and those allowed on appeal had more than trebled. The results were apparent even in the national parks and other areas des-

gnated for special protection. With new policies, the countryside would continue to shrink in size and be degraded in quality. It was our duty to future generations to do what we could to heal the scars and conserve the countryside, she

## Tent city 'serfs' demand justice in Red Square

been: travel to Moscow and pitch a tent on the grass in

front of the Rossiya hotel. On the fringe of Red Square, of St Basil's cathedral, the Rossiya lawn is an evocative and historic site from which latter-day serfs are trying to petition the latter-day tsar.

The Rossiya hotel behind them is a concrete-and-glass structure of disgraceful ugliness. It is occupied mostly by foreigners during the holiday season but, come September, when the Soviet and Russian parliaments reopen, deputies from all over the country will cross Red Square from the Rossiya to the Kremlin.

The petitioners are trying to hold out at least until September 3, when the Russian parliament reconvenes. City police have threatened to move the encampment by force - demonstrations inside the inner ring road are illegal unless approved by the central government — but new tents appear each day.

The latest arrival is an elderly woman from Leningrad. "I drove a tram for 30 years without any accidents, I was the best tramdriver they had," she will tell arryone who will listen, "Then they threw me out . . . they promised me a new flat, but when I went to look at it I was grabbed by two men in white coats who broke my arm in four places." She rolls up her sleeve to reveal a white, disfigured forearm. They took me off to

Almost every contemporary Soviet cause is represented There are mothers campaigning against conscription after their sons were killed, in accidents or in bullying, while doing their military service. There are ethnic Turks, swarthy young men and women, wanting to return to the traditional homeland in the ents were forcibly transported by Stalin.

WHAT do Soviet citizens do There are individuals who when they have nowhere else have suffered from the arto turn for help? For the past bitrary rule of local Comthree weeks the answer has munist party overlords. "I was dismissed from my cashier's job so that the party secretary could give it to a relative. Now I am destitute. Give me

in the lee of the curled domes justice," reads one placard. Each tent has its own placard, wrapped in clear plastic against the uncertain weather They also have little boxes for

aims from passers-by. There are people who have spent years looking after sick relatives and now have no means of support; there are others who claim that members of their family have been unjustly imprisoned. But all. are people who, for one reason or another, cannot exercise the rights - to education, to work, to basic living standards - which the Soviet state sup-

posedly guarantees. "President Gorbachev," reads a carefully handwritten placard propped up against a tent with a small fair baired girl inside, "your grandson will be starting school on September i, but i am not allowed to go to school. Give

me my legal rights."

Story after story highli not only the tyranny of in-dividual local officials but the cruel unity of Soviet life. Loss of a job means not only unemployment (which still theoretically does not exist) but eviction from liquing ineligibility for medical treasment and loss of pension. To fall fool of one part of the system means that the other parts do not recognise your

From Nick Worrall

ARMENIA is making urgent military and diplomatic moves to control the state of near-civil war on its border with Azerbaijan. Armenia is one of the latest Soviet sepublic to proclaim its independence from Moscow.

Levon Ter-Petrosian, the republic's new nationalist president, told parliament in Yerevan that he had had talks at the border town of Idzhevan with Colonel-General Yuri Shatalin, com-mander of Soviet interior

ministry troops, and with Azerbaijani authorities. His admission is bound to anger some radical Armenian nationalists who regard themselves as virtually at war with Azerbaijan since the flare-up of the dispute over the mainly Armenian Nagorno-Karabakh autonomous region in 1988 and the death of many Armenians in Azerbaijan at the

beginning of this year.
The diplomatic moves came in the wake of Moscow's decision on Wednesday to send tanks and troop reinforcements to the troubled northeast border area where members of Armenia's many unofficial armed groups were reported to have been firing shells into Azerbaijan. Tass said about 100 homes had been destroyed by the shelling but the Armenian guerrillas who had crossed the border had been driven back.

President Ter-Petrosian denied in Parliament yesterday that Armenian fighters had been driven back. He said they withdrew under an agreement drawn up at his border meeting. He added that Armenia would agree to the setting up of neutral border zones only if the main road link between Armenia and Nagorno-Karabakh were reopened.

The Armenian parliament's almost unanimous adoption of a declaration of independence was a first step towards establishing independent statehood. It is now "a selfgoverning state imbaed with the supremacy of state authority, independence and sovereignty". It rejects the Soviet constitution by asserting that only Armenia's constitution and laws operate in its territory. The Armenian Soviet Socialist Republic is now to be known as the Republic of Armenia and the official Soviet flag has been replaced by the old independent tricolour of 1918.

## Armenia | Serb MP cools the stirs fury war fever of Croats

From RICHARD BASSET IN ZAGREB

THERE were jeers and emotional scenes in Croatia's parliament yesterday when Jovan representing the Serb Democratic Party, defended the Serb seizure of arms at Kein, in southwest Croatia, last weekend. Knin has a large Scrb population which has grown increasingly restless since Croats elected the Croat Democratic Front in free elec-

tions earlier this year. Despite unrelenting barracking, Mr Licina attacked the Croat government for ignoring the rights of Serbs. The Serb nation in Crostia is far older than the Croat nation," he said, amid whis-

ties and cries of protest. He went on to accuse the Croats of genocide, provoking yet another outburst. Yesterday's parliamentary session served only to emphasise the depths of batted and suspicion between Serbs and Croats.

Stjepan Mesic, the Croat prime minister, in his, turn accused the Serbs of organising civil disobedience. He said their behaviour was not, as they claimed, a defeasive reflex of the population but a carefully prepared conspiracy to overthrow the constitutional order and democratically elected government of Croatia\_

Rumours that the Croat authorities had released crim-inals to attack the Scribs were all "Serb inventions", Mr. Mesic said, going on to accuse the Serbian media of conspiring to strip Croatia of territory and of advocating the es-tablishment of a greater

In particular the cight-mar Yugoslav state presidency, led by Boris Jovic, a Serb, was guilty of partiality towards the problem, he said. The role of Yugoslavia's other main federal institution, the Yugosiav Army, was also ambiguous.

The Crost parliament yesterday welcomed the decision to charge two young Serb-officers of the Knin garrison for allegedly siding with the Serb population.

But the army position is still unclear, especially since two Yugoslav army MiG fighters last Friday apparently inter-cepted Croat police belicopters trying to restore order around Knin.

Statements by the Yugoslav army spokesman denying any involvement in the events around Knin still have to be clarified. Ominously, the Yugostav army denial has been accompanied by warnings that it might invoke its constitutional right to "intervene to

# Job quotas scheme in India stirs caste hatred

From Christopher Thomas in Delhi

POLICE bombarded high- the country. The revival of the caste students here with tear proposals has provoked big demonstrations in Uttar Praliament House to protest against government job reservations for "backward classes". Caste classes are being reported across half a desh, Rajasthan, Orissa, Bihar and other states, principally involving students worried that they will not get a government job because of job deservation.

There was uproar in the Lok Sabha (lower house) as the opposition Congress (I) party accused the government of creating "explosive" caste divisions. Government ministers said defiantly that they were determined to press ahead to fight the "stigma of birth" suffered by the back-

implement job quotas along the lines recommended by the Mandal Commission on Backward Classes nearly a decade ago. These aimed to ease lower-caste Indians out of poverty by guaranteeing them government jobs. Before the findings were shelved bloody riots against the low castes broke out in several parts of

## Bhutto leaders in hiding

From Zahid Hussain In Karachi

MANY leaders of Benazir Bhutto's Pakistan People's party have gone underground for fear of a crackdown on the party, reports here suggest. Large contingents of police have also been posted around Bilawal House, Miss Bhutto's residence in Karachi.

The reports come after the military-backed caretaker government directly implicated the party in the sniper fire in Karachi on Wednesday which killed 31 people and wounded 50. Jam Sadiq Ali, the chief minister of Sind. province, disclosed that 28 party activists were among the 32 people arrested by the

Unidentified gummen indiscriminately fired from cars at people celebrating the return from London after a kidney operation of Altaf Husain, the chief of the Mohajir Qumi movement trols Karachi politically, was the main opposition force against the deposed government of Miss Bhutto.

Aflab Shaban Mirani, the deposed chief minister of Sind province and a prominent Pakistan People's party leader, has strongly condemned the arrest of party activists on murder charges and accused the caretaker government of lying in implicating the party. The regime on the one hand trying to malign the PPP and on the other the actual terror ists are not being arrested."

Zahid Sarfraz, the home minister in the caretaker government, has denied, however, that action against party activists was taken after the administration failed to implicate Miss Bhutto in corruption charges. Mr Sarfraz said the government had received information about the party's plan to create law-and-order

some Pakistan People's party leaders and put them on trial on charges of terrorist on charges of terrorist announced. (AFP)

reservation.

Government jobs are greatly prized in India because they offer security, pensions and free housing in the higher

In the protest outside par-liament, thousands of students converged on the main gate and disrupted traffic for miles around. Police fired tear gas shells when the students charged a security cordon, The government intends to creating a stampede in which several young people were injured. Youths smashed the windscreens of parked cars and hurled stones at police Many had travelled to Delhi in hijacked buses. It was the

second day of violent protest. As protests increased across the country the government announced in parliament that it was determined to implement the Mandal Com-

mission recommendations in full. The report identified 50 castes as backward, and recommended that 27 per cent of government jobs should be set aside for them in direct proportion to their numbers in the population. The pro-posal was ignored by the Congress (I) party, which lost

last November's election.

Harijans (Untouchables)
and tribal Indians, also known
as scheduled castes and scheduled tribes, are already entitled to an allocation of 22 per cent of government jobs. In practice they occupy a much smaller number of postions. mainly because of bureaucratic resistance. In theory the new proposals will mean that practically half the hundreds of thousands of government posts throughout India will be set aside for Harijans and the backward classes.

B. P. Mandal, the author of the report, who died two years ago, was from a lower caste. mendations said that, far from advancing the low castes, his report would emphasise caste divisions and create a violent backlash against the backward classes. It was argued that illeducated people from lower castes would lower the standards of the bureaucracy.

the prime minister, who is from the high-caste Rajputs, told parliament that job quotas would give the backward classes an opportunity to imdards. His move appears designed to capture the electoral support of Harijans and the low castes.

People from the high caste who account for a quarter of the population, dominate gov ernment, business and the professions. The increasingly violent conflict over job quoof caste-based politics.

## Liberian rebel attack fails to take airfield

carrying West African peacecity's port. But witnesses said poorly trained, appeared unable to breach the solid army elections within 12 months. defences.

Reporters saw about a hundred fighters mass at the city's eastern battlefront to attack Payne airfield, about two and half miles from President Doe's heavily fortified mansion. In a war confined largely to small arms, the rebels deployed an unusual amount of artillery in the attack. They fired two 80mm mor-

tars and a few rounds from a four-barrel anti-aircraft gun before advancing on foot towards the airfield. Heavy gun-fire crackled for at least two hours, interspersed with the boom of government mortars aimed at rebel lines.

A photographer who accompanied the rebels into battle said President Doe's troops were solidly en-trenched, blocking the rebels well before they reached the The 3.000-strong West Af-

REBELS loyal to Charles Tay-lor, the Liberian guerrilla lead-assembled by the Economic er, staged a big assault on an Community of West African airfield near Monrovia, the States, consists of troops from capital, yesterday as ships Sierra Leone, Guinea, Nigeria, The Gambia and Ghana. It keeping troops arrived off the has been mandated to enforce a ceasefire and create conthe rebels, many of them ditions for setting up an interim government to hold

At the moment a week-old ceasefire is in place between President Doe and Prince Johnson, the breakaway rebel the government-held Spriggs leader, whose men hold the port area. Mr Taylor, leader of Patriotic Front of Liberia, has refused to accept a truce and has said he will also tight the peacekeeping force, accusing it of aiming to keep President Doe in power. Many fighters at the eastern

front appeared to have no orders about what to do if they encountered soldiers of the peacekeeping force. Some said they would attack foreign troops on sight, but others said that they would fire only if provoked.

Morale was mixed. Mr Tay-lor's rebels often seem reluctant to fight, and diplomatic sources say one commander recently sent a radio message to a Western embassy saying he wanted to surrender.

## Just what your business needs. Someone to pull your products apart.

Your products are selling nicely enough. So it's probably best not to make too many changes, right?

Wrong. If you want to stay ahead of the game, you have to make the running.

And that often involves taking a long, hard look at your products, to see if there's room for improvement.

And if you think that's a job for an expert, you're right. It's a job for a product designer. Contrary to popular opinion, designers do more than

just make products look better. Instead, they look for better ways to make products.

Or ways to make them better products. They look for better materials to make them from. Or techniques to make them cheaper. Or even, just occasionally,

Which is all very well, but what if your business is too · small for you to afford a designer of your own?

more expensive.

Coincidentally enough, that's where DTI can help.

Take the Design Initiative, and DTI will pay for up to two thirds of a designer's fee for up to 15 days.

A designer with skills and experience relevant to your product field.

## Today's just Samaritan

**Clifford Longley** 

The parable of the Good Samaritan has been much abused in political debate. Mrs Thatcher has used it to make the point that, to be charitable, the Samaritan first had to have money in his pocket. On the other hand, the parable is often cited as the moral basis of the welfare state. It is a pity that one of the eleverest stories in the New Testament has lost most of its meaning by being reduced to a platitude about

helping the less fortunate. Whether there is such a thing as social justice is increasingly controversial in political debate in Britain and America. The failure to make society fairer is said on the left to be the principal moral defect of free-market capitalism. while on the right, socialism is attacked as the vain pursuit of equality in the name of social justice. Dr David G. Green, director of the health and welfare unit of the Institute of Economic Affairs, has just published a pamphlet. Equalizing People. which argues the second view. He advocates "personal moral re-sponsibility" and benevolence, but voluntarily, and opposes use of the state as an instrument for economic levelling, which in his opinion is impossible.

Justice, at its simplest, is giving someone what they are entitled to. Among Jews, long before Christ. the word came to refer specifically to alms-giving, which implies not only that the giver of alms had a duty to give, but that the receiver of aims had a proper claim on the giver. This understanding was assimilated by Christian thought. and later enriched by Greek philosophical notions of justice.

especially those of Aristotle. The audience to which Christ preached was, like him. Jewish. Steeped in the teachings of the prophets, they did not need to be told that a Jew had a personal obligation to help a fellow Jew. Had one of the two Jewish passersby-on-the-other-side stopped to help the man fallen among thieves, the story would only have made a point they already accepted. Had the victim not been Jewish, the story would have reminded them that their charity could extend even to helping

In modern popular culture, a Good Samaritan is someone who helps a stranger in need - an upright citizen who helps a drunk across the road, for instance - but in the original parable, it is the drunk, as it were, who helps the upright citizen. For Samanians were outcasts not bound by the teachings of the prophets, or so the Jews believed. Samaria was no place for a self-respecting person at all. A welfare state founded on the Good Samaritan parable would be manned by heroin addicts with Aids, for the benefit of the respectable middle classes.

Christ had swapped texts with a Jewish lawyer, ending with the words of Leviticus: "Love your ment of justice is not the state's neighbour as yourself. The par- business, what is?

able came in answer to the next trick question: "And who is my neighbour?", that is, to whom was a pious Jew bound to give alms? Christ never directly answered. The question was about the limits of social justice in Jewish teaching, and he replied that there should be no limits.

For the Samaritan was not a 'neighbour" because he received benevolence (as an object of pity), but because he was a giver (who was moved by pity). He proved himself the victim's neighbour. It was a trick answer, but it established that in Judaeo-Christian thought there can be no narrowing of the circle of those to whom the duty of alms-giving applies, and who therefore have a right to receive alms. (The Good Samaritan is not a specifically Christian tale, for it is clear Christ's wholly Jewish audience recognised that he was expounding Jewish scripture.) The story has other layers of meaning too, but its political force is relevant to Dr Green's blithe dismissal of social justice.

The claim of the new right is that the economic forces of the free market are natural and incluctable. One may speak of their "victims" only as one might speak of the victims of an earthquake, and it would be absurd to speak of an earthquake as unjust. Such victims, therefore, have no right to claim remedy for their condition. They must wait upon charity. The more fortunate who escaped the earthquake or benefited from the free market may perfectly well help them if wish, but this is voluntary.

The right opposes any coercion by the state in the name of social justice, for instance in the redistribution of wealth. And the essence of this dismissal is not that social justice is a disguised excuse for promoting equality (which is not part of Judaeo-Christian thought), but that the "victims" of capitalism are "owed" nothing. Whatever they may receive is purely ex gratia. The language of, justice, on the other hand, speaks of paying a debt, receiving what is due. Incluctably, according to the concept of social justice, capitalism creates its own creditors, the

Was the man who fell among thieves entitled to demand the help of the Good Samaritan? He was certainly entitled to the help of the priest and Levite, for they were bound by the Jewish law and prophets. The parable makes social justice a universal obligation, part of the natural law by which all are bound.

But obedience to natural law cannot be reduced to the status of a voluntary act, even if the law of the land does not compel it. Nor can obligations to pay what is due ever be ex gratia. So the question therefore is not about social justice but simply to what extent the state is the appropriate agent of its ment of justice is not the state's

## MATTHEW PARRIS

h Peru, Peru! What a mess...Each time I come to Lima I see a nation on the brink of collapse. Yet each time Peru seems to stagger on, reeling under the latest economic blow, IMF ultimatum, or terrorist bomb, to yet another brink. This one, surely, is the last.

"Only a few of us bother working," said the airport taxi driver, "now they have raised

the price of petrol."
"How much?" I asked boredly, thinking this the usual taximan's rant.

Thirty times." "Thirty times what?" "Thirty times-what it was last

He shot across a red light and the path of a bus called Heart of Jesus which took routine avoiding action. Heart of Jesus was so tightly packed that the head of an Indian boy was jammed sideways against a window. immobilising him. The whites of his eyes were showing and he appeared to be dead, but the glass against which his mouth pressed was steamed up, so maybe he was breathing. The bus lacked most of the body-

and both its headlights. Lima is full of tanks, iceos. watercannon, and soldiers. Between the airport and the .Church of San Francisco (beneath which lie catacombs containing the bones of the first two centuries of Lima's Spanish dead, dismembered and stacked by bone classification), we saw enough ammunition to sustain a small war.

work around its wheel arches.

"For security," explained our driver. "There have been bombs, hidden by Shining Path terrorists. Cars explode. Also donkeys, chickens, and children, with dynamite inside. Also there may be demonstrations and a general strike tomorrow."

'Against?' "Against inflation. Against el choque [the shock]. The president promised before the election that the economic crisis could be solved without a chaque. Now it comes. People are angry. They may throw

stones. Against inflation." It is true that the new president, the almost unknown Senor Fujimori, had aroused Thatcher, the First Lady of Choque, would say he has only himself to blame. By the Palace of the In-

quisition, bewildered soldiers fingered self-loading rifles and elderly teargas canisters as a crowd of women demonstrated. Against prices," said the taxi driver. "The price of noodles has risen by 700 per cent."

Ten dollars buys you a packet of notes in Peruvian intis, of which yesterday there were 310,000 to the dollar. Thomas de la Rue are sending them in by the jumbo-load. Rampant inflation, the loss of economic sovereignty... the whole thing is a sort of Thatcher nightmare.

I peer out of the taxi window. Setting the seal on the nightmare, an old man - presumably mad - is walking purposefully down the carriageway, dodging rush-hour traffic. He is naked. Peruvians stare out of buses at bim in mild alarm.

Lima is a purgatory. It sweats and shivers for half the year under a motionless grey bank of Pacific mist a cracked colonial ruin in flaking baroque and blistered wood, surrounded by one of the largest shanty towns in the southern hemisphere: a sea of urine-soaked corrugated iron. To north and south is desert. Meanwhile the Pacific pounds the shore at the feet of crumbling cliffs behind which the city squats, tipping its refuse into the sea. This is a magnifi-

cently wrecked environment. Beneath these cliffs we spent our first evening. Here, on a pier striding into the breakers, is the restaurant Rosa Nautica. Under glass pavilions, the Peruvian super-rich dine in tropical artdeco splendour, amid palms, fans and tinkling pianos.

The gates of the pier were guarded by soldiers with automatic weapons. For 30 yards along the pier to the restaurant door, an Indian with a rickshaw offered my parents a ride. And there was a monkey in a frock. For a fee, the monkey would select a paper, telling your fortune, from her stack

The soldier eved the rickshaw man: the rickshaw man eved the diners; smiled at the monkey. The monkey eyed the soldier. Oh Peru, Peru!

After Saddam's TV performance, John Grigg reflects on other dictators' dealings with children

## Never take humbug from strangers

Saddam Hussein's TV appearance with his British "guests". narrienland Lin "guests", particularly his gauche attempts to ingratiate himself with the six-year-old Stewart, have been rightly denounced as nauseating propaganda. In one sense, of course, such behaviour is not confined to dictators. Democratic politicians are even more prone to bogus displays of cosiness and human warmth, if only because they depend, as dictators do not, upon public opinion. All the same, when a man of Saddam's bestiality puts on a fatherly act,

the effect is peculiarly horrible. Character and motive are all-important. When a democratic politician puts his arm round a small boy and asks if he is enjoying his food and games, the politician's object is merely to win votes. He has no intention of using the boy and his parents as sacrificial victims in a war he has provoked, or as a means of blackmailing his opponents.

Tyrants have never been good at pretending to be nice. Some, to their credit, have not even made the attempt. Shakespeare's Richard III is not depicted in a cuddly scene with the Princes in the Tower, Stalin was not photographed amid family groups of kulaks.

Yet the desire to seem possessed of ordinary human emotions has been apparent in many dictators, mainly for reasons of political selfinterest, but in some cases, perhaps, partly to reassure themselves. The psychology of tyranny, like that of crime, is obscure, but the relentless cruelty must be a strain, and even the most dedicated tyrant may at times feel the need for a little relief. "When the enterprising burgiar's not a-burgling . . .

time playing the part of father of his people (in any case the French were not really his people; he was a Corsican bandit who used them for his own ends), but he was, in his way, a family man, genuinely fond of his son. Other children he largely ignored, but he treated his soldiers as children and spoke to them with a rough bonkomie, no doubt calculated for its effect on their morale. He addressed them

Napoleon did not waste much

as "tu", and with his phenomenal memory was able to astonish them by remembering their names. But he did not really care what happened to them (apart from a few old military friends, such as Duroc and Lannes, whose deaths caused him some distress).

Among 20th-century dictators, none has had Napoleon's wideranging genius. The Third World has produced a rich crop of monstrous tyrants who have butchered men, women and child-ren indiscriminately, but none has followed Herod in making children a particular target, and none until Saddam has used individual children as psychological weapons in an international struggle. Even Hitler drew the line at such

conduct, and he is also perhaps the strangest example of the patho-logically abnormal trying at times to be normal. In Inside the Third Reich, Hitler's armaments minister, Albert Speer, wrote: "I have so often wondered whether Hitler felt anything like affection for children. He certainly made an effort when he met them, whether they were the children of acquaintances or unknown to him. He even tried to deal with them in a paternally friendly fashion, but never managed to be very convincing about it. He never found the proper easy manner of treating them; after a few benign words he would soon turn to others."

Despite the advantage over Hitler of having children of his own, Saddam is obviously no better at winning youngsters round. Stewart showed a resolute unwillingness to respond in the way the dictator wished. Perhaps he was confused by the foreign language. At all events, the contrived scene backfired, because when Saddam said that the boy would be judged as a hero for his contribution to peace, many must have reflected that he would indeed be judged a hero, though for a quite different reason: resisting Saddam's hypocritical

Modern dictators have been all 100 well aware of the importance of youth in the mass. Following the Jesuit principle of catching a child's mind in its earliest years, the Bolsheviks established the

indoctrination of children as a major instrument of policy. Mussolini dragooned children from the age of four into his Fascist youth organisations, supplying them with toy machineguns and black shirts. And Hitler followed this odious model with

his Hitler Youth. Though Mussolini posed as an ideal family man, the indoctrina-tion of children is, of course, totally incompatible with family life. In the regimes which practise such indoctrination, children are encouraged to put the interests of the state above all natural loyalties, even to the extent of denouncing their parents to the authorities.

The present Iraqi regime is organised on these lines. More-over, Saddam has kidnapped hundreds of Kurdish children and even returned the eyeless bodies of some of them to their parents as a means of forcing the parents of the others to give themselves up. Though it may not be wise for western politicians to be too eloquently disgusted by his show of solicitude for the young, the

# How are we going to keep them down in the village?

n a housing market awash with misery, the plight of young couples forced by rising rural house prices to move from village to town may not seem too appalling. However, decent country people displaced from the communities of their birth by gentrifying telecommuters provoke sympathy which is denied to the urban homeless. More importantly, they pack a political punch. Rural voters want to preserve their communities from the social change that are sweeping the countryside. So local and central government have been under growing pressure to ensure the provision of cheap rural housing for local people.

Early last year Nicholas Ridley, then environment secretary, launched an initiative designed to provide "affordable" rural homes. At the time it was widely welcomed, but as it takes shape on the ground, a disturbing problem is emerging. The proposals threaten to deal a savage and unexpected blow to the fragile character of our countryside.

To protect the landscape, plan-ners have insisted until now that new building in rural areas must generally be kept within villages. Because of this, the supply of country homes has not kept pace resulting scramble the rural poor have been beaten to both new and existing houses by wealthier outsiders. Mr Ridley chose not to tamper with the sanctity of this market; instead, he decided to squeeze the environment.

He told local councils that land outside existing villages on which development would otherwise be forbidden could now be released for housing - so long as it was used only to provide cheap homes for local people. It sounded to many a neat solution. Since plots subject to this restriction would sell for less than ordinary building land, low-cost housing could be built on them at a profit. A few simple and unobtrusive estates would appear on the edge of villages. These would quickly soak up all those impecunious rural

couples, and that would be that. District councils, pleased to have some way of responding to local pressure, began to draw up their schemes. But as these plans start to appear, they are exposing a grave flaw in the initiative. The central problem is that

## Marion Shoard believes 'affordable' housing schemes are a nonsense and would destroy the countryside

"local" people are not a readily identifiable and finite group, yet they are being offered something that many people want: the right to a cheap country home. How are councils to distinguish those at whom their schemes are aimed from the many others scenting a good thing who may try to claim local status? How are scheme participants, genuinely local or otherwise, to be prevented from selling on the open market to outsiders, so converting such proper-

ties into ordinary real estate? If satisfactory answers to these questions are not found, then demand for affordable local housing schemes will not die away as existing needs are met. Rural councils will face an irresistible tide of claimants, and as the new low-cost homes spring up, their occupants' offspring and relatives will swell the ranks of those entitled to more of the same. The schemes will become a giant loophole through which the na-

tion's vast, pent-up demand for homes in the country can be expected to burst. The suburbanisation of our countryside, which only our planning system has kept at bay, will be upon us.

How, then, are councils tackling their difficult task? The new arrangements do not allow them to attach occupancy conditions to their planning permissions, so they have had to find other means of ensuring that scheme homes go only to local people. They do not seem to have cracked the problem. On the contrary, many councils seem warv of incurring unpopularity by appearing unduly restrictive. Some are extending eligibility not only to people living in their areas, but to their dependants, to people who used to live in the area but have moved away, those who work in the area, and even people who have merely established "kinship ties" with the area.

An awful lot of people can

who cannot will find that the wide categories of legitmate entitlement provide them with plenty of chances to cheat. If an applicant ends up using his cut-price house as a weekend cottage or a holiday let, who will be able to stop him? An existing loophole allows dwellings for farm-workers to escape the ban on building in the open countryside. Many of the

"labourers' cottages" which are built somehow end up as wellappointed homes occupied by wealthy commuters. The new schemes will allow scope for much greater abuse.

To prevent participants in the low-cost schemes from selling up at the market price, some may be required to sign covenants requiring them to sell only at prices set by the district valuer to people on a list drawn up by the council. There are, however, doubts about how enforceable such covenants will prove in the long term. Some

warned a year ago of the importance of correct spelling," he

says. "My list, though exhausting,

merely on the lettings policies of housing associations to enforce occupancy provisions.

As the dangers of affordable housing schemes become clear, there are already calls for a change of tack, in a report published this of tack. In a report published this week, the Council for the Protection of Rural England argues that instead of ending the countryside to create affordable housing, we should use some of the land already earmarked for development. In the 1980s, homes were built on hundreds of these were built on hundreds of thousands of plots within villages. In future, says the CPRE, planners should be able to restrict permission for building on such plots to low-price housing

Such as approach would certainly save the countryside, but it would be unlikely to solve the problems of the rural poor. As the homes created would be even more of a bargain, abuse would be that much greater, and even more of them would end up in the

hat we seem to be discovering is that in a free society, control of occupancy cannot easily be separated from ownership. The unwelcome corollary is that the only effective way of reserving housing for the rural poor would be to retain it in public mds. This of course is just what happened before the Thatcher housing revolution. The loss of 200,000 rural council houses because of the "right to buy" is one of the causes of the problem that affordable housing schemes

20

are supposed to solve. If the government really wants to exempt rural home-seekers from the non laws of the market, it ought to scrap its affordable housing proposals and bring back council housing. If it finds this unpalatable, it has only one honourable alternative. It should explain to the rural poor that it believes in using the price mechanism to allocate desirable commodities, of which homes in the country have become an excellent example. What the government must not be allowed to do is to continue trying to evade this choice at the expense of the character of our countryside. Marion Shoard, author of This Land is our Land (Grafton, £5.95). is a lecturer in countryside planning at Reading University.

#### claim a country cousin. Those councils seem likely to depend member of the society, has compiled a list of basic spelling errors from this year's exam papers which he marked. "Students were

is far from exhaustive." Among the hundred or so mistakes were rape for ripe, beas for bees, witch, for which and snale for snail. The society's vice-chairman. Peter Bassett, says: "The GCSE

results are being trumpeted as marvellous, yet pupils cannot spell properly even in English papers. The misspelling of chemical and technical terms is extremely worrying, and potentially dangerous." Like the late chemistry student who thought that the well-known explosive "night-time glistening" was a bedtime skin moisturiser?

• Inmates of Holloway women's prison in London were delighted when American writer Seth Morgan turned up to read an extract. from his new novel, Homeboy. They might not have been quite so pleased had they known they were second choice. Serenade in D Platt ligal Kennedy, the link between the man on the Clapham onnaibus and Antonio Vivaldi, has been appropriate the control of the c

pointed senior vice-president of

Aston Villa Football Club, Although born in Brighton, the spiky-haired violinist is a life-long Villa supporter and whenever possible watches home games from his seat in the directors' box. Once, while in New York, he had his parents hold the telephone near the TV to hear the entire 90minute commentary of a match. against Sheffield Wednesday. Bedecked in Villa's claret and

blue, he learnt of his appointment at the club's annual general meeting on Thursday night. He immediately reached for his violin case - swathed in stickers of the same colours - took out a 1707. Stradivarius and screnaded the 900 shareholders with an impromptu concert, finishing with a stirring version of the Match of the Day theme tune. Kennedy already claims much

success in introducing members of the Villa team to the joys of classical music, and now he says he wants to improve musical tastes on the terraces, which have generally been confined to out-oftune renditions of "Here we go, here we go, here we go". Supporters should not be surprised to find the public address system offering bursts of classical music amid the pre-match announcement of the team line-ups.

 His perfection marred only by his modesty, Clive Jenkins, the former empire builder of the trade union movement, declares on the back cover of his forthcoming memoirs: "I am not arrogant but I have been influenced by the leader who declared I have only made one mistoke. Briefly, 20 years ago, I thought I was wrong on an important issue. I was only wrong about my being wrong."

## War clouds' silver lining

ne person hoping that some good may come of Saddam Hussein's aggression is Salman Rushdie, who has had to endure a subterranean lifestyle since the fatwa or sentence of death imposed by the late Ayatollah Khomeini 18 months ago. He hopes that as lraq's belligerence nudges Iran towards rapprochement with the West, his plight will ease.

"He is cautiously optimistie," says Melvyn Bragg, who has just interviewed Rushdie at his hideaway "somewhere in England" for LWT's South Bank Show. "Although we didn't refer to the crisis in the Gulf on camera, we did talk about it privately. He has been following events closely on television and is just waiting and hoping. Nor did we focus on the Satanic Verses affair. I was very impressed with his resilience and spirit. He is holding up very well. it's a remarkable example of grace. under pressure."

To meet Rushdie, Bragg and his crew of seven had to resort to covert tactics which in other circumstances would border on the comic. None of the technicians was told where they were going or who they were about to meet.

Police were present throughout. The programme will go out on September 30, to coincide with the publication of Rushdie's new novel, Haroun and the Sea of Stories. Rushdie hopes to record extracts from the book for Radio 4 and take part in a telephone discussion on Kaleidoscope. The BBC refuses to comment.

"Sadly I don't think there is any

immediate chance of him resuming a normal life." says Bragg.
"What was very clear from the day I spent with him is that above all he desperately misses his son Zafar, by his first wife." Rushdie has dedicated his new novel to the 10-year-old boy whom, for security reasons, he has not seen since the madness began.

## **IRAQ'S OTHER VICTIMS**

Jordan's decision yesterday to reopen its border with Iraq to the thousands of refugees waiting to cross is a courageous humanitarian act which should be rewarded with prompt, and adequate, support in cash and kind. There is cause for shame that an international relief effort only began to get under way after the government had been compelled, to avert complete chaos, to attempt to seal the frontier last Wednesday. Since August 2, when Iraq invaded Kuwait, Jordan has played host to nearly 200,000 people, most of them arriving with next to nothing. Had such an influx of refugees been caused by drought or earthquake, the country would almost instantly have been declared a disaster zone.

Destitute as they may be, these victims of Iraqi aggression are comparatively lucky. The West can do nothing, beyond the firmest warnings of the consequences should harm come to them, for its own citizens held captive in Iraq and Kuwait, but at least it can speed these people on their way. Foreigners of more than 20 nationalities have not been barred from fleeing by Iraq, but well over two million of them are still in Iraq and Kuwait. Many of these frightened people, braving robbery and assault, are likely to head for the frontier.

Not all will make it, but even so, the migration will be on a scale demanding considerable logistical support. Today, thousands are camped in Jordanian schools, mosques and churches; more are sleeping on the streets. Jordan has already spent over £5 million on accommodation and transport for them, and the world must help provide temporary shelter, medical services and food. But the last thing they need is the establishment of vast semi-permanent tented cities. Victualling refugee settlements would, moreover, complicate the enforcement of an embargo against Iraq, since Jordan is still shipping goods across the border and some supplies intended for refugees would undoubtedly end up in Iraq. The priority must be to ensure that Jordan is only a way-station, not

a permanent sanctuary.

These people are by definition refugees, because they are fleeing, but unlike the majority of the world's refugees, they have a home to go to. That is not as simple as it

sounds. First, although 1.7 million are Egyptians, many come from the other side of the world. There are 50,000 Filipinos, more than 10,000 Thais and nearly half a million from the Indian subcontinent. The European Community's decision to spend £650,000 on chartered flights is a good beginning, but a wellcoordinated maritime bridge will also be needed. Egypt has doubled the number of ferries plying from Jordan's port, Aqaba, and has started an air shuttle, aiming to repatriate more than 12,000 a day. But with 50,000 Egyptians waiting at the docks, third countries should explore the offer by Syria to let its ports be used for ships ferrying Egyptians home.

Second, many of them have lived and worked for years in Iraq or Kuwait. They have been unable to draw the savings with which they might have set about rebuilding their lives in their own countries. High unemployment at home is one reason why they migrated to the Gulf in the first place. National, local and family solidarity will be severely stretched. Assistance with repatriation should not end once they arrive at the final port or airport. Many will need resettlement grants and, while national governments (whose exchequers have profited from their remittances) will quite properly bear most of the costs, the world has an interest in helping to ensure their successful reintegration in their home countries.

That is particularly true for Egypt. While already shouldering heavy military costs it stands to lose \$1.5 billion in foreign exchange remitted home by its "guest workers" in Iraq and Kuwait. Egypt's economy was in desperate shape even before the Gulf crisis. The return of some of these refugees will be a blessing, reversing a drain of manpower which has created severe shortages of teachers and skilled agricultural workers. But Egypt also has unemployment reckoned officially at 20 per cent, unofficially at nearly twice that figure. Initially, the plight of the refugees will further harden Egyptian hearts against Iraq. Unless they are helped, the economic and social strains caused by the exodus will add to President Mubarak's political problems. International solidarity with Egypt is not just a matter of charity: it is a vital Western interest.

## **ASIAN MILLIONS**

The sad queues of fleeing Kenyan and Ugandan Asians at Gatwick and Heathrow just over 20 years ago provoked a temporary racial backlash in Britain. Two decades on, the magazine Management Today has produced a happy and immeasurably reassuring sequel to those scenes of distress and uncertainty - the first thorough survey of Asian millionaires in Britain. The magazine estimates there are at least 300 of them, headed by the Hinduja brothers, the first British Asian billionaires.

The presence of this busy and prosperous community is an unqualified bonus to the country that took them in so hesitatingly. By benefiting themselves they have greatly benefited Britain. Asians - who increasingly ought to be called Britons of Asian origin - have a self-dependent culture that scorns reliance on state handouts and looks for security in personal wealth. Making it and losing it in Africa and lacking it on arrival in Britain, they had no hesitation in earning it once more. They are standing proof that Britain is a place which rewards enterprise, that starting at the bottom of the social heap does not have to mean being marooned there.

By no means all these success stories began with expulsion from Kenya or Uganda in the late 1960s, though any perceptive view of the quality of that influx would have detected all the signs of the arrival of a new British business class. Many of them lost their possessions and property and reached Britain not much better than penniless, armed with little more than an astute business sense and an almost fanatical

capacity for hard work. The Hinduja brothers are actually from Bombay, and Asians who came straight to Britain from the subcontinent are well represented in the list. But four of the top seven Asian businessmen catalogued by Management Today have this African connection. Asians, mostly from Africa, now own a large

slice of the corner shop grocery and newsagent businesses in Britain, and many of those shops would not exist without them. Often the whole family chips in, rarely are the doors locked at 5.29, usually they open on Sundays. They are invariably a boon to the local community they serve, even when it persists in good humouredly classifying them as Pakistani.

Even greater Asian fortunes have been made in property than in the retail trade, and Asians are becoming well represented in the professions. None the less, the overall pattern of their businesses still shows all the signs of a first generation's struggle to gain a foothold, ust like earlier mass migrations to Britain, the Jews in particular. As subsequent generations of Jews spread out from their early business and geographical bases, so the Asians can be expected to do likewise. The younger generation, either born in Britain or arrived in infancy, lacks nothing of its parents' dynamism. Teachers in British schools have begun to notice that Asian pupils often do well: in motivation, behaviour and performance they stand out from the crowd.

The secure economic base they have established has yet to show a proportionate social and political impact, however. The willingness is there, but not always the invitation - the English are slow to include outsiders. The leadership of the Prince of Wales in his recent request to leading Asian businessmen to participate in his Youth Business Trust deserves more imitation. Their response to his appeal proved both their generosity and their public spiritedness. They are eager to belong.

Many a hope for a harmonious multiracial Britain has been disappointed in the last 20 years. But the debit side should not be exaggerated. Asians have begun to contribute to British society in a way which suggests that the goal is still well within our grasp.

## A SLIGHTLY WORN SUIT

In times gone by there were monarchs whose touch instantly healed the sick, or so the monarchs' press agents said. Today, we seem to have gone one better - several better, indeed. At a London auction, the black leather outfit worn by Michael Jackson in the photograph which appeared on the cover of one of his records was sold for £16,500.

Let us take it step by step. A diagram might help. Mr Jackson made a new record; the record company decided that there should be a picture of Mr Jackson on the cover, Mr Jackson donned black leather for the photographer, the picture was taken; the leather suit presumably being of no more use to him Mr Jackson discarded it; somebody picked it up; it went to auction; the Hard Rock Cafe in Los Angeles bid £16,500 for it, the identity of the under-bidder being unknown; and this is the house that Jack built.

The first question is the most obvious. Black leather suits are hardly exclusive to Mr Jackson: is everybody satisfied that the one sold was the one the star wore at the photosession? The cynic might say that when you've seen one leather suit you've seen them all, and though the auction house would certainly have taken every precaution, there is always the possibility of an accident. It is, after all, unlikely that even Mr Jackson could be sure that a leather suit he had worn for half an hour or so, presented to him for identification, was

the real McCoy.) That, however, does not exhaust the problems this business poses. The proprietors of the Hard Rock Cafe in Los Angeles are entitled to their prize; they paid hard cash, and the jacket is theirs. But cynics are not to be found only in and around auction houses; what

happens when one of them walks in, seats himself on a bar stool and looks up? There, presumably in a glass case, is The Suit, labelled. But unless Mr Jackson is actually in the glass case wearing it, what proof is there that what the visitor sees really is the precious relic? (Some say that the figure in Red Square is not Lenin at all but a waxwork.)

What is most interesting in this tale is the fact that so many of the people involved are willing to ignore the possibility of a mistaken identity; apparently the drawing power of the suit is such that the crowds will come even though there are no certificates of authenticity available. Yet the crowds are still not seeing Mr Jackson; they are not even seeing a photograph of Mr Jackson; they are seeing a suit worn by Mr Jackson in a photograph. The question must be asked: does Mr Jackson's touch cure the King's Evil?

All day, the queues move slowly into Madame Tussaud's. No doubt Mr Jackson's figure is there; possibly, he is posed in a leather suit; more complications. Who knows how many leather suits Mr Jackson has? Salvador Dali, when collectors of his work brought him a painting, was frequently in the waggish habit of denying his hand when the picture was genuine, and simultaneously insisting on the anthenticity of an obvious take. Anyway, the collectors of Jacksoniana can comfort themselves. Whatever quarrels about authenticity there may be over their hero's discarded clothes, they will never get to the point reached by the man who was offering two guaranteed genuine skulls of Oliver Cromwell, one larger than the other. Asked how that could be, he replied coolly that the smaller one was Oliver's skull when he was a boy.

## Issues in Middle East beyond Iraq

From Sir Dennis Walters, MP for Westbury (Conservative)

Sir, Bernard Levin gratuitously drags me and some enlightened friends into his piece of August 23. He is, of course, wrong, as he usually is, on the Middle East, which he does not understand. His persistent Zionism, however, is of the benevolent and not the vicious

On August 7 I sent to you and other editors a lengthy statement which you did not publish. I made four main points, which I shall briefly repeat.

1. The blatant and unprovoked act of aggression by Iraq on Kuwait must not be allowed to succeed. 2. President Saddam Hussein's accusations launched at the Emir of Kuwait were a grotesque distor-tion of the truth. Sheikh Jaher al-Sabah is one of the most independent-minded and wise of Arab leaders, a Kuwaiti patriot and a genuine Arab nationalist.

3. The United States, the Soviet Union, the EC and the world community must take the necessary steps to ensure that Iraq does not profit from its naked

4. Then they must turn their attention to Israel, which has for more than 20 years, in flagrant violation of international law and United Nations resolution 242, continued to occupy and colonise Arab land in Palestine and elsewhere. That unresolved cancer is at the root of almost all the dangerous turmoil in the Middle

It is essential, in the interests of peace and stability in the area, that these problems should be addressed as a matter of the utmost

urgency.
Bernard Levin should also now try to make a serious study of the problems of the Middle East and not allow his prejudices to cloud his judgment.

Yours sincerely, DENNIS WALTERS, House of Commons.

From Mr Patrick Hanratty Sir, Mr Levin calls Saudi Arabia one of the most abominable and lawless states on earth". This statement cannot go unchallenged. I spent five years resident in

Jeddah working in a Saudi bank. Saudi Arabia is patently not lawless as it possesses a well-defined legal structure. The in-fluence of Sharia law and Islamic traditions give the law a strong cultural expression. The penalties for offenders can be harsh, for which the simple answer to those who criticise is "don't break the law". Perhaps a message for us

Some westerners find accommodating different cultures a distinct difficulty. Fortunately most expatriates welcome the experience of living in a country of lit violence, no vandalism, no graffiti and no public drunkenness.

Saudi Arabia is a young and very vulnerable country. The Saudis themselves are a proud and excessively polite people. We should support the Saudis at a difficult time and show ourselves true friends in a time of desperate

Yours faithfully. PATRICK HANRATTY, 21 Tonsley Hill, SW18. August 23.

## Taste in ties

From the Chairman of the Guild of British Tie Makers

Sir, Mr Bocutt of Hampshire (August 17) bemoans the fact that we, the Guild of British Tie Makers, did not include reference to bow ties in our appraisal of the way people wear ties. The reason

is relatively simple.

The traditional tie can be worn with a variety of knots and in a variety of ways — as our review indicated. But the bow tie has but one true knot and can only be worn neatly around the neck

Accordingly there is little that one can say about a garment which is always worn in exactly the same way, other than that the wearer tends to be extrovert and frequently even flamboyant. It should be stated, however, that the guild's members produce a wide range of bow ties and are, of course, supporters of this classic

Yours faithfully D. L. FROOMBERG, Chairman, Guild of British Tie Makers, 7 Swallow Place, W1. August 20.

#### Hospital chaplains From the Chairman of the

Islington Health Authority

Sir, I can understand the caution of the Blackpool Victoria Hospital (letter, August 15) in relation to the appointment of a full-time chaplain. Part of the problem is that authorities like mine have not explained the benefits and nature of the services provided.

When Islington Health Authority replaced the rota of local ministers with a full-time chaplain six years ago there were some who questioned the relevance it had on direct patient care,

Our chaplaincy provides continuous support, counselling and ministerial services to patients and their relatives. It also provides invaluable support to hospital staff, particularly those working in

The chaptaincy is involved in a number of hospital policy com-

## Raising standards of education

From the General Secretary of the National Association of Head Teachers

Sir, Your leader of August 21 on the excellent speech by Sir Claus Moser about the state of British education was less than generous in its praise as well as making some highly questionable asser-First, you took issue with Sir

Claus when he said that Britain did not care about education as much as other countries; yet the evidence clearly supports Sir Claus's theory. For instance we suffer from the most appalling staying-on rates at 16-plus principally because too many parents and pupils simply do not understand the need to acquire better qualifications, a lack of understanding which would totally bemuse people in most of our competitor countries.

Secondly, you link the abolition of selective education and new attitudes to teaching as the cause of an increase in the number of illeducated children who lack basic standards of literacy and numeracy. There are thousands of exam-ples of schools which pursue the policy of achieving the highest possible academic standards for every pupil in accordance with his

or her ability.

The undoubted need to raise standards of literacy and numeracy would be better pursued by changing teacher attitudes where they are deficient, and in particular by raising their levels of expectation. Teachers who continue to fail in this respect ultimately must be removed.

Thirdly, you challenge the asser-tion by Sir Claus that the education system is under-funded. Nobody could seek to argue that we should not deploy current resources to best effect, but the evidence of under-funding by any set of comparators is so overwhelming that I am surprised that you should try to brush it on one

It would be highly imprudent for anybody concerned with education to ignore Sir Claus's central message that this country is unprepared educationally to a dangerous degree as we rapidly approach 1992 and beyond, and the fierce international competition which will come in its wake.

Yours sincerely DAVID HART, General Secretary, National Association of Head Teachers, 1 Heath Square, Boltro Road, Haywards Heath, West Sussex. August 22.

From Mr Jim Stather Sir, I read with interest Sir Claus Moser's evaluation of British education as being one of the worst in Europe. I note that he calls for more resources and raised salaries for teachers. Even adequate levels

#### Access to parks From Mr John Varney

Sir. For a national park officer to speak out against too much tourism of the wrong kind is a brave move: Mr Richard Harvey, of the Yorkshire Dales National Park, is therefore to be congratulated (report, August 15).

National parks have a difficult job to balance conservation with access by the public and the guidelines for doing so are woe-fully inadequate. It is a sad reflection on how far things have deteriorated that this week we also hear a caution against women walking alone in the Lake District for fear they will be molested.

Can we any longer sustain the idea as the tourist boards seem to be saying in an adjoining report that all tourists are equal? Can we as tourists equally enjoy rights of access, if to do so will result in our finest heritage landscapes being trodden underfoot?

#### Abortion law in Lords From Lord Houghton of Sowerby, CH

Sir, The Duke of Norfolk is reported (August 13) to be marshalling the support of fellow peers to disagree with certain of the decisions of the House of Commons upon abortion law reform.

I believe the grounds of the Duke's action to be totally unjustified. He alleges that unless stricter upper gestational age limits are imposed on late abortions the Bill would permit doctors to carry out abortions for the "most flimsy of reasons". This expresses more

#### When the cap of funding for education are proving difficult with the pres-sures that charge-capped authoridoes not fit

From Mr S. J. Burrough Sir. Some unusual things have Sir Claus, teachers, parents and charge-capped authorities will no been happening at English cricket this year. When I was at school doubt feel greatly encouraged by John MacGregor's scheme to solve the deepening crisis of teacher shortage, whereby local authorities are free to find the selection for the first eleven was rewarded with a cap that I aspired to as soon as my eyes had dried. That dream came true and although other cricketing dreams have remained on the wrong side of the shop window, they have focused on a cap as the badge of

The thickened flannel of a cricket cap, the green under the peak, the various colours and stripes of fame, the instant feel and weight of the thing picked out of the bag, given a friendly swipe at the thigh and adjusted to the head, seemed as fundamental to an English cricketer as a kepi to a legionnaire. Indeed to other national teams allowing for minor alterations in shape, it still is.

But what is this thing that now invades the English scene? It folds like a canvas wallet and appears to be machine washable but it fades rapidly, thankfully. Was it rescued from the footplate of the 6.19, or did it fall from a postman's pocket? Is it a souvenir of some baseball match? I am told you can buy them at garages in jeans blue

I might just be persuaded that these extraordinary bits of head gear are a phase, but then I see tracksuits instead of blazers and messages being painted on the outfield. Perhaps Cornhill is a variant of corn circle and the game is being controlled by some alien force allergic to tradition?

Would some peace offering put things right? We could enforce the law about intimidatory bowling, who knows - we might see John Morris make a century in an English cricket cap. Yours faithfully,

SIMON BURROUGH. Mixbury Hall. Mixbury, or Brackley, Northamptonshire. August 23.

#### Witnesses at risk

From Mr Ricardo Dorich Sir, I recently attended a London juvenile court as a witness in a case involving attempted theft and assault. I was one of the individuals who helped arrest the youth and who, during the course of the arrest, suffered minor head inju-ries from him.

Consequently, I was surprised that as a witness in such a case I was told to wait in the general hall amongst the various defendants. During this period, the defendant in the case that I was concerned with insulted as well as threatened me and the two other witnesses involved. Subsequently, much to my dismay, he appeared un-accompanied. He then came tone twice.

Defendants should be kept separately from witnesses prior to appearing in court. With the present lack of any visible order, incidents like this one can only help to discourage members of the public from appearing as witnesses in order to facilitate the carrying out of justice. Yours faithfully, RICARDO DORICH,

Hyde House, Long Sutton, Nr Basingstoke, Hampshire. August 16.

#### Manuscript losses From Mrs Jennifer Macrory

Sir, Dr Nicholas Marston (August 14) is right to draw attention to the problem of making available to scholars manuscripts in private ownership. Reluctance on the part of owners to make known their identity is entirely understandable. They have a duty to secure the safety of the manuscript as well as a right to enjoy the use of it, and a public listing could jeop-ardize both.

At Rugby we have a small collection which we find difficult to maintain because we can ill afford the staff, but we are nevertheless anxious that accredited scholars should have access to it. Our solution has been to shelter under the benevolent wing of the University of Birmingham, who have details of our holdings but do not necessarily reveal ownership to enquirers unless they are sat-

isfied that their interest is genuine. Might it not be possible for all private owners to be offered the opportunity to register manu-scripts with public institutions on a regional basis whilst retaining confidentiality of ownership if they so wish?

Yours faithfully. JENNIFER MACRORY (Librarian), Rugby School, Temple Reading Room, Rugby. Warwickshire. August 14.

## Obstacle course

From Mrs R. R. Morris Sir, During the recent three-week, visit of our six-year-old grand-

daughter, we experienced one dinosaur exhibition; two donkey derbies; one oceanarium; one national parks activity day; six beach visits (with surfboard); one local country show, one day at leisure park (including rollercoaster and crests run); two bicycle outings; several kite-flying expeditions; two visits to swimming pool; one river boat trip. Yours faithfally, S. W. MORRIS,

Lower House, Bentlass, Pembroke, Dyfed. August 21.

## **UBITUARIES**

## BRIGADIER PATRICK HOBSON

Brigadier Patrick Miles Pennington Hobson, DSO. who fought a distinguished defensive action in the Burma campaign in 1944, died on August 19 at the age of 80. He was born on January 11, 1910.

BRIGADIER Patrick Hobson found fame as the Commander Royal Signals of the 7th Indian Division in the battle of the "admin box" during the Arakan fighting in Burma in February 1944. Frank Messervy's 7th Indian Division was part of Philip Christison's XVth Corps, which had begun the first British offensive in the Arakan, depending largely upon air supply to enable it to stand firm if the Japanese counterattacked during its advance towards the port of Akyab. The Japanese did, indeed, launch a counter-offensive. They infiltrated the British positions and surprised Messervy's divisional headquarters and the nearby Corps 'administrative box" with attacks from the rear.

The only troops available to defend Messervy's headquarters were Hobson's signallers and its clerks. By one of the strange coincidences of war, it was the regimental headquarters of Colonel Tanahashi's infiltrating regiment that stumbled on Messervy's command post, and it was his signallers who played a prominent part in the attack. As far as Messervy was concerned, it was a case of deja vu. He had escaped capture on a previous occasion when his headquarters was overrun by the Germans in the Western Desert. Pistol in hand, Hobson and his signallers stood their ground and fought back while codes and papers were destroyed, and enabling Messervy and most of the divisional staff to escape.

son's eventual withdrawal through the jungle but his men after he had left it. had paid a heavy price for their successful stand and rearguard action. Seven officers and 98 British and Indian signallers were killed or

missing.

Hobson and his men continued to fight as infantry in the subsequent bitter conflict around the "admin box", which went on for three weeks, during which the Japanese committed the atrocity of bayonetting British casualties in the field hospital which to be able to do everything they had overrun. Hobson expected of his men, and do it himself led a charmed life, a better. He was something of a Association.

in his command vehicle just Few immediate DSOs have

been more richly deserved. Hobson's action was part of the marked change of attitude within the 14th Army. Henceforth British units fought it out with no thought of withdrawal, if they were cut off. They were re-supplied by air if need be; it was the Japanese outstanking columns that starved

Pat Hobson was a quiet, self-contained man, who liked those who try. He was born at Redruth in Cornwall and was christened Patrick Miles Pennington. Educated at Portora in Northern Ireland and at the Royal Military Academy, Woolwich,

physique; and a firm believer

that everything is possible for

he was commissioned into the Royal Corps of Signals in His early service was in Indian garrisons and on the North West Frontier. After his exploits in the Arakan, and later at Kohima, he was a natural for the Signals training organization. He commanded training units at Chinwara and Bangalore; and, on his return to England, the 1st Training

Regiment at Catterick. He was

also selected as just the right

type of man to carry out Arctic

rvival trials in Canada.

After tours in Hong Kong and Austria, he was asked for by General Sir George Erskine as his Chief Signals Officer during the Mau Mau campaign in Kenya. From there he went to Singapore as Chief Signals Officer during the turbulent period of rioting in 1953. He was then made president of the Army's Officer Selection Board before taking up his last appointment in the Army as Commander of the Royal Signals Training

He retired in 1962 but kept in close touch with his Corps, becoming the general sec-retary of the Royal Signals Association; editor of The Wire, the Corps magazine; and chairman of the British branch of the World Veterans'

Brigade at Catterick

## Archaeology

#### Ireland seeks that elusive Viking treasure By Norman Hammond Castle, the medieval fortress that conwaterfront has been found, and a rich

ARCHAEOLOGY CORRESPONDENT

IRELAND'S Vikings are proving elusive this year, to the chagrin of both archaeologists and tourism officials. Noted as the founders of Irish urbanism in the 10th century, the Vikings have also proved a potent money-spinner in Dublin, where an exhibit based on the city's foundation a millennium ago includes actors schooled in the life of Edmund of Chester, with his tales of

trade across the Irish Sea, Gudrun holding forth on the position of women in Viking society, and the carpenter constructing a replica of a 10th century house have drawn in thousands of visitors, according to Dr Patrick Wal-lace, director of the National Museum of Ireland. The "Viking Adventure" is based on

the famous and controversial excavations that Dr Wallace directed at Wood Quay, in the heart of Dublin. Construction of council offices there was held up by protests that the beginnings of Dublin's history were being destroyed. "The word 'Viking' means money in the bank," Dr Wallace said, and the

success of the Viking Adventure has led several other cities in the republic to hope that their Viking origins may also be exposed by archaeologists. So far this year the results have been

mixed: although pre-Norman occupation has been found in both Waterford and Limerick, it has not been of the initial period of Norse penetration. In Limerick, investigation of King John's trolled the Shannon, has revealed both sunken houses and substantial fortifications buried by the castle courtyard. Dating to the 12th century, the

fortifications consist of a rough boulder wall revetting a clay mound, with a flagstone berm walk in front of a giving on to a broad deep ditch. About ten yards length of the wall has been exposed so far, and it formerly stood much higher. Mr Ken Wiggins, who is directing the excavation, believes it to be part of a fortress of the O'Brien kings of Munster. Parts of two sunken houses have been

found: one has a funnel-shaped entry sloping down from the surface and walled in stone, while the other, estimated to cover an area some 20ft by 15, had plank walls set on sleeper beams which were laid at the bottom of a yarddeep pit. The buildings were initially thought to be of Viking date, but the associated pottery is too late. Excavations will, however, be contin-

uing into next year: the castle is to be restored to a semblance of its late medieval state, with reconstruction of demolished walls, and a new heritage centre will be built. Mr Wiggins hopes that by then the origins of Limerick will have been found. Similar hopes are being expressed in

Cork, where two excavations are in progress around the medieval city. The Viking settlement is thought to have been in the southern part of the later walled city, on the banks of the River Le, but a dig just across the river has yielded no evidence of occupation before the 12th century. Part of the medieval haul of domestic rubbish, but so far the city's founders are proving as clusive as they are elsewhere. The closest anybody outside Dublin

has come so far is in Waterford, according to Dr Wallace. As well as sunken-floored buildings, not unlike those in Limerick, Mr Maurice Hurley's excavations have yielded trouses of a tripartite plan similar to those excavated at Wood Quay. Mr Hurley has also found the first pre-Norman street surface to be excavated in Ireland, floored with rough gravel.
The houses are slightly different from

the Dublin examples, with double lines of wattle for walls instead of single, and with a less well-defined hearth. Some kind of stone-faced defensive circuit also existed, as in Dublin. Dr Wallace believes that the similar-

ities between Waterford, Dublin, and Wexford in the mid-1 Ith century are due to all three towns being controlled by the same king, Diarmaid Mac Mael Na nBo, "son of the tonsured cattle keeper". "He was the first Irish ruler to appreciate the value of towns as economic centres," Dr Wallace said, and an ally of Harold II of England, "so it is not surprising to find Saxon influence in the early urbanisation of Ireland".

Dr Wallace believes that the importance of discovering how Ireland's citles developed is greater than that of finding their founders. "The Irish media want to see Vikings, whereas in fact what we have are sentlements that are a unique fusion of Scandinavian, English, and native Irish ideas and influences."

## No heir to £1m left by woman who hid her past

By JOHN SHAW

THE £1 million estate of a mystery woman recluse is expected to go to the Treasury after a reunion of former employees failed to throw up any fresh leads to solve the puzzle of Sutton Brailes Manor, Warwickshire.

Mrs Dorothea Allen and her husband lived at the house and ran a profitable corset company at Banbury, Oxfordshire, but when she died in January aged 89 she did not leave a will. No close relation nas been found, despite a flood of letters from people claiming to be members of the Allen lamily.

Officials have been in-

vestigating the claims in this heads off photographs. She regularly every week to deal country. Germany and the destroyed her past so success- with the correspondence and United States. Inquiries have been inconclusive and it now. seems certain that proceeds from the sale of the house and estate will go to the Treasury. In a final attempt to suggest

new lines of inquiry Sotheby's long-serving employees to tea at the house in the hamlet of Sutton-under-Brailes. The firm will sell the contents of the property on September 4.

invited several former close. Among the guests was Mr

Leslie Stratford, aged 82, Mrs Allen's accountant for 53 years. He said: "I don't think there is an heir. She tore up old letters and clipped the

fully I don't think anybody will ever discover the real truth." He said a case containing

letters and some addresses in Germany was deposited by Mr Allen with a bank in 1932. The case was traced and 1987 and after that she gradopened after her death but the ually deteriorated in health documents "did not come to until her death in January." anything".

HUMBER.

From our Special Correspondent

The world's largest anship, R-38, became a wreck at Hull this afternoon at 5.35, and, as far as can be

ascertained late to-night, 44 men

The airship had a crew of 48 under Captain Wann. Out of this number

only nine are accounted for, five have been rescued alive, and the dead

hodies of four have been picked up in

the Humber estuary and landed at

The vessel had been cruising over

the north-east coest, and was returning to the Howden aerodrome when the disaster occurred. According to

accident was due to petrol tanks exploding. At the time of the disaster

the airship was being watched by thousands of the general public from

the streets of the city, and it was observed to break into three parts.

Two of these perts fell into deep water about 200 yards from the Victoria Pier, which is the landing-

"the little sandbank," about 500 yards from the Victoria Piar, and there it remained until late this evening, when the high tide com-

pletely covered it.

J = J =

ÿ. ..

n n

have lost their lives.

HULL, Aug 24.

ON THIS DAY 1921 these including Captain Wann, who was in charge of the airship, and Leading Aircraftman Davies, who was landed at Hull and who pluckily walked up the sloping landing-stage of Victoria Pier amid cheers from the

THE R38 had been built at the Royal Aircraft Works, Cardington, Bedfordshire and was intended for service with the US Naw. Despite the tragedy airship building continued in Britain, but with the crash of the R101 in 1930 the Government people who had assembled there.

I had a few minutes conversation
with Davies. "I am too ill to talk," he
said, "but I will say we have had a
terrible time. It was all over in a moment. The petrol tanks exploded, and volumes of smoke and fire issued abandoned the programme. and commes or smouse and me assume from the ship. Some of the men jumped overboard, but I stuck to the ship and went down with the stern section, which stuck on the sand-bank, and I was rescued. Some of the DISASTER TO R38. **EXPLOSION IN** THE AIR.

bank, and I was rescued. Some of the poor fellows had no chance whatever, particularly those in the control car."
Davies collegeed after landing, and was taken to the infirmary, but afterwards recovered. Captain Wann has been strended for severe injuries to the head. Two of the dead brdies. FALL INTO to the head. Two of the dead bodies landed are completely unrecognizable owing to severe borns.

Another survivor, whose name it was impossible to accertain, because the American authorities will not the American authorities will not allow statements to be made, said: "The sinklip was flying over the North Sea this morning, and was in perfect flying condition until about 5.35 p.m. At that time the controls of the ship were being tested at high speed, and it is to this I attribute the firing of the petrol tanks. After a few sharp emphasions there were two very sharp explosions there were two very loud ones, and the ship began to fall. I fell with the stern part, and was luckily picked up, dazed, but not severely burt. I fell into some wires the disaster occurred. According to the authorities who have come over to Hull by motor from Howden, the

A graphic story of the disaster was given by Pilot Osborne, O.B.E., who is employed by the Humber Conservancy Board. He said:

"I saw the disaster, and thought there was a chance of saving some of the poor fellows. The Isunch Pilot was started at once for the scene of the wreck, and, assisted by some of stage for the bosts plying between Hull and Lincolnshire. The other part—the stern—measuring about 100ft, fell on to what is known as the seamen, we attempted to cut open the envelope with jack-knives, but we were unable to find anyone alive. We saw the bodies of two young men in American uniform floating in the river, and, though we endeavoured to secure them with the aid of boathooks, our attempts were unavailing, because of the swell of the A number of tugs and small river creft immediately set out for the scene and endeavoured to rescue the men, but only five were picked up.

avaning, occause of the swell of the tide, which was just coming up. When I first got alongside there were figures on the top of the water, but the envelope was not ablaze."

> WORD-WATCHING Answers from page 22

**ALCATRAS** (b) A name applied to several large water birds, as the pelican, gannet, frigate bird, albatross, from the Spanish al-catraz a pelican: "Ned Gyiman took an alcatras on the main topmast yard, which is a foolish bird, but a good lean rank

IRADE (b) A written decree or authorisation issued by the Sultan of Furkey for the Sublime Porte, from desire: "Baron Har-ch has obtained an irade for his great railway-junction scheme."

CYMOPHANE (a) Cat's eye, a variety of chrysoberyl with wavy opalescence (in practice nothing like the eye of any cat I have met), from the Greek kama a wave + phainein to show: "Her white arm, that were a twisted chain./Clasped with an opal-sheeny

ALLENARLY (a) Solely, alone, from all + anerty singly, on its ane in Scottish: "On whilk the gospel shineth annerly, and leaveth the rest of the world in utter darkness."

Finding a new station in life

Changing face

required complete separation for each of the 19 units, which could have involved stripping out all the original woodwork and replacing it math concerns. The solution

it with concrete. The solution was

to install a sophisticated smoke

and heat alarm, which will ring in

the local fire station, a minute's drive away. A display panel near the front door locates the fire

immediately. All the woodwork

has also been painted with five coats of flame-retardant varnish.

the spacious booking hall, top-lit from a stately barrel vault. All the woodwork around the ticket win-

dows survives, as does the ornate

railing in front, intended to ensure

The plasterwork, complete with

new pineapple pendants, has been

engers queued in an orderly

Internally, the main feature is

Morayshire, boasts a handsome array of classical architecture approto its name. More unexpected is the large baronial railway station, which British Rail vacated two years ago. The de-cision was understandable: Elgin East, as it was known, stood on an awkward loop of line only 200 vards from Elgin West, the opera-

tional station. The size of the old station reflects Elgin's position as the county capital. It was the place where the local gentry congregated for balls and assemblies. The Great North of Scotland Railway (GNSR), which ran from Aberdeen to Elgin, was evidently determined to overawe the Highland Railway, which came in from the west.

Elgin East, which replaced an earlier station, was completed in 1898 to the designs of P.M. Barnett, the line's chief engineer. Other notable stations on the line were at Invertire, home of the locomotive works, where a panelled ticket hall and waitingroom survive, and Peterhead which had the ultimate flourish of

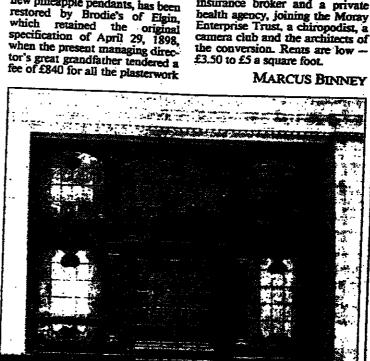

an overall iron roof.

As the line had no steep gradients, the GNSR needed just one class of engine, a substantial 4-4-0, painted in green and black.

The search for a new use for the station was spurred by the Railway Heritage Trust. For a while there was a prospect that the old station might become a whisky museum, appropriate because the Chivers Brothers' bonded warehouses stand alongside the line to the south, and the Spey Valley whisky trail runs nearby.

The solution came when the Scottish Development Agency (SDA) stepped in to develop the station as a business centre. Fifteen or 20 years ago the site would simply have been buildozed for factory units. As it is, the SDA and Grampian Regional Council have carried out an exemplary restoration at a budget price. With slightly more than £250,000 to spend. Douglas Forrest, the architects, had some sleepless nights, but the rugged sandstone has responded superbly to cleaning and emerged without a blemish.

The main challenge was to meet the fire regulations without wreck-

ing the building. The authorities 

Echoes of past splendours: much of the old station has been restored.

## WEEKEND LIVING: OUT OF TOWN

Farmer's diary: Paul Heiney

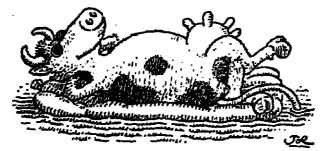

## Tellin' the aul' cowsh where to go

now on. But as we have no corn. now on. But as we have no corn crop this year, we thought the chance of a final summer fling was worth taking. Next year it will be binders, sheaves, pitchforks and sweat. This year it was to be realand owen coast and over hills. that I have not seen at home for many months. This peaty abun-dance explains why the Irish produce so much milk with so little office. A mild remove swead Ireland, open seas and green hills. little effort. A wild rumour spread Before leaving, I dashed down to the marsh and judged that the sheep had enough nibbling for the through the village in which we were staying that a hero from the local creamery had discovered a short time we would be away. Not way of turning milk into alcohol: if so the cows: in a pleading teleit had been true, St Patrick's patronage of the country might phone call I begged a meadow off a neighbour and moved the three well have been under threat, heifers on to that. The pig family What I most envy the Cork and was given sanctuary in the or-Kerry farmers, however, is their chard, where Alice quickly learnt that by rubbing herself against the apple trees she could bring down an endless supply of Golden Delicions manns from bearen attitude. It is not that they do not

care, it is simply that they expend worry only on things which are really worth worrying about. And wandering animals do not come into that category.

Take the herd of cows that

strolled past us as we sat on a stone wall in the middle of nowhere. At home, cows on the road would have an escort of men in pick-up trucks and a tractor, with lights blazing and horn sounding. Out in

the rocky wilderness no man was to be seen; just cows, shuffling and sniffing the hedgerows and eyeing us with suspicion.

Ten minutes after they had passed, an ambling figure appeared, shabbily dressed and with a wind-burnt face that had spent many happy years gazing into glasses of stout. "Have you sheen any cowsh?" he asked in a halfhearted way. "Yes," we said, "heading that way", and we pointed up the hill. "Oh dear, oh

dear, oh dear," the farmer grumbled. "They know they're not shupposhed to go that way. Oh dear, oh dear, oh dear." Then, to our surprise, instead of heading after them, he turned and went the other way, saying: "If yer shee 'em comin' back, jusht keep 'em pointing wesht." And he was gone. Ten minutes passed and his confidence was repaid. Back came

the cows wearing a guilty out-ofbounds look on their faces. They were pointing west, and so we let deep impression on me. When he returned home I vowed that things around here were going to slow to the same enviable pace. No more running after stock no more palpitations at the sight of a sheep on the wrong side of its fence: less time on my feet and more time on the bar stool. This calm transcendental state

lasted all of half an hour. I went down to the marsh to count the sheep, and found one missing. The chap who had been keeping an eye on them was not sure where it was. Shaken, but not stirred. I simply said: "Ah well, she'll be back, she'll be back." In the baking heat of the

farmyard, the intoxicating, lazy scent of clover hay elevated me on to an even higher plane. "It looks as though the piglets have been escaping," my wife said. "Is that so?" I replied. "Well, I hope they had a nice stroll. I'll mend the fence, sometime." The carthorses looked well. "I must get you boys back to work," I thought to myself, "... one of these days." Then the telephone rang.

I went through the usual pleasantries: yes, we'd had a lovely time, the weather was terrific, yes, wasn't it hos? Then the bombshell dropped: "Did you know" the

dropped: "Did you know," the voice said, "that while you were away, your cows got into your neighbour's swimming pool?" The holiday mood vanished. My mind raced with visions of Red Poll heifers doing the butterfly. of hoofs jammed in filters and cow pais on the patio. I realised that the suburbanised parts of Suffolk were, after all, a far cry from the wild shores of Dunmanus. I worded the insurance claim in my head and wondered if anyone would believe it

Upon discovering the truth of the matter, which was that the cows had merely got their heads over the sence to nibble the grass round the pool, I felt easier. Still, had things been as bad as I had thought, I doubt I would have had the courage to look my neighbour in the eye and ask him to "keep 'em paddling weshi".

Breeding

## Big cats back from the dead

Maine coon Sylvester and kitten

THE Maine coon is the ultimate cat, Anita Rowsell says, and after meeting one of her 20lb felines, which may well measure 36in from whisker to tail-tip. I am inclined to agree. For example, Rambo, a brown tabby, is 12in tall at the shoulder with a front paw span of 2in, which enables him to indulge his tendency to leap 5ft vertically.

Rambo and his kind are said to be descended from Marie Antoinette's favourite cats which, it is claimed, were shipped to New England after her execution. Other Stories attribute their presence in North America to the Vikings. The story has it that the cats mated with wild American bobcats and even lynx.

Fame came when a Maine coon was judged best cat of the New York City show in 1895, but less than 65 years later the American Cat Fanciers' Association pronounced the breed extinci.

The Maine coons fought back, however, and Mrs Rowsell can now sell Rambo's progeny for £400 each. She will sell them only as pets, not for breeding. "They are magnificent cats with wonderful temperaments and have not been spoiled by in-breeding," she says. She intends to keep things

Mrs Rowsell, who lives near Lewes, Sussex, has waiting lists from people expressing colour specifications that include silver, blue, brown, red or cream tabbies, along with various bi-colours.

The Maine coons have their own distinguishing features, other than size and colour. When grown they have tufted "snow shoes". Their tails, like fur boas, are often the width of their bodies. Tough characters in some ways, they are nevertheless big softies, Mrs Rowsell says. I have never known one to scratch. Their single coats make them feasible at pets for people who suffer from aller-

The cats are as happy being heing supine. active as they are being supine.

They will fly through the air after insects." Mrs Rowsell says. They will retrieve thrown sticks and enjoy playing with water.

Because they are twice the size of ordinary cats. Maine coons cost twice as much to feed, and a diet of tinned cat food should be avoided, Mrs Rowsell says. Fresh meat or fish should be provided every day, together with a complete pelleted food imported from America.

SANDY BISP ● Further information: Mrs Anita

# A pearl of a place for the knitters

Home from home: Marion Foale

t weekends, when most people with second homes are leaving the city for the country, Chris Jones, the husband of Marion Foale, the knitwear designer, is heading the other way. He serves as a "Saturday boy" in the wholesale and retail showroom which doubles as the Jones's London home, "We both need to spend a a lot of time in town," he says, "and our two homes are an extension of each other. We try to

HOW did your holiday packing go? Mine was frenzied. I realise that with harvest coming slap in the middle of the holiday season,

farming and summer breaks are

going to be unhappy partners from

Delicions manna from heaven.

Having created a picture of rural

contentment and organised a feed-

ing rota, we closed the gate behind

I envy the farmers of western Ireland two things. First, they

have grass of a succulent greenness

us and headed west.

create the same feeling in them."
Their London home in Hinde Street, W1, is a microcosm of their farmhouse in north Warwickshire. 'We'll often sit there with the blinds drawn at night, and treat it just as we do the living-room at our country home," Mr Jones says. "It has a similar, open, feeling since we knocked down walls."

They move furniture from place to place as the mood suits them, so their summery Lloyd-loom chairs are now in London. We take them back to the country in the winter," Ms Foale says, "and something else — maybe a big old trunk I found locally — will go down. We generally keep our best bits in I ondon." bits in London."

The farmhouse, near where Mr Jones was born, has the feeling of a warm, family home, with childlike memorabilia cluttering the openplan living room, and a large pool

table taking pride of place.
Parts of the beamed house date from the 13th century and its only neighbour is the church. Like the London residence, which has an art deco interior, it is also a base for the knitwear business. "But we ourselves with a business on the side," Ms Foale says. "Not the

other way around." Mr Jones had his own knitwear company when Ms Foale was a fashion designer who had not yet developed her talent for producing three-dimensional knitwear patterns shaped to cling and swing. Her latest collection includes elegant swing-back tops in silver to go over the black stretch pants which have remained a staple for many seasons. Among the accessories are chenille shawls and gauntlet-style gloves to go with the eaters for which she is famous.

Ms Foale's career was interrupted when the children came along - Polly aged 17, Charlie, 13 - and it was while she was looking for a way to combine working from home with looking after the children that the hand-knitwear business was born. She is proud of the fact that she has never employed a nanny.

Marion Foale sweaters sell in chic stores such as Bergdorf Goodman, Barney's and Charivari in New York, and Whistles in London, as well as from the showroom in Hinde Street. But Ms Foale makes clear that, however sophisticated the designs and clientèle, it is very much a cottage industry.

She spends more time in Warwickshire and prefers the countryside, although she is a Londoner. "I can stick it here much longer than Chris," she says. Mr Jones hankers for the buzz of London, but says of the farmhouse: "This is where sanity lies."

Ms Foale experiments with knitting such things as silver lamé wool squares while watching television'in the evening, passing on the designs to the supervisors of the 500 or so knitters in the surrounding countryside. "I've knitted only one whole sweater in my life." she says.

Every Monday there is a queue of knitters at the farmhouse, bringing in pieces to be professionally finished - the Joneses have found that knitters hate to sew - and take away new wool.

The house, converted into two that way, with the business occupying one part, the home the other. Ms Foale's workroom is sandwiched between the two. "Since I usually stop work when the children come home from school, I will often come back here in the evening and sit, with a drink, and do some of my best work," she says. "But I would never let the business take over the home.

VICTORIA MCKEE

Country contentment: Chris Jones and his wife Marion Foale, the knitwear designer, at their old farmhouse and workshop in Warwickshire

Feather report

## Fair day for selling birds

THESE days, birds are big business. Naturally, the birder feels slightly ambiguous about this he wants the birds and the bird places to himself. Even less admirably, he likes the idea of birding as a claim for, if not personal uniqueness, membership of an exclusive At the same time, he feels a

missionary zeal. His better side wants the important joys of birding, of life, to be freely available. He wants birds (and life) to matter to all sorts and conditions. Despite the birder's secret and seltish joys, it is conservation that matters, and conservation needs a shared will. Well, we need not fear any lack

of will. Birding is now a boom industry. This is so much the case that next Friday a three-day national birding event begins. It is the first British Bird Fair, and is being held at Egleton nature reserve, Rutland Water, near Oakham, which is in what we must remember to call Leicestershire. The fair is an amphibian. It

walks hand in hand with conservation groups and also swims freely in the capitalistic waters of Britain. It has been organised by the Leicestershire and Rutland Trust for Nature Conscruation and the East Midlands office of the Royal Society for the Protection of Birds, and is sponsored by In Focus, an optical company.

There is a programme of lectures and talks, including "Wildlife of a Country Roadside" and The Himalaya - Birding on the Roof of the World". Conservation groups such as the RSPB will take the opportunity to recruit members and to show people what they are doing with their funds.

Part of the admission money will go to the Coto Donana Appeal. The Coto Donana is an area of Spanish welland scheduled to be drained in the cause of golfing tourism. An international effort to reverse this plan is now in

All in all, then, the bird fair is telescope (which must always be

clearly a good thing. But there is more to it than the good guys on the front line of conservation, there is business. After all, Bird Watching magazine claims that birding is "one of the fastest growing leisure activities in Britain'

Birding is not really supposed to be an equipment sport but, all the same, people like to spend money on their passions. As passions escalate, so does spending. Thus birding becomes big business. For example, I learn to my horror that I no longer possess the most expensive binoculars on the market. All other binoculars now look cheapskate stuff compared with the new Bausch and Lomb Elite, which costs £699. "They delivered a crystal clear image in all con-ditions, but it was their performance in low light that really demonstrated their pedigree, wrote a reviewer

Naturally, one also needs a

called a 'scope). You can start at around a hundred quid for a second-hand job (if you're lucky) and just keep going. With a 'scope, you have opportunities for frustration that a binoculars-only person cannot dream of: the black speck on the water that dives just before you have focused; the brown wader that vanishes as you set up your tripod and, above all, the ache in the shoulder from carrying the damn thing all day.

Then, of course, there is all the protective clothing. At the bird fair, you might escape without upgrading your optical kit, but could anyone with red blood in his veins resist a new waterproof or trousers that keep you warm, the length of the shivering marshes of January birding?

Then there are companies that sell birding holidays: 10, the Coto Donana, perhaps, or to the Galapagos, Africa, the Shetlands, The Netherlands, the Falkland Islands - anywhere where there are decent birds to see, there seems to be a company ready to take you there.

Then there is the bliss of books. People with the faintest possible interest in hirds have a bird book. and the more involved you get, the more books you need. Do you know, for some obscure reason I still have not purchased a single volume of Birds of the Western Palaearctic? There are five volumes aiready available, each one a snip at £80.

I had better not go to the show, I do not think I would escape from Rutland without a pair of Bausch and Lombs, a new 'scope, all five volumes of the Western Pally and and a trip back to Zambia.

All the same, it makes you think. There are serious people and serious money in birding these days and birding is, or should be, no more and no less than a synonym for conservation. Where there are people and money, there is power power to

EXERCISE INJURY? NAGGING

YOUR 25 DAY TRIAL TO PROVE THAT WITH NOVASONIC YOU CAN ENJOY SAFE PAIN RELIEF AND INCREASED MOBILITY.

As a testament to the value of this unique scientific instrument you may test it for yourself at home. It comes ready for use (a plug is fitted), is free of side effects and safe to use. Many Physiotherapists and Practitioners use and recommend Novasonic therapy for patients young and old. Thousands of letters in our files testify to the relief of pain for such conditions as muscular and joint pains, injuries, lumbago, cramps, sciatica, tennis elbow, rheumatism, backache etc.

Sound wave therapy can relieve pain and speed up your natural healing process. So whether your condition is associated with jogging, football, golf, tennis, gardening of any form of exercise or just growing older, Novasonic therapy may well be of benefit to you. When used before exercise it can also help prevent injury.

Pain can be debilitating and by its very nature affect your whole enjoyment of life. Novasonic may well be enable you to enjoy so many more things and improve the quality of your life. As it has done for so many others like you. Novasonic therapy produces mixed frequently sound waves call Intrasonic increasing blood supply to the painful area. By producing an action deep within your body (up to 2½" 60 mm). Thus causing an extremely effective yet quite painless stimulation precisely where this highly effective therapy is needed.

One could say that it simply gives Nature a helping hand. Circulation is improved for hours after just a few minutes use. In most cases just a couple of short treatments daily will bring beneficial results. But it may take a little time for real and lasting benefits to achieved. Which is why we are offering you a trail, for 25 days. In order that you may find out for yourself the mmense benefits that we know can be achieved.

How to apply for your trail

Only when you try Novasonic therapy yourself will the benefits it can bring be apparent. Which is why for a small fully refundable deposit you may evaluate Novasonic for 25 days. If you then find it has been of no benefit, and this is unlikely, simply return it to us undamaged for a full refund (less p + p and insurance). Delivery within 14 days, see option B on coupon. If you prefer you may send payment in full. Fully refundable of course (less p + p and insurance). See option A on coupen, Despatch by return. When you decide you wish to keep your Novasonic, and have sent a deposit (option B) you may choose to pay the balance. Or you may prefer to spread the balance over 12 months by bankers order (we will send you cetails). Rest assured that you will receive a complete refund (less p + p and insurance) for any payment you may have made if you wish to return the appliance within your 25 day trial period. We look forward to hearing from you and being of help. Please note that there is a discount on application for General Practitioners. ecorative folding acreens and room dividcrs are making a come-back. But not, in these days of centrally heated, double-glazed homes, in their original role as drameter excludes. Today they draught-excluders. Today they are works of art.

Sparked off by the swing to-wards decorated furniture, painted, patterned or pierced screens are enjoying a revival among home-owners bored with man black minimalism. They are attracted by the combination of good looks and flexibility. Introducing a screen can alter the ambience of a room, making it more dramatic or more intimate. But, unlike most furniture, screens can be folded up to disappear from

Full marks to Liberty, then, for introducing the work of seven atemporary artists via a series commissioned screens to be tanveiled at the beginning of next month. Each piece is individual, and very different from the others, but what they have in common is an ability to transcend the usual ons of canvas.

Larger-than-life figurative woodblocked prints or lino cuts are Flaine Kowalsky's speciality, along with hand-tufted wool rugs.

"I've never made a screen before," she says. "I wouldn't have thought of making a piece of famiture had Liberty not invited me to make the screen.

"It was an exciting project, as I found that my themes and style translated quite easily to a large

Ms Kowalsky, who describes preoccupying themes of her art as love, lust and loneliness in the post-modern age", has produced a painted medium-density fibre-board screen called Love on the Mortgage. "I like my work to speak of the times I live in. I want to talk about how the other half lives," she says.

he screen produced by Ricardo Cinalli, the artist, is constructed along more classical lines. The work is made up of plaster-covered board painted with ancientlooking fragments, men and beasts, creating a fresco-like impression.

Joanna Price specialises in decorative paintings embellished with gold leaf. Her subjects are mainly natural, human or animal forms, fruit or trees, and her wooden screen is covered with images on

Roderick Tye's work is primarily figurative: bronze sculptures or glass surfaces coloured by inky images. His screen is a curved sheet of aluminium beat into an "S" shape in which a horizontal figure etched into the surface is

Marianna Kennedy has come up with a screen made up of ithographs and etchings. Like her pop-up Book of Dreams, architectural motifs such as staircases pop

Big screen début: artist Elaine Kowalsky with her first attempt at making a decorative folding screen. She has called it "Love on the Mortgage

 David Linley, 1 New King's Road, London SW6 (071-736 6885): His "London" marquetry screen is 7ft tall and stretches to 10ft, £1,200. David Linley also makes screens to order.
 Nina Campbell, 9 Walton Street, London SW3 (071-225 1011): Made-to-measure fabric covered room dividers and radiator screens. A three-panel wooden pole-framed screen, 2207, is finished with three metres of labric

out of her printed screen. Heinz Dieter Pietsch produces strongly coloured paper pulp sculptures, and his screen is Japanese-inspired, employing paper pulp and metal rods in its

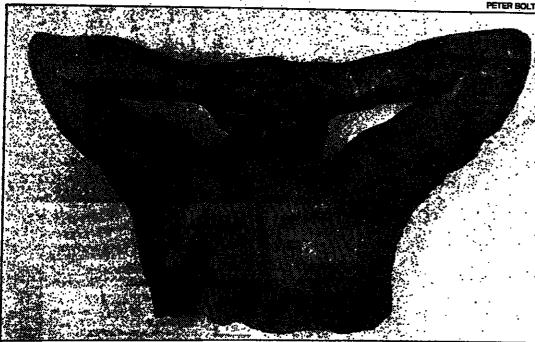

Abstract shapes are Marc Camille Chaimowicz's passion and his screen is a painted wooden

NICOLE SWENGLEY ● All the screens are for sale (£1,700 to £2,500) as are the artists' working

piece with the three folding sections graduating in height.

Originals: Suzy Barnes and Clare Denny, body sculptors

## Casting about for memories

Akimbo: making sure this is a back and shoulders to be remembered

CREATING three-dimensional emories is the speciality of the fine art sculptors Suzy Barnes and Clare Denny. They have perfected a way of freeze-framing flesh and blood for posterity by casting parts of the body in plaster, resin,

Commissioning a body cast of your child's hands or the lips of a loved one sounds graesome, but the results are surprisingly appealing because they are cast as fragments, rather than full reprochections of the human figure. By retaining an abstract element they become very personal works of

Ms Barnes and Ms Denny studied sculpture at Byam Shaw school of art in London, then set up a studio in Acton, west London, to experiment with fignrative work. Now they have established a limited company. LD. Icons, to concentrate on cre-

ative body casting. For smaller pieces, they slap a scawced based rubber solution on to the skin, similar to the casts used by dentists for making crowns. In a few minutes the solution turns to a solid mass, after which a layer of plaster is

spread on top.

The rubber solution does not stick to the body and it is possible even to cast separate strands of

mould sets so, with a bit of jiggling, it can be wriggled off.
Plaster, resin, bronze or concrete
is then poured into the mould.

"The most exciting moment is taking off the mould," Ms Barnes says. "The detail is just phenom-enal. For example, if you cast a smile, you will get every detail of the teeth."

Larger casts - head-to-thigh call for a mould created by plaster bandages. The pair have coped with most parts of the body to date, including hands, feet, lips, heads on pillows, torsos.

"The ears come out beautifully,

but we often have a problem with large breasts," Ms Barnes says. So far there have been no

improper requests. "We would just say no if we were reluctant to take on a commission," she says. However, she admits they both had to lose their inhibitions when Channel 4 commissioned a series of life-size casts for the current Sex Talk series. Courageous close friends volunteered to be cast in positions intimate and not so

"We particularly enjoy making pieces where treasured posses-sions remain intact in the finished sculpture. For example, a car fanatic asked us to cast plaster arms holding a car head lamp. "We can also make the sculp-tures functional, rather than just

decorative, by casting them around clocks, lights or mirrors." A surprising cross-section of private clients have commissioned body casts from L.D. Icons, including proud parents and an image consultancy entrepreneur who has decorated his office with casts of his staff. Ms Barnes and Ms Denny are working on a restaurant interior in which heads

Casting does not take long, about 15 minutes for a hand and about half an hour for a head-tothigh sculpture. The finishing off requires time-consuming attention to detail, sanding down and smoothing off the cast. Casts of hands cost from £120 while a torso

pop out of ovens or peep around

is priced from £400. The technique translates happily to still life pieces, vegetables for the kitchen, for example, and to other domestic objects. Cherubs could embellish an antique picture frame, while a human figure could be cast around a boring bookase. Coat racks, umbreila stands, paperweights, doorstops, even cast vases full of cast flowers . . . the possibilities of this unusual cast-

## Ancient guides to pleasures new

Old county maps may not make the finest decoration, but at least they are affordable

ONE OF the most affordable fields for the modern collector is county maps of the 17th to 19th centuries. The rarest examples are by no means always the most expensive because they are not always the most decorative, so collecting them can provide enjoyment and satisfaction for both the scholarly and the less scrions Collector.

Examples turn up almost every-where and a specialist venture will be launched soon at the Lantern Gallery, Bath, by Anne Campbell-Maciones and Jonathan Potter. Mr Potter is the London dealer and author of the Country Life Book of Antique Maps (Hamlyn, £14.95) The first county cartographer

was Christopher Saxton, a professional "land-meater" (surveyor), whose nine-year survey of England and Wales led to the publication in 1579 of the first national atlas. His maps started a tradition of form and decoration that endured until the establishment of the Ordnance Survey in the late 18th century. His immediate successors were Philip Symonson. in Kent, and William Smith and John Norden (1548-1625). Despite the encouragement of Queen Elizabeth I, Norden failed to attract a sponsor and mapped only

a few counties.

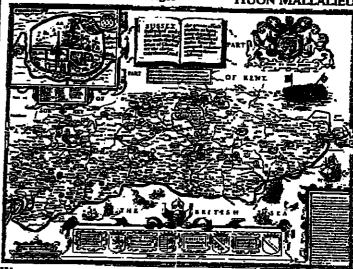

John Speed, in his 1610 publication of 54 maps of England and Wales, copied both Saxton and Norden, and in copying Saxton's Wiltshire he wrote "Quare" (query) beside an unnamed village, intending to check. He forgot

to do so and the note was engraved, so for the next 145 years the village of Quare appeared in the maps of those who copied him, including Blacu, Jansson, Blome and Morden. Finally, Emanuel Bowen checked, and gave North Burcombe its true name. Speed's maps were republished with text in 1611 as the Theatre of the Empire of Great Britaine, and in further editions in 1614, 1627 and 1676, together with Latin versions in 1616 and 1646.

English cartography lagged behind that of the Continent. There were a few new surveys of individual counties by John Sellar, John Oliver, Robert Plot, John Ogilby, who invented the strip road map, and others, but the next comprehensive series by Robert Morden, in 1695, still cannibalised its predecessors. There were further Morden editions and, by 1676, he had produced a now rare set of playing-card maps, which were re-issued as a min-iature atlas about 1773.

Aimost all these early maps were uncoloured, but over the years a convention of colouring was established. Sensitively done, even modern colouring is acceptable to collectors. A more serious price factor is the relative popularity and prosperity of the county shown. A good early Saxton of a popular English county might cost up to £6,000, while a less soughtafter Welsh one might be about £700. For Speed, the range is £300 to £1,200; for Morden, £60 to £160.

# Talent is more than skin deep

Roles should never be cast according to colour, argues Benedict Nightingale

person may accidentally shoot himself in the foot. It is quite another matter conscientionsly to ma-chine-gun it off. Yet that is what American Equity has done in what continues to gain notoriety as the "Miss Saigon case". In thallenging Cameron Mackintosh's right to cast a white British actor, Jonathan Pryce, as a French-Vietnamese pimp, the union has the actor of the control of the contro minority performers the chance to appear with him on Broadway. It is also doing serious damage to the Cause of colour-blind casting.
For a moment this week, it

seemed the quarrel was settled. Under pressure from its membership, American Equity's council reversed a decision it never had a mandate to make anyway. It no longer demanded that an Asian-American be cast as the Engineer.
The union acknowledged that its own rules allowed Pryce to take the part. He had won a Tony award in 1976 for his performance in Comedians (as a comic, incidentally, with a principled ha-tred of racist jokes) and thus he had the "star quality" that gives a Briton the right to crash the club called Broadway.

Mackintosh was expected promptly to withdraw his threat to cancel a production that had, after all, already taken \$25 million in ticket sales. But Equity miscalculated their man. He was unimpressed by a climbdown that the union's own statements suggested was wholly reluctant, and refused to reschedule Miss Saigon unless Equity agreed to work positively to ensure that the show was as effectively cast and per-formed as possible.

There the matter precariously rests, awaiting the answer of a union whose president, the actress Colleen Dewhurst, has dismissed the existing Miss Saigon as "a minstrel show". Indeed, the rhetoric remains shrill. Mackintosh has variously been called callous, arrogant, childish and, of course, racist. The current issue of Variety contains a full-page advertisement lambasting him for "perpetuating the gross injustices Asian-specific

actors have always faced". If Miss Saigon were to open tomorrow in New York, Pryce might well find demonstrators waiting for him.
It is no use Mackintosh replying

that he searched for an Asian-American Engineer without finding an actor with the skill and charisma he thinks vital for the role. Indeed, it is little use his appealing to logic or even sanity. someone pushes an alarm button called "racism" in America these days, with or without good cause, the bells automatically activated in some people's minds drown all argument.

At the American university where I taught, someone told a racist joke on the campus radio. Soon, black students were conducting sit-ins and presenting the authorities with a list of demands that varied from every black instructor instantly being given life tenure to the word "black" itself being spelt with a

capital B in college literature. They had widespread support among liberal whites, too. It is hard for Britons to understand how sensitive an issue race has become in America.

There are, of course, good historical reasons for this. In theatrical terms, ethnic assertiveness has begun to have benign results, too. Black work proliferates on and off Broadway. At New York's Public Theatre there are regular seasons of Hispanic drama. The excellent Pan-Asian Repertory Company gives similar opportunities to actors with Eastern roots. Minority performers are increasingly breaking into the mainstream, and not just in the roles for which their colour obviously equips them. Shakespeare in Central Park is a major summer event; this year, black actors have played the lead in both The Taming of the Shrew and

understatement, including the

dripping out of his mouth.

Indeed, colour-blind casting is something that audiences on both sides of the Atlantic have come to accept. Most spectators would agree it takes only a little extra suspension of disbelief to appreciate the black Edmund now on show in the National's King Lear or the black King of France in the same play at Stratford. Hugh Quarshie, a black player of enormous talent, was a thrilling Tybalt in an RSC Romeo and Juliet a few years back. Josette Simon, another, is currently in Arthur Miller's After the Fall at the Cottesloe, playing a character based on Marilyn Monroe with

wonderful finesse. This is not "positive discrimination". These performers have earned the right to cross the conventional colour barriers because they have the skill and power to fill their roles. In other words, they pass the identical test that Mackintosh has insisted be

nothing much more.

of McCarthy, Texas, in 1975.

applied to anyone aspiring to play the Engineer in Miss Saigon. The conclusion is evident. If New York can accept Morgan Freeman as Petruchio, an Italian, why cannot Jonathan Pryce pass as a Eurasian? Is not Equity succumbing to the very racism it so ferociously condemns by resisting

such casting?
Its stand has been hypocritical and dangerous. If Laurence Olivier should not have played Othello, which is the obvious inference, is it not equally illogical to cast a black actor in any white role? Should not only Jews be permitted to play Shylock, disabled performers to tackle Richard III, and, as the chief music critic of the New York Times has sarcastically suggested, animals to sing The Cunning Little Vixen? In its own best interest, as well as that of the theatre. American Equity should capitulate without

Authentic but fake She clings on to the boy as she clings to the memory of that rapturous non-event, insisting on no clear evidence that he is too mentally frail to cope without her. Life-lies or pipe-dreams,

O'Neill called them, are all

around, and have to be sacrificed

or surrendered by the evening's The only character who seems altogether without side is a surprising one for 1975, when transsexuality was not yet a fashionable subject. Joanna, the svelte stranger who appears at the annual Dean obsequies, turns out once to have been Joe, who was driven out of town for his less than macho mien. The "fake" woman is authentic, the "authentic" women fakes. The author's fascination with such incongruities is

obvious: but he leaves the character herself barely explored. Somewhere here the trouble with both Graczyk's text and Davilia David's production may be found. Elaine Hallam, Emma Rogers and others in the cast have talent. But nobody seems able to penetrate very far or painfully into what are, after all, supposed to be nsyches in crisis. This is a thinking comedy, but also a somewhat

BENEDICT NIGHTINGALE

THEATRE

Tristram Shandy Edinburgh Fringe

EVEN the experienced visitor to the festival ends with cultural indigestion. The city is mercifully compact and one can walk from, say, the theatres in the Pleasance, which are almost under the screet of Arthur's Seat, to the Randolph Centre, the other end of Princes Street, in 25 minutes at a crisp pace. Here are goodies, a baddie and a half-and-half which escaped the net trawled by Nightingale and Eyres last week.

At the end of Tristram Shandy a year ago, Stephen Oxley promised a second instalment and he has kept his word with Tristram Shandy - Part 2 (Hill Street Theatre). Wittily, elegantly told, with a skull hooked over a chair to remind us of mortality, this takes us along to what passes for an end in Sterne's novel. He draws a straight chalk line on the stage to keep his mind on one tale at a time. No chance. Begging our indulgence for leaving Uncle Toby in mid-courtship, he rattles over to Provence or into the hero's bedroom where the fatal sash window adds to the damage already inflicted upon him by Dr Slop's forceps. A delightful oneman show, directed as before by

Ennio Marchetto (Pleasance) is another one-man enterprise, though the Venice-born Marchetto appears as himself only at the end. He looks about 25 with a

perfectly calm mouth, but for the previous hour he has been twisting it into inconceivable shapes, giving something like 40 camp caricatures of the famous, mostly singers and mostly women, though Her Majesty the Queen does turn into Pavarotti. Most of his personations turn cunningly into others because he drapes himself in cartoon-coloured cardboard costumes that unhinge or concertina out from mini-skirt to

Bill Gallagher's Lickerish (Assembly Rooms) proved emptyheaded and far from amusing. The marital problems of a couple are solved by an angel dressed as a red telephone. Unendurable tosh, despite James Frain's tolerable attempt to play a lost boy as a Peter Lorre victim.

Elvis jeans to Peggie Lee glitter. It

is empty-hearted but amusing.

Brian Astbury's production of David Mowat's The Guise (Demarco Gallery) has already gathered an award and may transfer south. Ostensibly set in the 1650s. with the theatre under attack, the play rams together events from the entire 17th century to make some doubtful points about censorship and artistic struggle. He shows an admirable readiness to play with writing styles. Restoration pastiche smacking up against today's gutter talk; the jostling acting styles sometimes work but the inordinately rambling scenes are a severe trial. Fiery performances from Andrew Weale as determined hero. Timothy Chipping as King Charles and other promising

JEREMY KINGSTON

**EDINBURGH FESTIVAL: DANCE** 

## Old pro with both feet on the stage

John Percival on Nureyev's new comic role in Flemming Flindt's ballet. The Overcoat

I hen Rudolf Nureyev was in his mid-30s, 1 asked him how he saw his future. His reply was memorable: "I think that when someone has given his life to the stage, he has the right to die on stage."

Some critics have been writing off Nureyev as metaphorically dead for some time, but he goes on drawing audiences. At \$2, he comes back to Edinburgh on Tuesday with a new role that should give him a fresh lease of life, as the hero of The

This part is far removed from the usual Nureyev image: a meek clerk in a government office overcome by one fatal obsession, to own a splendid new coat. The mixture of comedy and pathos shows Nureyev the actor at full stretch. But he would not have accepted the role had it not allowed him to show that there is plenty of dancing left in him.

The man responsible is Flemming Flindt, himself no mean virtuoso in his time. Born in Copenhagen, he was a principal dancer there at 21, became a star with London Festival Ballet and then the Paris Opera, appeared as a guest with all the other major British ballet companies (Royal, Rambert and Scottish) before returning, at 30, to be director of the Royal Danish Ballet.

Although not quite two years older than Nureyev, Flindt stopped dancing to pursue a choreographic career: the role of the mad ballet teacher in his ballet The Lesson, based on Ionesco's play, is a staple in Nureyev's present repertoire. His opinion of Nureyev is unequivocal: "Let's face it, the man has genius. If we take all this century, who can we compare to him? But he is sometimes a poor judge of what suits him best." Presuming on a long friendship, he said to Nure-yev: "You should dance roles made for you at your present age." The response was, "You do me a ballet and I'll dance it."

Flindt proposed an adaptation of Gogol's novella, The Overcoat. He and the designer Beni Montresor have made the background grander than the original, which provides more contrast and givesthe supporting company more to do. Flindt explains that he was trying "to get between the lines", and the changes have made the story work as a ballet.

The score is a selection of mainly early pieces by Shostakovich, which Flindt wanted because he thought it would give the ballet "a certain sadness, grandeur and passion". When the ballet was premièred at last year's Maggio Musicale in Florence, the music was played from recordings. Edinburgh will hear it live for the first time. No orchestration survived for some of the film music and these sections have been newly arranged.

From the first, Nureyev wanted to show the ballet more widely, but the Florentine company was not ready to travel. When Nureyev went back to dance with the Kirov Ballet last year, there was interest for a production in Leningrad, but wheels there grind slowly. So to get the show on the road took a combination of Frank Dunlop's interest to show it at the Edinburgh Festival and the wish of the Cleveland San José Ballet to do something special to celebrates its fifteenth anniversary.

The quid pro quo is that Nureyev has to appear also as Dr Coppelius in the Cleveland production of Coppelia, a prospect that does not thrill him. Denis Nahat, the company's director, says that he sees Coppelia as essentially sunny, and the toymaker as a lonely old man with a sense of humour who desperately needs someone to love.

Another lonely old man looking for love, but unfortunately without a sense of humour, is on the cards for Nureyev's next role in Death in Venice. This is an idea Flinds has cherished for 15 years, and it is to go ahead in Verona next May, to a score assembled from pieces by Bach.

There is a possibility, however that there may be another Flindt-Nureyev collaboration before that, to provide a new finale for the programme on Nureyev's tours with a small group under the title Nureyev and Friends. Flindt has an idea for a completely new interpretation of Ravel's Boléro, featuring Nureyev as a red-nosed clown tormented by two suave devils. Flindt argues that "the music is not sexy at all. It's more like Glenn Miller - big band

Meanwhile, Flindt reckons that Nureyev will be able to dance The Overcoat for 10 years. "He is in good spirits and good shape. He has a very strong technique, although, of course, he is not 25 years old any longer. It uses his immense magnetism and personality as a performer."

● Performances of The Overcoat are at the Playhouse Theatre, Edinburgh, from Tuesday to Thursday next week, and performances of Coppelia run from Friday to Sunday (031-225 5756)

Rudolf Nureyev: "Do me a ballet and I'll dance it."

SATURDAY

YOUR CHEATIN' HEART With a script by John Byrne, this film, a non-style country western, is rumoured to be at east as good as Tuth Fruth Directed by Michael Whyte and staming John Gordon Sinclair, Tilda Swinton and Ken Scott, the six-part TV series is being shown over the course of today. Cinema 1, Filmhouse, 88 Lothian Road (031-228 2688), today, 10.45am (ends 12.25pm), £2 (£1 concs).

♦ MARTINU CENTENARY CONCERT Climax to the celebrations: Czech Nonet, Zuzana Ruzickova, piano, Rudolt Firkusny, piano, and the Panocha Quartet. Queen's Hall, South Clerk Street (031-225 5756), today, 11am (ends 12.30pm), £3.50-£10.

SWEET SORROW Hull Truck's production of Alan Plater's absorbing play about four people who toast "to " and find the poet among them. Assembly Rooms (Venue 3), 54 George Street (031-225 2428), daily until Sat Sept 1 (not Mons), 3 45pm (ends 5.45pm), £6.50 (£5 concs).

RICHARD THOMPSON Return of the folk/rock veteran who used to be with Fairport Convention and has made a string of superlative albums. Assembly Rooms (as above), tonight, 6:30pm (ends 8pm), tomorrow, 9:15pm (ends 10 30pm), £7 (£6 concs).

of New York, whose The Garden of Earthly Delights showed last year, returns with Juan Darien, based on the story by Uruguayan writer Horacio

Royal Lyceum Theatre, Grindley Street (031-225 5756), today, Mon and Tues, 7.30pm (ends 9pm), tomorrow and Wed, 7pm and 9.30pm, mat Tues, 2.30pm, £4 50-£8.50.

**♦ ROTTERDAM PHILHARMONIC** ORCHESTRA First of two Festival concerts under its American chief conductor, James Conton, The programme tonight features Martinů's unusual Concerto for Double String Orchestra, Piano and Timpani (soloists Peter Donohoe and Randy Max), and Richard Strauss's richly descriptive and celebratory A Hero's Life Tomorrow, Dvořak's Requiem, with the Edinburgh estival Chorus and soloists. Usher Hall, Lothian Road (031-225 5756), tonight and tomorrow, 8pm, £6THE MATCH FACTORY GIRL The quirky Finnish film-maker Al-i Kaurismaki completes his Proletarian Trilogy In this feature, a factory worker called ins gets systematically exploited Cinema 1 (as left), tonight, 8 45pm (70 mins), £4. SUNDAY

**◆ ZUZANA RUZICKOVA A chance to** hear the leading Czech harpsachordist and J.S. Bach expert performing a programme of Bach, Couperin and Scarlatti.

St Cecilia's Hall Niddry Street (031-225 5756), today, 3pm, £6 Queen's Hall, South Clerk Street (031-225 5756). Mon, 11am, £3-£8.

ROGER MCGOUGH AND LIZ LOCHHEAD The Fringe wouldn't be the Fringe without McGough — here in his 28th consecutive year of appearances Equally at home is Scottish poet, author and playwright Liz Lochhead, whose carefullyobserved monologues complement to of McGough's celebrated poetry Assembly Rooms (as lett), tonight until Sat Sept 1, 8.30pm (ends 9.45pm), £6

WILD AT HEART David Lynch's latest picture is the Film Festival's closing gala. Cameo Cinema, 38 Home Street (031-

228 4141), tonight, 8.45pm (ends 10 49pm), midnight (ends 2 04am), £4. THE PLOT AGAINST HARRY Michael Roemer's film about a rackeleer going straight. The dry humour may not have had an audience when the movie was shelved back in 1969, but its recent refease has prompted comparisons Cinema 1 (as left), tonight, 8 45pm (81 mms), £4.

WILL DURST An extraordinary American comedian — just back from storming the Montreal comedy festival - is making his second appearance on the Fringe with a set that displays to perfection a very un-American chunk of political analysis, diatribe and observation Assembly Rooms (as left), tonight until Sat Sept 1, 10pm (ends 11.15pm), £5.50 (£4.50 concs).

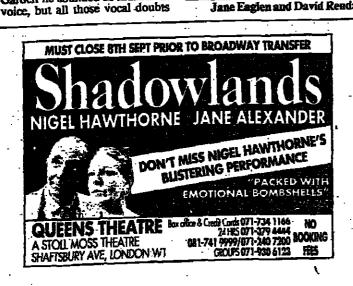

COMEDY TO GO The Cornedy Store Players are Britain's best-known comedy improvisation team - thanks. largely, to their regular appearances on TV's Whose Line is it Anyway? Expect a full crowd here, too, for Josie Lawrence, Sandi Toksvig, Lee Simpson, Paul Merion, Neil Mullarkey and Richard Vranch. If you've never seen live improvisation, there is no better way to

Assembly Rooms (as left), tonight until Sat Sept 1, 10.15pm (ends 11.30pm), £6 (£5 concs).

BEETHOVEN'S NOT DEAD Comedy and music from the accomplished wits Miles and Millner, enchanting new wave comic Jim Tavare, smoothy crooner Bob Downe, and lively Australians, the Como String Quartet. George Square Theatre, George Square (031-667 3704), tonight, midnight (ends 1.30am), £7.

campaign for black voting rights. The Edmund Pettus Bridge blocked the planned 55-mile march from Selma o Montgomery, and the road to

7.30 Eyes on the Prize II: a Preview. Harry Hampton, the creator of Eyes on the Pnze, talks about the sequel to his series which starts on BBC2 next Saturday and charts the rise of black

.45 NewsView. Weathe 8.30 White Noise. A look at some of the most remarkable and thought-provoking videos and video-makers. This programme is devoted to Woody Vasulka and his epic Art of Men He combines the spectacular desert landscaces of the American south west, newsreel images of warrare and a unique form of computer graphics to create a complex study of the violent history of the 20th century 9.10 Designs on Europe: Ireland's Sam

Stephenson. CHOICE: The stocky, bearded Sam Stephenson, whose uncompromisingly modern buildings have controversially transformed the skyline of Dublin, is Ireland's contribution to the international series on contemporary architects. The film reveals his admiration for Mrs Thatcher and Hitler's architect, Albert Speer. and whistles rapidly through his earlier creations before giving extended treatment to the two causes celebres which, for better or worse, have sealed his reputation. His civic offices provoked a huge protest march and accusations that he was mounting a ohysical assault on the people of ວິນປະເທ. His Central Bank, by common consent a more agreeable Eurlding, ran into trouble when it went 29ft over the permitted height. Stephenson

remains unrepentant, but has now

modified his modernist stance and

Sir Edwin Lulyens

new claims as his mentors Falladio and

TSW

TVS

Defence coursel: Jason Roberds (9.50pm)

9.50 The Atlanta Child Murders.

• CHOICE: Although a godsend to lelevision channels with huge expanses of screentime to fill, mini senes hardly ever justify their excessive length But those daunted by two more hours of The Atlanta Child Murders can be reassured. Tonight the story of Wayne Williams (Calvin Levels), arrested after the murders of 29 black youths and children, moves to the courtroom, and trial scenes rarely fail on television. This is particularly so when the scenario is of a valiant defence lawyer trying to take on a seemingly hopeless case. Filling the role here is Jason Robards, an actor of impressive power and presence, who seems to get better as the years roll by. Robards plays the attorney with an

Sheen), sets out to undermine the prosecution evidence and discredit ils wilnesses. It is quite a performance 11.55 Extra. Attitudes to sex and relationships are explored by the innovative European co-production 12.45am Cricket: Third Test. Highlights of

## 5.10 Brookside Omnibus (r). (Teletext) 6,30 Short Stories: District Nurses. A

look at the work of three district nurses working in Battersea, who play an important social as well as medical role

in the community (r)
7.00 The World This Week 8.00 Cities at War: Paris - The Outraged City. CHOICE: Updated versions of Granada's praised documentaries from the Sixties about London, Berlin and

Leningrad during the second world war are preceded by tonight's new programme which looks at Paris. In the now established tradition of ion history, it draws on erchive film, including German propaganda newsreels and footage shot by the underground shortly before the Liberation, but relies mostly on personal reminiscences. These are often vivid and moving. Filmed in black and white in keeping with the dominant photographic mode of the period, the contributors include a German officer of the occupation, a French Jewess who was one of the few to collaborators. The programme is strong on the atmosphere of the period.

the wider issues of collaboration and resistance. The film is further endorsement of the axiom that elevision is better at images than ideas. 9.00 Hollywood Legends: William

the rationing, the hunger and the black market, but tends to gloss over

Holden - The Golden Boy. CHOICE: William Holden's first film was Golden Boy and the epithet stuck as he played wholesom healthy young Americans in a dozen more or less forgettable pictures before Billy Wilder took him on for et Boulevard and made him a star. In the same year, Born Yesterda (which is being shown on Channel 4. tomorrow) revealed Holden as an

Golden boy Holden remembered (9,00pm)

accomplished comedian and through the Fattes has latent steadily widered and despened. In an American clips and interviews profile fashioned after the style of Barry Norman's Mallywood Greats, but with no Normen figure in camera, Holden emerges as an actor widely admired by his peers who never became part of the Hollywood glaz. With a few exceptions, such as The Wild Bunch and Network his later career was undistinguished. He drank heavily and looked old and lined, although he was only 63 when he died. (Teletext) 10.00 Fam: The Lion's Den (1988) starring Gustavo Bueno, Tono Veca and Jose Tejada. A compelling drama set in the Peruvian mountains where communist rebels are engaged in tie against government troops stationed in a strail villege. When the Allegers refuse to co-op coldiers' frunt for the que

strugging sadders resort to brutat reprisals. With English subtides. Directed by Francisco Jose Lomberti 12.20 The Oprak Wistery Stow leatures hilatious clips from the programm Amenca's Funniest Home Victeos 1.05am Poor Man's Orange. The second episode of a four-part sequel to Ruth Park's novel Harp in the South, about an lost-Australian lamily in the

efferments of the second world war.

7.45 Sekuday-Night Theatre. Mane Live. Oueen of the Halls by Stave Treiford, starring Elizabeth Mensteld

© CHOICE: Mane Lloyd.

Oueen of the Halls Starring Queen of the Halls: Sleve Trafford's biographical musical may not do much to enhance. or tainesh the reputation of a music half artiste who was worshipped by the ticket-buying masses and trowned on by the consorious few. The play should, however, do wonders for the reputation of Elizabeth Mansfield whose cazacem Amsthed whose one-woman-show Marie (also written by Traiford) has now been fleshed out for radio. Not contant with getting her leeth into the role of the saucy sanger, Miss Mansfield hugs it like an octopus and squeezes out of it easy let une or the same of the same leeth was not one of the same l ske an octopus and squeezes out of it every last ounce of cheeky humour, energy, defiance and patios. It is the sort of big performance that can go workfully wrong on radio unless it is backed up by the production. If director a big production. If director Janer Whittaker was not, in reality, given a budget generous enough to turn other directors green with envy, then all one can say is that she is a ne-can say is that

● CHOICE. Contemporary filmooers who puzzled over the credits for The Sleeping Tiger were not to know that they concealed the identities of two distinguished Americans who had fled to Britain after being blackballed by Hollywood in the wake of the McCarthy witchhunt. The director billed as Victor Hanbury was Joseph Losey, while the screenplay was attributed to Derek Frye, alias Carl (High Noon) Foreman. The film started a collaboration between Losev and Dirk Bogarde which was to blossom later in The Servant, King and Country and Accident, Here, Bogarde

plays the neurotic young hoodlum tracles familiar from his early caree and previously seen in The Blue mp The story, of the relationship between Bogarde, his well-meanin psychiatrist (Alexander Knox) and the psychiatrist's wife (Alexis Smith), is inashamed melodrama but Losey presents it with a visual flag and raw energy that he would later apply to more weighty subjects

Face of a hoodlum: Dirk Bogarde (2.00pm) 3.40 Magoo. Mishaps abound for the

myopic cartoon character

8.05 Beile and the Glory Boys.

CHOICE: This location report from Memphis Belle, David Puttnam's new cinema slot except that the producer, Brian Lewis, has been able to call upon two additional ele reunion of the original crew, who visit the set, meet their acting counterparts and let us know what hell they went through. The other is the inspiration for Puttram's film, a documentary made by William Wyler in 1943 about the first crew to complete 25 missions. Wyler's daughter Catherine worked with Puttnam on the fictional version. Fact and fiction collide as an aircraft used for the filming crashes into a field and suddenly brings home to everyone that they are not playing with Airfix kits. The clips from Wyler's

film are enticing enough to make you want to see the whole thing aph Campbell and the Power of Myth: Love and the Goddess. The American scholar talks to Bill Moyers about whether ideas of romantic lo and women have changed over the centuries. (Ceetax)

## Poll tax saga ends as last council loses court battle

By Douglas Broom Local Government corresponded

THE government yesterday won the final round of its legal battle over the poll tax when two High Court judges ruled that Haringey council in north London must set

a poil tax in line with guidelines. Lord Justice Farquharson and Mr Justice Kennedy quashed a decision by the council to set a £536 community charge, £28 more than that indicated by Chris Patten, the environment secretary. Mr Patten said the ruling was "a victory for the charge payers of Haringey". Toby Harris, the council's Labour leader, said it would mean higher bills next year.

The council's later announcement that it would not appeal against yesterday's decision brings

## Fears for UK space mission

By JOHN LEWIS

DOUBTS were voiced last night over whether Britain would have an astronaut on a Soviet mission to the space station Mir.

"Operation Juno" has run into serious financial problems, and a rescue package set up by a team lead by Professor Heinz Wolff has been rejected by the Moscow Narodny Bank. They had been trying to raise cash to take over Antequera Ltd, the company running the mission.

Professor Wolff said that although the rescue deal was almost complete, the Russian bank had decided it could not wait. It had provided cash for the astronaut's salaries but said last night that it could not hold on for a rescue

He said:" The bank has taken the view that uncertainty regarding the mission should be removed. Of course I am very disappointed. The British astronauts are on holiday now, and will be returning to training in September. But whether they will fly, or whether they would want to do so without the experiments involved is in doubt."

to a close four months of costly

litigation by councils against the government over the poll tax.

In July, after hearings in the High Court and Court of Appeal, the House of Lords upheld Mr Patten's power to cap council spending levels. The councils then sought to argue that although Mr Patten had the power to control their budgets he had no right to specify poll tax levels. Haringey, which, at £572, had set the highest poll tax in the country, led the new

Although cutting £10 million from its budget, the council said that because of lower than expected poll tax payment returns it could not afford to cut its poll tax to Mr Patten's £508 guideline.

The judges decided yesterday that by revising its expected collection rate from 95 per cent of the amount due to 90 per cent, the council had acted unlawfully.

Counsel for Mr Patten had argued that the 1988 Local Government Finance Act required a council to use the same estimated default rate when setting a substitute community charge as it had used when setting the original charge, David Keene, OC, said the benefits of budget reductions ordered by the minister must be passed on to charge payers in smaller poll tax bills.

Lord Justice Farquharson said the rules contained in the 1988 Act 'must prevail" and these rules were intended to restrict an authority's options to fix a new charge above the figure set by ministers

lan Willmore, the council's finance chairman, said he was disappointed with the outcome. 'Far from reducing the poll tax burden for the people of Haringey, the effect of this judgment is to make them pay more over the next two years," he said. Steve Bullock, vice chairman of the Labour controlled Association of London Authorities said the High Court ruling further undermined local accountability. "This unfair tax puts the government effectively in charge of spending decisions at local level but with no responsibility for the consequences.

## Alert for family adrift at sea as bank holiday exodus begins

FEARS were growing last night for the safety of a family of four last seen clinging to a surfboard a few hundred yards off Woolacombe, North Devon. Heavy mist ham-pered the search for the family, including two children believed to including two children believed to be aged 13 and 14.

Three lifeboats, coastguard shore patrols and two helicopters joined in the search. A Swansea coastguard spokesman said last night: "The air and sea search is continuing despite difficult

The alert was raised by a swimmer who told coastguards the group were clinging to a surfboard but that a girl had drifted 20 yards away from the board. They went missing at 2.15pm and there was still no trace five hours later.

The rescue was among a number of coastguard alerts around coasts which were expecting bumper trade over the weekend.
An RAC spokesman said last night: "The picture on the roads is

already beginning to indicate that this weekend could be the busiest AA Roadwatch said the M I was particularly busy, especially around Milton Keynes where an accident caused a 22-mile tailback

Centre. for much of the day. By last night there were tailbacks on motorways

and trunk roads across England

Blackspots included main routes along the south coast and the M5-M4 interchange where thousands of motorists were heading for the West Country. By early this evening there were 3,300 cars an hour streaming into the southwest on the M5.

Tourists who make it to the coast can look forward to plenty of sunshine by later tomorrow, according to the London Weather

Scotland Yard reminded motorists to avoid Notting Hill in west London which stages its annual carnival this weekend.

## Asians say thanks a million to Britain

of successful Asians have turned to manufacturing industry, in-cluding Swraj Paul, whose Caparo engineering group was born out of a tubing plant in Wales. The firm now employs 5,000 and turns over

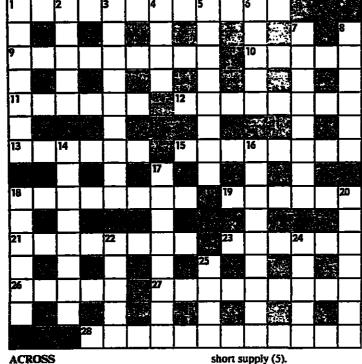

£400 million a year. Nat Puri, whose Melton Medes group boasts a turnover of nearly £100 million, arrived in Britain in 1966 as an almost penniless student from India and worked as an engineer in Nottingham.In 1976, Mr Puri left to form an engineering consultancy. In 1988, he sought, unsuccessfully, to take over the former British Shipbuilders' yard in Sunderland, Tyne & Wear. He also bid for Rover, but lost to British Aerospace.

In June, the Prince of Wales

asked if the Asian community would like to make a £1 million contribution to the Prince's Youth Business Trust. By the time coffee was served, £5 million had been

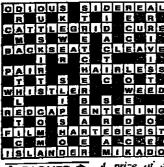

However, in spite of achieving net wealth worth tens and even hundreds of millions of pounds, most Asians are still excluded from the British "establishment" according to Management Today. There are, for example, only two Asian MPs. Praful Patel, an investment consultant and aspiring Labour politician, says. "Nobody is part of the establishment and it is about time somebody made it. They take you out to lunch - but who do you see on the board of ICI, Unilever or British

## Indians reap reward as bowlers are exposed

By Alan Lee CRICKET CORRESPONDENT

THE OVAL (second day of five): England, with nine first-innings wickets in hand, are 570 runs

ONLY 48 hours ago, England were approaching the Australian tour with a spring in their step. Not any more. After two long hot and revealing days in the field in this final Combill Test match, it is

For the first time in six Test matches this summer, England are back in that half-forgotten prison, obliged to but merely to save a game. On a blissful Oval pitch, that ought not to be beyond them, but they must do so with the deflating knowledge that their coveted bowling strategies need

It has always been a dangerous gamble to play only four bowlers against this Indian batting side. Until this match, England had got away with it, but the reckoning

was harsh and prolonged.

India not only amassed their highest score in 78 Tests against England, they even exceeded any-

NDIA 508 for nine dec (R J Shastri 187, Kapli Dev 110, M Azhazuddin 78, K S More 61 not out). ENGLAND 36 for 1.

thing achieved by last summer's rampant Australians. Kapil Dev made the fourteenth century of the series, Kiran More supplied 61 from No. 9 and the final insult was offered by a declaration when England found it beyond them to break a last-wicket stand with the third new ball.

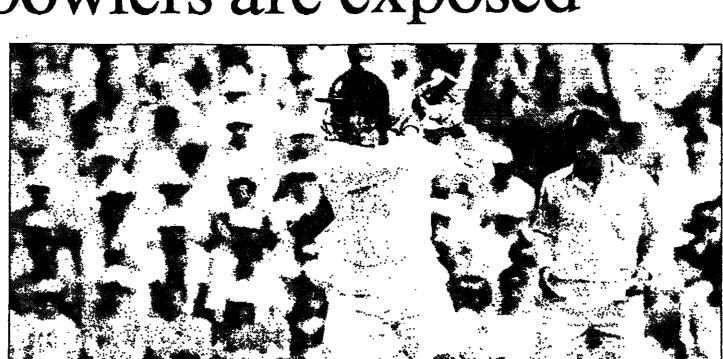

Left 12 overs to bat out, England lost Atherton to a ball from Prabhakar which swung and lifted, but the memory of this sticky Friday for a capacity crowd, will surely be the deficiencies of England's threadbare attack under

Angus Fraser, as usual, was by a distance the best of the bowlers. But that is not to say he looks in mid-season form. Indeed, there were times when his action was diffident, suggesting he was either troubled by an injury or by fatigue.

His demeanour when hit for four also left much to be desired, remonstrating with oneself can only present a psychological bonus to the batsman. Fraser looked to be carrying the cares of his country and, when his support is scrutinised, perhaps he was.

There were very few occasions during the Indian innings when either Malcolm or Williams completed an over without at least one rank bad ball. Technical flaws have begun to afflict Malcolm's delivery stride, while Williams, although occasionally capable of late and demanding movement, simply does not look the part of an international bowler.

As for Hemmings, his job seemed plainly defined, either by himself or under Gooch's direction, as entirely defensive. This may have suited Hemmings very well for, whatever his protestations, he never seems happier than when firing the ball into leg stump at medium pace. It does not, however, get good players out, and England must surely adjust their sights towards a more attacking spin bowler for the winter.

Boy wonder: but Tendulkar could not repeat his Old Trafford heroics at the Oval yesterday, and scored just 21

#### The net result of these shortcomings was something as one-sided as England's batsmen had perpetrated at both Lord's and Old Trafford. Fraser alone conceded fewer than three runs an over and, long before the declara-tion, England wore a communal look of resignation.

They could, oddly enough, have been still more desperately placed but for the inability of India's top scorer to accelerate. Ravi Shastri finished with 187, much his best in Test cricket, but in three-and-ater hours yesterday he added

He is an odd mix, Shastri. He once hit six sixes in an over for Bombay, but he is also capable of the most introspective batting, Indian command and deserves high credit, he let England off lightly yesterday.

Prabhakar, more of a new ball watchman than a night watchman, had gone early on, and when Tendulkar played a loose drive to Williams' outswinger and edged to first slip, England had a clear chance of dismissing India for fewer than 450, thus retaining a theoretical chance of victory.

Shastri fell to a tired shot, failing to move his feet as he drove at the perspiring Malcolm, but the seventh wicket had by then added 110 and Kapil scored a further 74 for the eighth with the dapper More. At 511, India reached their record test score in England. At 554, it was a new record against England anywhere, though by then Kapil had fallen to a ball which Hemmings did throw up and drift away from the drive. When another new ball was taken, the first deliveries of both Malcolm and Williams were dispatched for four. It was an accurate symbol of England's dispiriting day.

## The dazzling genius of Russell's handicraft

with a pair of hands as good as Jack Russell's. From the last 40 years, I can think of only half a dozen who, perhaps, have been. Don Tallon, of Australia, was one, John Waite, the South African. another. New Zealand, Pakistan and West Indies have had no one in that class. The Indian who has

Farokh Engineer.

Among Englishmen, Bob Tavlor and Keith Andrew were complete naturals. So, to almost the same degree, were John Murray, Arthur McIntyre and Billy Griffith. Bruce French is another with a rare gift. Keith Fletcher used to say Taylor was so good that even from first slip you could not hear the ball entering his gloves. Although Godfrey Evans and Alan Knott were both more dazzling than Russell, I am not sure that either of them had quite the same sense of timing.

But Russell is also an enigma. Nothing shows that better than the totally contrasting ways in which his form in West Indies last winter was summed up by two cricketers turned critics, who know what they are talking about. One wrote that Russell "set the highest possible standard behind stumps, to which the rest of the [England] team responded". The other maintained that, "no one could be convinced that Russell

still loud enough in all conscience

- than that which prevails in most

Stead transfer shock

has changed clubs. Stead,

Boconnoc and left for Penharrow.

The Boconnoc secretary, Richard

Collins, wished him luck, and

expressed the hope that he would

Tere is more red-hot news

JOHN WOODCOCK

was up to the standard of the great wicketkeepers. The keeping in the series was abysmal."

Russell's genius, I side with the former. In an age when more and more wicketkeepers are little more than cricketing goalkeepers, it is a treat to see a craftsman at work. Russell has made scarcely the semblance of a mistake at the Oval. Two of his three catches on Thursday were wonderful. But there have been matches this season when he has dropped more than he should.

And maybe, like David Gower, another with a magical sense of timing, Russell has trouble with his concentration. Whether it is that or not, it is important that he should have both the support and rivalry of a second proper wicketkeeper in Australia, rather than of a batsman doubling as one. Apart from anything else, the wicketkeeping brotherhood deserves such encouragement, not to mention Graham Gooch's perspiring bowlers.

Allan Lamb's position at first slip, alongside Russell, has become the cause of some comment.

than they do.

not all of it complimentary. At times, he stations himself so fine and deep as to be almost covered by the wicketkeeper. Bill Edrich (and, when he was not in the side, Len Hutton) used to seem to be hiding away down the same alleyway in Australia in 1954-55 when Frank Tyson was bowling. except that he would have been four or five yards farther back than Lamb, to allow for the extra pace of Tyson and the pitches.

For those few weeks in his life, Tyson was so fast that Arthur Morris reckoned the difference between playing him at one end and Brian Statham at the other was as that between playing Statham and Trevor Bailey. But Hutton and Edrich took catches there and so, now, has Lamb. I believe, even so, that England's slips more imaginatively aligned could usefully span more ground

## A season of high promise

By CLIVE WHITE

WITH World Cup euphoria as its background, the new English season lifts off today confident of its fifth increase in overall attendances in as many years and, hopefully, a final audience figure well in excess of 20 million for the first time in nine seasons.

The national team's exploits in the World Cup, though, is not the only reason for approaching the new season with optimism. Law changes should improve the game as a spectacle while the return to European competition and additional promotion places due to the expansion of the first division should also heighten interest. Nowhere will the memories of

the World Cup be more vivid today than at White Hart Lane, where Gascoigne and Lineker will again play to an audience of several hundred millions: the match between Tottenham Hotspur and Manchester City, a 36.000 sell-out, is being transmitted to 60 countries.

The pressure on the Tottenham pair to succeed will be enormous and Gascoigne, in particular, is facing the most demanding season of his career. Terry Venables, his club manager, clearly does his best to alleviate that pressure on a young man who on behalf of the nation, or so it seemed, ran the full gamut of emotions during the finals in Italy.

He is finding it hard to run with all these headlines on his shoulders," Venables quipped yesterday. "At the moment Gazza is doing all right, he handles it well. But it is a different era. Bobby Moore and Geoff Hurst didn't get this sort of thing even after winning the World Cup."

The pressure on Venables to considerable either. The Tottenham crowd will expect the team to continue where they left off last season, when seven wins in the last eight games took them into third place.

advantage but City will provide them with an awkward examination. Howard Kendall has strengthened still further the side which in the end comfortably avoided relegation and the addition of Coton in goal will make them even harder to beat.

Liverpool will not object to beginning the defence of their championship out of the spotlight against Sheffield United at Bramall Lane. They will a without Hansen, their captain.

Predictably, there were no predictions from Kenny Dalglish, who would only say: "If our attitude and commitment are right - and they have never been in doubt in the past - we should be all right."

Dave Bassett, the manager of newly-promoted Sheffield United, took a leaf out of the master's book on his return to the first division by declining to announce his team.

## The flexible friend to greet Gavaskar

S unil Gavaskar is, by a considerable margin, this column's pick as cricketer of the year. The award is made, of course, for his refusal of life membership of the MCC because of the general bloodiness of the Lord's stewards. Meanwhile, there is no chance of membership of the Western Australian Cricket Association. At the Waca (say "whacker") cricket ground, they have installed robots

Hardly a fair price on the gates; no doubt these are more human than the Lord's

thing into a slot, and if all is well, the gate opens and in you go. The

# The magic of a major championship

ven for a "dead" athlete like me, that tingle is back in the air this week. A major athletics championships is about to open. The fair is coming to town. Another global village is being set up for a few days, this time in Split. Yugoslavia.

These European championships occur in the midst of the annual grand prix circuit, the athletes' regular European tour. Now the grand prix circuit is wonderful. one of the great events and traditions in world sport. One day. i plan a television series and book called The Grand Tour, looking at the modern circuit round the athletic stadiums of Europe and comparing the athletes' impressions with those of our forefathers, who made the same tour a century or more ago. Yet with such a circuit, why are the championships so special?

the classic Weltklasse meeting, the

ment. The organisers were giving me a nice award (they, too, had noticed I was retired!). Soaking up the marvellous atmosphere again, I started to look forward to Split; so I reflected on this question of

For me, and I think for most athletes of this or any other generation, major championships are what the sport is about Records come and go, but medals are here to stay. Those winners remain in the record books - not only the official ones, but also those vital unofficial ones in people's memories.

In championships like these. every reputation is on the line. How you have performed in the past, how good your personal best was this year or last, and even what the bookies and selectors think, now count for nothing except, of course, that any or all of Last week, I was in Zurich for those things may represent invaluable experience, and in the heat of

COMMENT

SEBASTIAN COE

battle, experience, like fast times, can be money in the athlete's bank. Best of all, experience may assist confidence and confidence can be all.

Championships are about "peaking", the art of achieving your best when your best is needed. Most European athletes will have planned their season around next week. Their greatest fear is last-minute illness or injury, which, in their condition and circumstances, need only be slight. As I know to my cost, this is one heck of a time to catch a cold - or to catch someone's leg in an inside

There are two other ingredients

in the championship mix that I should mention, two other differences from the usual circuit. They are a competition between people and not, for example, against the clock. Slow times can and will win some of next week's races. Finally, competition is not one race, or one jump, or throw, You have to get through heats (and perhaps semis), and these are tough. The trick is to qualify without expending too much en-ergy and, if possible, to build up form. Down the years many, many hopes have been dashed by the daily grind of championship competition — what I called in Los

Angeles, where I had seven races

in nine days, "another day at the office".

gainst that background, what are the special fea-tures of these European championships? Some we cannot forecast, because every such event has its unexpected side. Championships develop a mo-mentum and quality of their own, dependent upon factors like the competitors' comfort, the team spirit (or lack of it), the weather, the food, and the track and field conditions.

There is certainly going to be a German factor. This is likely to be the last important appearance for an East German team before the country unifies with the West. East Germany's record in the last 20 years is an amazing one. I am sure they will perform well here too, because each member of the team will want to wip one of the last East German medals, and also they will want to stake claims for places in a future all-German

athietic team. However, already times have changed. In Zurich last week, it was strange to see East German athletes chasing grand prix points and dollars so soon before a major championships. We are used to their being in virtual hiding at such a time (their own national championships were always behind closed doors). The questions next week are about their famous discipline and team spirit - will these be the same?

cople are often surprised when I talk about team spirit in an individual sport like track and field. But it is a vital factor - never better illustrated, perhaps, than in Stuttgart four years ago, when one British success led to another and we all encouraged each other to such great effect.
For this British team, that is a

hard act to follow. In 1986, British men won most of the European

track gold medals. We had real bonus performances at 400 and 5,000 metres.

Yet this 1990 team has every reason to be confident. They have a "unick record"; they have these performers in intany events, and they have experienced men and women (including many from Sungert) who can set the right

winning example. · I look forward to watching the old and the new and their different reactions to the stress of top competition. The Crams, the Sandersons and the Blacks, by example, are now trying to repeat success. For Peter Elitott and Ton McKean, there is the new experience of being favourise. Among the new faces there might be a Paul Gascounte, treating the summit of their sport like the opportunity they have been waiting for all their lives - which, of course, it is Steve Backley, that great new force in the field events, looks to be of this special breed.

## East Germany's farewell may end as a British party

WHEN the European championships unfold in Split next week three countries will dominate, one for the last time. The book on East Germany's fabled record is about to be closed. From next being danced off her feet. Of year there will be only one the ten good chances, nine are German team, uniting East in men's events. and West. If East Germany's valediction is to be said from on top of the medals table, the Soviet Union and Britain will make sure they get there the

Britain's best European championships was the last metres). Tom McKean (800 one, in 1986, when they won eight gold medals. have our best European metres). Mark Rowland championships," Linford (3.000 metres steeplechase). Christie said. Courtesy prevented him from adding Jill Hunter (10,000 metres), in "thanks to the men". There Stuttgart, Britain won eight are 14 events, out of 43, in which Britain have gold medal chances. In ten the chances are the only woman and the first good. If there was a cham- since 1969. pions' ball, like they have at Wimbledon, Yvonne Murray Sally Gunnell - one of only

would face the prospect of They include a potential

monopoly on gold medals in the sprints, hurdles and middle distance. Starting as favourites are Linford Christie (100 metres). John Regis (200 metres). Roger Black (400 metres), Peter Elliott (1.500 metres). Colin Jackson (110 metres hurdles) and Kriss Akabusi (400 metres hurdles). Britain will also be disappointed if victories are not

ing for goal.

Britain have lesser chances
"It looks like we are going to with Eamonn Martin (5,000 the 4 x 400 metres team and gold medals. Fatima-Whitbread, in the javelin, was medals. Fatima-Bruce Longden, coach to

with several men - said: "In Britain we are very easily satisfied. Our women have got to be a lot more professional. They require more management of their time and training."
Bruish optimism is high

despite the absence of four of the seven individual event winners from Stuttgart in 1986. Furthermore, another winner then, Steve Cram. defends his 1,500 metres title on thin evidence that he can succeed: injuries and illness have restricted his appearances and only once, when he ran 3min 35.98sec, has he performed in accordance with

his reputation.
Jack Buckner (5,000 metres). Daley Thompson (decathlon) and Whitbread have been prevented by injury from defending and Sebastian Coe (\$00 metres) has retired, leaving only Christie and Black. Coe led McKean and Cram to a memorable 1-2-3 in Stuttgart and, while a medal sweep is always improbable. there are three events in which Britain can hope: in the 200 metres (Regis, Christic, Marcus Adam). 800 metres (McKean, David Sharpe, Matches (McKean, David Sharpe, McKean, David Sharpe, McKean, McK thew Yates) and 1,500 metres (Elliott. Cram, Neii

won impressively in both the Parcelforce Games and the AAA championships, but both victories were overshadowed: the first because Backley simultaneously set a javelin world record, the second because interest centred on Tony Morrell's infield histrionics. "My target is to run out of my skin and get a medal,"

Horsfield said. On a wider theme, three athletes have chances of two individual gold medals: Katrin Krabbe, of East Germany (100 and 200 metres), Salvatore Antibo, of Italy (5,000 and 10,000 metres), and Christie (100 and 200 metres). Krabbe and Antibo are more likely double winners than Christie.

The East Germans and Soviets each have a dozen or so gold medal favourites. German preparation has not been as it used to be: the national championships were adversely affected by athletes, no longer supported by the state, using the grand prix to make up lost income.

But failure in Split resulting from tired limbs could prove pean champion you will earn more from your nights at places like Zurich, Oslo and who has im- Crystal Palace," Elliott said.

Gold medal banker: Linford Christie predicts an outstandingly successful European championships for Britain

# Their two summer acquisitions are expected to help make Chelsea a power in the first division this season Wise brings a new balance Sweeping changes that will follow World Cup

WE WERE last able to talk seriously of Chelsea as championship contenders 20 years ago. Even in the spellbinding days of Peter Osgood and his fellow sorcerers, the football was more conducive to capturing the imagination of crowds than it was League

Living under the perpetual threat of eviction from Stamford Bridge in recent years and since the 1960s for ever moving home between the first and second divisions, Chelsea have found it hard enough to establish their position as first division residents never mind think earnestly about winning

Then, in January of last year, midway through another season spent regaining first division status, they laid the foundation stone of something more lasting when they bought Dave Beasant, the England No. 3 goalkeeper, back to London for a club record fee of £725,000. It made the rest of football sit up and take notice.

If last season was supposed to be one of consolidation they did not do a bad job by finishing fifth, after leading the first division at one stage. Bobby Campbell, who took over from John Hollins as manager 21/2 years ago, is more of a pragmatist than some of his predecessors at the Bridge and appreciates that nowadays, more than ever, it requires muscle as well as brain to succeed in the English first division — or as his favourite equation has it:

quality + effort = success. This summer Campbell made two further important signings which gives the team an altogether more imposing look that should worry even the likes of Liverpool.

"Paper teams never won anything," Campbell said, but no one in their right mind would describe Dennis Wise (£1.6 million from Wimbledon) and Andy Townsend (£1.2 million from Norwich City) as paper tigers.

Both players are renowned for their fierce competitive-ness and represent the most formidable pair of pre-season signings made by an English club since Liverpool bought Barnes and Beardsley three summers ago.

Wise is a fighter. He can get up and down the pitch, he is little, he is brave, he is dirty and he's the best crosser in the country," Campbell said. "A midfield player needs to be able to couldn't pass. But Townsend

Manageriai changes

ENGLAND: Grathum Taylor, formerly with
Ason Villa, replaces Bobby Robson, now
with PSV Eindhoven.
FIRST DIVISION: Aston Villa: Jozef
Venglos (formerly manager of the
Czechoslovaldan national learn, replaces
Graham Taylor). Wimbbedon: Ray Harford
(caratalos, replaces Bobby Gould).
SECOND DIVISION: Ipensich Towns John
Lyali (replaces John Duncan). Watford:
Colin Lae (caretaker, replaces Steve
Harrison).

Harrison).
THIRD DIVISION: Brentford: Replacement for Slave Perryman to be decided.
Fulham: Alan Dicks (replaces Ray

Lewington, now coach).
POIRTH DYNSION: Bischpool: Graham
Carr (replaces Jimmy Mullen). Hereford
United: Colin: Addison: (replaces Ian
Bowyer). Lincotn City: Alsn Carke (replaces Colin: Murphy). Northampton
Town: Theo Foley (replaces Graham Carr,
now with Bischpool). Walsali: Kenny
Hibbitt (replaces John Barrhwell).

Ground Crianges:
Two Football League clubs have changed grounds since the end of last season. Watesall, in the fourth division after two successive relegations, have moved from Feltows Park to the £4.5 million Bescot Stadling (capacity 12.000).
Chester City, the third division club, have joined those clubs now straing grounds. They have sold up at Seasand Road and moved in with Macclesfield, the GM Vauchall Conterance club, at their

grounds. They have sold up at Seasaru Road and moved in with Macclesfield, the GM Vauntiell Contertance club, at their Moss Rose ground, for two seasons while a new stadium is constructed in the Chester area. Home reatches at Macclesfield will mean a 90-male round trip for Chester supporters.

NEW SPONSORS FOR LEAGUE CUP: Rumbelows, the electrical appliance firm, become the third sponsors of the Football Lague Cup, with a 25 million investment over four seasons. The competition was known as the Milk Cup from 1982 to 1988 and the Lintlewoods Cup from 1987 to 1980.

1990.

RETURN TO EUROPE: After an absence of five years following the troubles at the 1985 European Cup final at the Heysel stadium, Brussele. English clubs are readwitted to European competition this season. Manuchester Umbed play in the European Cup Winners' Cup and Aston Ville in the Ueta Cup.

Ground changes

Management team: Bobby Campbell (left) and his assistant, Gwyn Williams, have high hopes for the season

Kerry Dixon may soon have reason to be more appreciative of their qualities than even Campbell. "They should give Cheisea that extra fighting spirit we badly needed and should make us a good side to watch," Dixon said. It is five years since Dixon won the last of his three consecutive Golden Boot awards for his scoring feats. But he is not alone in realising his opportunities this season. The bookmakers have made him 12-1 fourth favourite, behind Lineker, Rush and Rosenthal,

 leading goalscorer. The artful Wise, whom Campbell considers an even better crosser than Nigel score, but few can do all of Callaghan, could provide that Even Robbo couldn't. He Dixon with the short of service he has not enjoyed since Nevin acted as his magical

THE LAWS OF THE GAME: Offside: An attacking player in line (level) with the last-but-one defender will no longer be deemed offside. Sendings-off: Referees are required to send off players who commit the "professional fout" to deny opponents a socing opportunity. Shinguards are compulsory in club matches (previously in internationals only).

only).

LEAGUE FORMAT: Only seven clubs will be relegated this season if the Football Association approves the decision of club chammen this summer to resure the first division to 22 clubs in 1991 and to extend

division to 22 clubs in 1991 and to extend the League to 94 clubs in 1992. FIRST DIVISION: This season: 20 clubs: two clubs relegated, four promoted from second division. Next seeson: 22 clubs. SECOND DIVISION: This season: 24 clubs. Six clubs leave the division – four promoted (top three plus play-off winners) to first division and bottom two relegated to the third. Replaced by two clubs relegated from first division and four promoted from the third Made season: 24

to the third. Replaced by two clubs relegated from first division and four promoted from the third. Next season: 24 clubs. THIRD DIVISION: This season: 24 clubs. Seven clubs leave the dhislon — four promoted to the second division (top three plus play-off warners) and bottom three relegated. Replaced by two clubs relegated from the second division and five promoted from the second division and five promoted from the lourth. Next season: 24 clubs. Five clubs leave the division—all promoted to the third division and the champions of the GM Vauchall Conference. No fourth division club will be relegated from the season: 23 clubs. In the 1991-82 season, the League will comprise 93 clubs. The fourth division rule be restored to 24 clubs in the 1982-93 season by the addition of the GM Vauchall Conference complians—no club will be restored to 24 clubs in the 1982-93 season by the addition of the GM Vauchall Conference champions—no club will again be demoked from the League.

INCREASED INCENTIVE OF BIGGER CROWDS: Counting the play-offs, there are promotion opportunities for 22 clubs the season. With the prospect of European qualification in the first division, an interesse in League attendances for the 18th successive seeson is filely.

peen qualification in the first division, an increase in League attendences for the fifth successive seeson is filety.

LATE TRANSFER MOVES: M Millingar (Okthem Antilette to Everton, 2850,000); A Hurlock (Milhvall to Frangers, 2325,000); A kernedy (Blackburn Hovers to Watford, 2190,000); S Balmer (Ceipc to Charlton Athletic, 2100,000).

**FACTS AND FIGURES** 

provider. "Par's probably more skilful than Dennis but Dennis is much more tenacious and more of a battler. He is not going to let you down," Campbell said. Durie is another who

should benefit from the arrival of the new pair in midfield provided he is around to do so. His persistent groin problem reappeared during Chelsea's successful pre-season they were unbeaten in nine games - but Campbell is optimistic that when he returns in "a matter of days rather than weeks" the groin to finish as the division's may be less tight than it has

> Beasant, the defence remains, if not a problem, an area of ball had been kicked in the Englishmen who had the abil- fitness.

the fourth-division side.

Geoffrey Green

Report.

first division last season, Campbell adopted a sweeper system that swept aimost all before it before suddenly springing more leaks than a colander because of injuries and the poor form of its principal player, Roberts. Had it not been for that, Chelsea would surely have climbed even higher than fifth.

Having dispensed with the sweeper system, Campbell is unlikely to reintroduce it for this term. "The English player doesn't have the discipline to do it in a man-marking system like the Continentals. He thinks be's better than he is and too good just to be asked Despite the presence of to mark a player. He'll do the

HE FRANKLY admits his appointment is a "risk", but

Jozef Venglos, the new manager of Aston Villa, is still smiling. As

befits a doctor of philosophy. Venglos was stoical when faced

with the first of many media post mortems after his team's

two defeats in the pre-season Makita tournament at Wembley

"Of course appointing me was

a gamble; it might not work," he a gamble, it might not work, he said. If it does, naming the manager of the Czecho-slovakian World Cup team to succeed Graham Taylor at Villa

Park will seem like a master stroke on the part of Doug Ellis, the Villa chairman. If it does

not, and were Venglos to fail.

Ellis knows his appointment will be condemned as rash.

someone was bold enough to do

what plenty have advocated, but

never actually dared do, and appoint a leading foreign coach to manage an English first division club.

Villa may have finished run-

ners-up in the League last season, but in terms of quality

they were a poor second to Liverpool, and Venglos will do well to maintain the mo-

mentum. His task starts at home

formight ago.

ity to do it, one of whom Peter Storey - I taught myself when I was coach at Arsenal. The others were Nobby Stiles and Paul Parker, who's the best in the country at it now. Total concentration is a gift from God," he said.

But despite Campbell's obvious preference for players with some grit in their souls, it would be wrong to assume that he has no time for the game's artists. The next in line on his summer shopping list was Gary McAllister, who chose instead to transfer his nimble skills from Leicester City to Leeds United. And Campbell, determined to

the summer signing from Ports-mouth who was intended to bolster the central defence, has

had such trouble settling in that

he has been omitted from the

team to meet Norwich, leaving McPhail — who he was sup-posed to be replacing — with an unexpected first division

It will be interesting to see how Norwich cope without Townsend, now with Chelsea, in the midfield, and Linighan, sold to Arsenal, in central defence.

Linighan's first League match for his new club is at Plough Lane today — probably a place for the purist to avoid.

However. Ray Harford.

growing

England were on the verge of conquering the football world. Nobody should doubt that they would have gone on to adhere rigidly to their duties beat Argentina had Stuart rather than follow the custom Pearce and Chris Waddle not of covering each other. The missed their penalties at the fuil backs must also be creend of the World Cup semiative but they are not such a final against West Germany. rare species. Trevor Steven and Tony Dorigo, for exam-

The most startling aspect of England's progress in Italy was that it was made with such sweeping changes. Not only were comparative international novices, such as Paul Gascoigne, Paul Parker, David Platt, Des Walker and Mark Wright, the leading lights, but they were also able to adapt instantly to a system previously regarded as

Bobby Robson, in daring to select a sweeper, was gambling with his reputation. Had the plan failed against the Netherlands on June 16 in Cagliari, the obituaries on his national managerial career would inevitably have been savagely critical. Instead, he and the members of his squad went on to earn the admiration of the country.

They promised to have left a deeper impact on the domestic game itself. Just as club managers were persuaded to withdraw their wingers by the tacties of Alf Ramsey in the 1966 World Cup, so this season they are sure to be provoked at least to consider he employment of a sweeper.

Robson was reluctant to introduce the ploy. He felt that the England representatives should be accustomed to it before he could justify using it, which made his decision all the more surprising. Instead of waiting for clubs to carry out the transition, he took the lead

Wright, his choice to fill the role, had acted as a sweeper before on only three occasions for Derby County. Although he had been a member of the system introduced when he was at Southampton, he was picked as one of the two markers. Lawrie McMenemy preferred Reuben Agboola as the free defender

second by the League - take the field against Charlton Athletic.

How does a team's morale cope with a rollercoaster ride like

Watford, almost claimed the title seven years ago with the simplest of tactics,

He now appreciates the value of the more sophis-The pair of markers must ticated style, as was evident last season, and his appointment as the England manager is to be welcomed. He can build on the foundation and the example set so conveniently for him by Robson. In some areas. Taylor can lead ple, might have been more the way. productive choices during the World Cup than Parker and

The level of mistrust within the game has sunk to a damagingly unhealthy level, as was manifested during the evidence during June and World Cup by the ludicrous July. Compare England's cold war between the England squad and the media. Both parties were, and are, guilty of irresponsible behaviour which borders on the offensive.

Players, and indeed managers (guided invariably by their shadowy and sometimes sinister agents), are financially induced to be provocative and sensational in print. Yet they either sulk or are ascerbic whenever they are bitten by the hand from which they freely choose to feed.

ingly keeps the vicious circle going for its own perverse interests. Since Taylor's father was a journalist and he himself has practised the craft (most recently for *The Times* during the World Cup), he recognises the demands on both sides. He could act as an influential mediator.

divisive gap, between club and country, by paying regular visits to established and prospective internationals. With Lawrie McMenemy at his side, Taylor promises to repair the broken lines of communication and, it is to be hoped, to restore a muchneeded sense of fun.

There are serious issues. Grounds and especially facilities still require renovation, transfer fees are again rising to absurd heights, the forthcoming freedom of movement within the European Community could pose confusing problems, hooliganism cannot yet be considered to be fully under control, and some misguided people want to increase the size of the first division.

But the game itself was lifted onto a launch pad during the summer and, with Some managers have little careful and enterprising choice. Their resources are so management, it could take off lor, when he was in charge at tively to promote it.

Battle lines for Belgium grand prix drawn up as Marlboro-McLaren and Ferrari drivers take four leading grid positions

## Qualifying misfortunes send Mansell into a spin

By JOHN BLUNSDEN

THE Belgian grand prix is shaping into a fight between the Mariboro-McLaren and Ferrari teams with their four drivers heading the list of qualifying times and the slowest of them more than a second clear of the fifth car, the Benetion-Ford of Nelson Piquet.

Although Gerhard Berger put in an almost immaculate lap in his Honda-powered McLaren to claim the provisional pole position. Alain Prost replied on behalf of Ferrari with a typically performance to split polished performance to split the two McLarens. Ayrton Senna was not content with his third position in the overnight line-up, a full second slower than his team partner because of too much understeer, but Nigel Mansell was far from down-hearted to end the day fourth quickest after a series of

downforce wing, found the car extremely "twichy", and when he nudged a kerb he launched himself into a lurid five-revolu-tion spin which carned him a standing ovation from the

quickest after a series of crowd.

misadventures.

In the preliminary session he experimented with a low-corner and picked up a lot of dirt a consequence of the extreme

on his tyres, which out him into another victous slide two cor-ners later. His second run was better, but far from perfect, and he knows there is more to come today if the track conditions

enced here in the dry. However, it failed to prevent Mansell from taking the daunting Eau Rouge s-bend in sixth gear. "I did it just once, and I can't honestly say I liked it," he said. Jean Alesi did likewise in his Tyrrell-Ford and it helped him into an impressive seventh place

despite his lack of horsepower. but Derek Warwick and Martin Donnelly had a frustrating time

# Whitaker mounts a challenge for the Gazza factor

By JENNY MACARTHUR

MICHAEL Whitaker con-firmed his form for tomorrow's £90,000 Silk Cut jumping Derby after gaining his second win in as many days in the Silk Cut Derby trial at Hickstead yesterday.

The Yorkshire-born rider, who afterwards headed for Luxemburg, where he is competing today, won the class on Henderson Monsanta and was also third on Tees Hanauer, his winner on the opening day.

Having said on Thursday that Tees Hanauer was his best hope for the Derby -which he won in 1980 on Owen Gregory - he has changed his allegiance to Monsanta, a horse who finished equal second with his former rider, Gillian Greenwood, in 1988. Nick Skelton, who is seeking his fourth Derby win, singled out Monsanta yesterday as the horse he most fears.

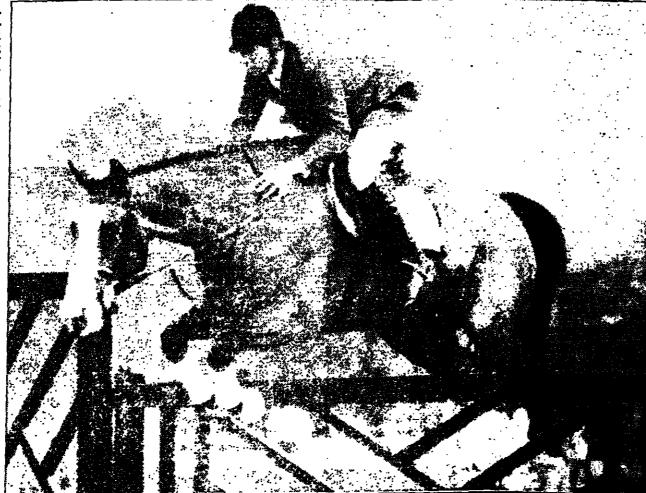

Robert Smith, who has been having a superb season on Brook Street Clover, took second place after a beautifully judged round in the fivehorse jump-off, but said he was unlikely to take the in-experienced eight-year-old

into the Derby.

He will rely instead on the older Silver Dust, who just missed qualifying for the jump-off yesterday after collecting four faults at the water, fence six. Smith, who disputed the four faults, claiming the horse had not touched the water, was nevertheless delighted with both horses.

Although the course yesterday contained only a handful of the regular Derby fences, clear rounds proved almost as elusive as in the Derby itself. Of 73 starters, only five went clear: Whitaker on his two horses. Smith, Herve Godignon on M & C Prince, and Skelton on Hopscotch, the horse he has borrowed from John Whitaker. Tina Cassan and Treffer would have made it six, but for a quarter of a time fault.

frontally, the favourite for tomorrow. Skelton's 16-yearold Alan Paul Apollo, the winner on the last two occasions, was not among the five. having incurred four faults at the water. Skelton, who finisned fifth on Hopscotch, said afterwards: "I was being a bit greedy - I had intended to pull up after fence five but as there were only three clear rounds at that stage I decided

## Dual gold medal horse dies

LAURIESTON, the outstanding event horse owned by Derek and Claud Allhusen, has died at his owners' home in Norfolk at the age of 26 (Jenny MacArthur

Launesion had a short but glorious career. In 1971, aged only seven and ridden by Michael Tucker, he won the Tidworth three-day event, and a team gold medal and an individual bronze the galloping course, finishing at the mini Olympics. In 1972, ridden by Richard

nearly a second inside his earlier time. Skelton, the last Meade. Laurieston finished secto go, hit fence eight and and at Badminton, and achieved his finest accolade with a double gold medal in the finished fifth - a rewarding Olympic three-day event in Munich. He remains Britain's only Olympic equestrian individual gold medal winner. At the age of nine, Laurieston pulled a tendon and was retired from international competition. Until recently, he was used as a schoolmaster for young threeday event riders.

## Lyon fashions surprising lead

By a Special Correspondent

THE British young riders team held a surprising lead over the seven visiting countries at the gold medal lost to West Germany last year and, indeed, have a formidable record of six team gold and five individual end of the dressage phase of the European young rider championships at Rotherfield gold medals won since 1981. The West German team is Park in Hampshire yesterday. making a strong challenge just 19 points away in second place, This was largely due to a good test by the 1988 double gold

medal winner. Polly Lyon, aged who led the competition on 43.6pts. Lyon was "thrilled" with her

horse, Folly's Last, who "tried his heart out to perform his best William Fox-Pitt, the individual bronze medal winner last year, lies fourth only a few

points away, while Lynne Bevan, aged 20, in only her first year of eventing, not to menuon her first team, hes eighth on 50.4 with Daniel Hughes on \$3. The British are making a determined effort to regain the

RESULTS: (effer dressage): Teams: Great Brissin, 141pm; 2. West Germa 160; 3, Soniet Henn, 1792; Individual FODy Stantiff Lyon, 659, 438; 2. Walds (M. Kruennel, WG), 44.8; 3. Dollarman Descreet, Bey, 46.8; 4. Smediest (W.Fo Pril, GS), 47.

## THOMPSON

The thing about Paul Gascoigne is that everyone thought that they were the only person that loved him, that apprecisted his specialness. Then they found out that everyone else loved him and appre-

ciated his specialness as well. At least, that is what happened to me: I admired him when England played Uruguay, felt a fondness for him creeping upon me when they played the Republic of Ireland, had a crush on him during the Netherlands match, worshipped him against Belgium, began working on an impersonation of him post-Cameroon and was all set to write a eulogy for him (in the style of Tennyson on the Duke of Wellington) after the West

Germany game.
It then dawned on me that he did not exert this fascination upon me alone. Not only that - it dawned on me that he had become the most famous person in England. That little idea of mine, that I had thought so clever, to go and report on the first League game at Tottenham - it was not going to be the journalistic scoop of the year. No, wherever I look now, I see Gazza's smiling face: bright, blind-bird eyes, pink piglet skin; mouth permanently ajar, teeth exposed in a curving arc,

tongue alert for protrusion. Here he is on the cover of a newspaper promising you a "reet treat" (the nature of which I was too embarrassed to try and ascertain); here he is beaming from the cover of the Radio Times, here is the exit of one guiffriend; here is the arrival of the new one. Every day brings with it a "new" analysis of his persona in the press (... the nation cried with him ... George Best ... must not bappen again ... pressures ... wafile ... still only 23 ...

is he as good as ...? ... waffle ... will be a marked man ... why special protec-tion? ... waffle ... Venables must keep him in check)

My footballing knowledge is far too small to be able to make a comparative study of his skills, to say whether he is better or worse than George Best or Bobby Charlton or Bryan Robson; he is simply extremely compelling. His abnormally straight back is compelling, the rhythmic way in which he stamps a ball into subLAURA

A season standing by

mission is compelling, his attempts at Geordie matiness with referees are compelling. I scent upon him a sublime confidence: the Laurence Olivier type of confidence, wherein technique is innate and time is yours to hold and play with

as you wish.

Also - as I expostulated a couple of weeks ago - Gascoigne is the fallible sportsman par excellence, the man who rides the emotional tide of the game and thus creates for his audience the illusion that they are out there playing it with him. He is going through what we are going through. I suspect that he is loved for his bad behaviour as much as for anything else; if a player is booked in a friendly, then he clearly treats every single match as a matter of life and death. Like the supporters, Gascoigne knows that football is a serious and passionate business provoking sometimes

ohn Barnes, on the other hand, does not do right by football. At the Charity Shield last week at Wembley, Barnes was booed every time he touched the ball; the ghastly thought came into my head that he was being vilified for the colour of his skin. Yet neither Paul Ince nor Danny Wallace was booed.

uncontrollable emotions.

Applying my analytical skills, I could only assume that Barnes was being belatedly punished for his lackadaisical performances in the World Cup. He is the opposite of Gascoigne: a tremendously skilled player who appears to be impervious to the emotional pull of a game, a man who does not give his all when playing for his country, a heretic who does not worship at the shrine of football. He breezes around, does extraordinary, seemingly effortless, little things with his feet, always looks handsome and a bit

Look at Kenny Daighish down by the pitch, his neververy-cheery face screwed into crass of misery and anxiety; even look at Les Scaley with his Roy of the Rovers stance, so

detached.

swear words at the camera, contemplating suicide or murder when Barnes got his

penalty. Dalglish and Scaley both know that footbell must be taken seriously. But I am glad that the season is starting up again. Football is on a post-World Cup high, which of course should be a good thing in

terms of quality of play, I do find it odd to be contemplating football on a day when England are playing India at the Oval, because, without being aware of it, I find I do divide the year into summer and

y ummer - cricket, tennis, panama hats, Henry Blofeld, languid radio commentaries, the sound of hard balls being hit

into hazy skies. Winter - football, rugby watching the crucial half-bour of Grandstand (4.30-5pm) with the sky pitch black outside, Nigel Starmer-Smith gritting away in a sheepskin coat with his hair being tousled by a force ten gale.

But I relish the return of those hardy perennial lists of football results, announced on the radio by that man with the perfect vocal inflections: from the way in which be colours the home team score, I can accurately predict that of the away side. If he allows himself to use his. upper register as he says "Aston Villa one ..." then yon know only too well that it is going to be "Luton, nil" — spoken with a finely modulated dying fall.

I used also to love that dirty old teleprinter they had on Grandstand which typed the football results as you watched. It would jig up and down, relatively quiet and quiescent, waiting for scorelines at the extreme left edge of the television screen; then suddenly it would be inendated with information and would etch its grimy, poisy way across, leaving behind it all that vital knowloget Queen of the South 6. nition Academical 8. If you did the pools, the tele-printer really did exercise considerable sadistic power

(6.20pm) (BBC2 1.35-8.05pm; Eurosport 9.00am-1.00pm; and 3.00pm-5.00pm). WEDNESDAY: Scotsman Tom McKean is confident of the 800 metres gold medal today (Eurosport 3.00-6.00pm, BBC2 4.00-8.30pm), but if you need a higher altitude, watch the second part of Joe Tasker (BBC1 3.40pm), the mountainser who died "pushing against the limits on human endurance on Everest" THURSDAY: Football is back and Life on One goes to a first division

expects gold around 6.00pm in the 110 metres hurdles (Eurosport 9.00am, 3.00-5.30pm and 7.00-8.06pm; BBCZ 4.00-8.15pm),

The most humiliating get-away, because it was captured on film and screened in an early series, was a pike. It was both filmed and screened with some considerable relish: the prowanting a deeply hooked pike. I struck instantly and enjoyed a powerful scrap." The cameras missed all of that; they were ready in time for the landing ....

it slipped out. It did a reverse twist, backwards and jack-knifed over my shoulder. It his my rod and broke it." For once, Wilson was not a happy man but with immense self-control. merely told viewers: "Well, that

was five years of age, had his first carp at 12 and his real "prize" was an ourstanding 921h mahseer caught last year "somewhere in India".

He loves the light and he talks about primitive minds and our aggressiveness. "Some take it out on soccer, some boxing and some fish. Mine comes out when I fish."

But watch John Wilson closely in his new series and you will note that his is a very gentle aggression. Every fish is put back with immense care, and you will see that the other element of going fishing - which he readily admits - is the beauty of the countryside. He does not just sit on a river bank or in a boat. "Fishing is not only about catching fish." he says, and proves his argument as he walks along the banks and countries. along the banks and sometimes through the waters, noting the birds and the wild flowers and smelling the roses", as he puls it. A happy man he may be; a lucky man he most certainly is.

# Time to

SIMON BARNES

MY ENDURING memory of a overy pleasing day's cricket at the Oval yesterday is of a lithe-limbed, elegant, muscly-forearmed figure with a blue helmet, black moustache and glittering black eyes, hammering the ball for four. Was it Shastri or Kapil

Ah, but this one was easy. Kapil was wearing a long-sleeved shirt with the sleeves rolled down. Shastri was wearing a short-sleeved shirt. Com-pared to distinguishing Haynes and Greenidge, of the West Indies, this one was a doddle,

Those two are practically indistinguishable. Both wear maroon belimets, similar shirts, and both have white blinkers on the helmets. Haynes is a bit more musely. Got it?

India and New Zealand have apply the property of th tomorrow's vital Refuge Assurance League match. What are their chances? Very

india and New Zealand have played only three Tests apeice this summer, and we are still learning what their players look like. And, after missing half the season at the World Cup and on holiday. I cannot recognise every one of England's fielders at first slages eithers. first glance, either.

This detracts a little from the

enjoyment of the day. If you cannot tell at a glance which batsman is on strike, you lose touch with the rhythm of the day. If you haven't picked up a bowling change, you miss something.

Not every spectator is a full-time cricket person. Not every time cricket person. Not every one is watching television, and is guided by the commentator and the close-ups. Not everyone brings binoculars to see if that really is Morris at silly point, or Smith without his baseball cap. The real problem, though, is the anonymity of helmeted batsmen. The game changes: helmets are ubiquitous. There are many other changes: even now.

many other changes: even now, various companies are making financial offers to the Test and County Cricket Board because the left bosom of every English cricketer has been put up for

For a fee, you can write the name of your product on the hearts and sleeves of the Eng-land team. But the idea of having a player's name on his

INDIA First Innings

shirt, or even a number – this is supposed to be unthinkable. Not part of the traditional game, they say. Well, yes-terday's traditional game was the third Cornhill Test, played at the Foster's Oval, in front of packed and brand new executive hospitality stands. And if all that commercialism isn't quite enough for you, there are two dirty great Cornhill logos painted on the grass.

I fail to see the logic of the

refusal to consider named and numbered shirts. When the England team shirts are on sale to the highest bidder, what is the problem with writing something on it that is actually useful to

spectators?

Perhaps it is all part of the

secret notion held in many cricket hearts that cricket is a private matter, and the public can go hang. There is plenty of public relations in cricket, but very little thought of relating to

For there is no sport in which the competitors are so anonymous. Even in polo, you wear a number. If Prince Charles can wear a number on his back. I don't see why Graham Gooch can't. Three-day eventers wear numbers. Triathletes have numbers inked onto their skin. Jockeys wear wild silks. Why cannot helmeted batsmen wear a differentiating silk, like pacemaker and favourite in a big

race?
Traditionally, cricket allowed

ualism. Douglas Jardine's Harlequin cap is one example: one might also cite Percy Chapman's Quidnunc cap. Freddie Brown's kerchief. Wally Hammond's always visible hankie, or Ranu's long silken sleeves.

would be fun to see such traditions revived, perhaps, But days, or risk injury and death, it is this modern move that has created the anonymity: another modern move should be taken to end it.

• Don Wilson is to leave his position as the MCC's head coach, which he has occupied for the last 14 years, in December to take up a post at Ampleforth College.

they loosened their grip. Yes-terday they achieved a similar feat, throwing to the wind the three wickets from 14 balls. But. dominant position established by Moles and Ratcliffe and declining, largely through in-decisive batting, from 101 with nine wickets in hand, to 222 all

one by one. Warwickshire's early batsmen lost concentration and excellent catching by Rhodes and D'Oliveira ensured

Warwickshire appeared to

have overcome the indignity of watching Dilley and McEwan extend their last-wicket partner-

ship to 48 during the first hour.
Dilley had batted responsibly for more than two hours and his bowling kept Moles and Ratcliffe on their toes.
When Newport switched ends

first breakthrough came. Ratcliffe playing a loose shot to cover at lunch. Thereafter. Moles reached a hard-earned 50. but neither he nor Lloyd will remember with relish the shots from which they were caught

#### **Bowler Wells** is the latest of a rare breed

WICKETKEEPERS who can bowl effectively are, not surprisingly, a very rare breed, although Alan Smith, the TCCB chief executive and former England wicketkeeper, who deliv-ered vast inswingers, once did the hat-trick for Warwickshire

against Essex.

But the Leicestershire batsmen would have had no real cause for concern when Vincent Wells, who normally keeps wicket for Kent's second team and had taken only one championship wicket, was called on to bowl at Grace Road yesterday. Wells, who operates at medium pace, had a surprise in store for them. He broke the opening stand of 133 between Boon and Briers in a spell of three wickets in 18 balls without conceding a run and finished with five for 43 in 18 overs as Leicestershire were dismissed for 304, a lead of

Alleyne, of Gloncestershire, and Tavare, the Somerset captain, both joined the swollen ranks of the season's doublecentury makers. Alleyne, at 22 the youngest player to reach 200 for the county, scored 256, the best for Gloucestershire since 1939, as they piled up 521 against Northamptonshire. whose spirited response has taken them to 169 for two. Tavare was in for almost the whole of the day at Hove when

Somerser, having lost five wickets passing Susses's modes: 153, closed at 525 for nine. Tavare batted through 147 overs for his 219 and his ninthwicker partnership of 183 with Mallender equalled the county Ward, of Surrey, needs only

#### by an outswinger. Robinson gave Hughes his third success as Derbyshire need rare Essex win

THE finale to the Refuge Assurance League tomorrow will be compelling (Ivo Tennant writes). One of three counties. Derbyshire, Lancashire or Middlesex, can win it and £24,000 in

Should Derbyshire beat Essex at Derby, which they have not made a habit of doing in this competition, they will win the league. Lancashire, who are two points behind them, must beat Warwickshire at Old Trafford. Should they both lose, and Middlesex defeat Yorkshire at Scarborough. Middlesex can win through a superior run-rate. All three counties will be affected by Test calls. Derbyshire will be without Malcoim and Morris, Lancashire will be without Atherton, and Middlesex will have neither Fraser nor Williams, and Gatting has been ruled out by a hamstring injury.

If Derbyshire do win the league, it will be for the first time. Their record against Essex

is not propitious: 15 defeats and just four victories. Last year. Essex won by one run.

Also to be decided is fourth place in the table, which will lead to qualification for the Refuge Assurance Cup play-offs. Hampshire, who play Surrey tomorrow, contest the position

with Nottinghamshire. Blackpool win Cockspur Cup

. ~

BLACKPOOL won the national club championship final at Lord's yesterday, beating Cheam, from Surrey, by three wickets. Their prize was the Cockspur Cup and £1,250. Hesketh scored an unbeaten 86 for Blackpool, who had been icft 194 to win. Falconer, the Cheam captain, made 53 off 39

## Forsbrand turns to the Faldo formula to take halfway lead

From Patricia Davies IN HUBBELRATH WEST GERMANY

DAVID Leadbetter warned Anders Forsbrand that it would take him at least six months to start playing decently once he began rebuild-ing his swing. That was in December. Now, in August. more or less on schedule, the Swede is proving himself a model pupil and yesterday led make way for Fanny the Volvo German Open at Sunesson, who, curiously, Hubbelrath after two rounds.

Forsbrand, who is not only using Nick Faldo's coach but been a great help so far, also his former caddy. Andy according to his new boss. Prodger, shot a 66, for a total of 130, 14 under par, to make golf swing and the technique his eighth cut of the season. David teaches, and he is very and his fifth in a row, in some calm." Forsbrand said. "He style. He was one stroke ahead takes his time. He doesn't of Craig Parry, the defending speed up and that's something champion, who had a 65.

missing the cuts." Forsbrand the situation so many times." said. "I was concentrating on doing what I should be doing with the swing and, in fact, I didn't think I played as bad as it looked on the card."

Prodger, held in great respect by his peers, was ban-ished from Faldo's side to one of 64 on Thursday. How-

## Olazábal's 61 tough by design

From a Correspondent IN AKRON, OHIO

THE course record of 61, nine under par. set by Jose-Maria Olazabal in the World Series at the Firestone Country Club on Thursday will go down in history as a remarkable round. To shoot of on one of the toughest designs of course on the American Tour, as Olazabat did in the first round, is quite an Larry Myers said: "I think

you'll remember a 61 here more than you'll remember it at some

Clazabal missed just one fairway and one green, recorded one eagle, eight birdies eight pars and one begey, on the pari cource.

But for birdie patts missed at the 15th and 17th, he would have matched the world record 59 of the American, 41 Geyberger. "I was not thinking of records," Olazabal said, "There-

was no run on the fairway but

I'm pretty good with my irons

and I put the ball close even with my longer clubs." LEADING FIRST-ROUND SCORES US unless stated 61: J-W Grazata (Sc. 65: P Sewert 69: M Marwood (A.S. 70: 5 After (SA: C Stater 71: C Sect. W O Means 72: 6 Fersier 73: 1 Act. (Jacan) 74: Suites Dillore

## Family triumph for the Maiseys

SIMON Maisey, recently arded four A levels, added a further laurel to his record vesterday when he partnered his mother, Margaret, to victory in the Burhill Family Foursomes. They beat Tony Mote and his

daughter. Emma, of West Sus-sex. 3 and 2. The Maiseys, of Ellesborough, were conceding four strokes, a handicap they immediately put behind them with a whirlwind start of four successive fours to win them all. Mote, playing off four, has

done wonders this week to guide his daughter, who plays off 28, to the final. He is a magnificent striker, particularly of fairway woods, but the burden was just beyond him. He could not atone completely for his daughter's Margaret Maisey, also off

four played some brilliant strokes, but her son also rose nobiy to the occasion. The Maiseys were never less than three up after the third, the last time unexpectedly at the 550-yard 14th, where Emma Mote uncarthed an exquisite chip and run to five feet, with the Maiseys marooned in a greenside A sumptuous five-iron by Simon Maises deserved to end

this week," an ecstatic Thomas,

up. Houribane, and the British

matchplay champion. Julie Hall, for Feliastowe Ferry.

nacle of my career".

the match at the 15th, but Emma Mote profited from a free drop from a pile of logs and Simon Maisey yielded a half by sadly missing from two feet.

He put that lapse behind him, however, at the 16th (152 yards) with a seven-iron to 25 feet and his mother rolled the ball up dead. Unfortunately for the Motes, it was the inexperienced daughter who had to hole from 35 feet to keep the match alive and, not surprisingly, it was quite beyond her.

to take her seriously." Cauthen, too, was impressed, I think the filly will continue to improve and she will stay next ear. I like her.' post here with only one previous Thomas safely home to title

There was no apparent excuse for Shimmering Sea, who weak-ened quickly in the closing stages, but her jockey Pat Eddery ended a losing sequence of 21 rides when bringing Land Afar from a long way back to take the Ballantines Claiming

month.

## Hills forced to vacate Manton by end of year

Jaffa Line (Stere Cauthen, neurside) mastering Ausherra (Richard Quinn) in Goodwood's Teacher's Whitely Stakes

BARRY Hills is to leave Manton, Robert Sangster's season," he said yesterday. "I'm 2,350-acre modern training very grateful to my father, who complex outside Marlborough, at the end of December and has operating in 1991.

In a prepared statement is-sued yesterday, the 53-year-old trainer, who landed a spectacular bening coup when Further Flight won the Tote Ebor Handicap at York on Wednesday, said: "After exhaustive and the benedican lengthy discussions, I had hoped that Mr Sangster would extend my lease for a period of one year in order to enable both parties to effect further in the light of the resent economic climate.

But this is unfortunately not to be and I have no alternative but to vacate Manton by the end of the year. My 95 employees have been told of the position this morning and, like myself, are bitterly disappointed that, after four years and 358 winners, including 32 group wins at Manton, a happy and successful

team will have to be broken up." Later, Hills said: "There's really nothing further to add. It's just been too difficult to get so much money together at the present time. We'll just have to pick up the pieces and go on as best we can."

On the question of whether he will return to his own stables at South Bank, Lambourn, where ear. I like her." he started operations in 1969
However, Ausherra went to and which has been leased to his son John for the past four years. race under her belt and that lack Hills said: "My options are still open. It is my intention, howsame level as at present."

If Hills eventually decides to return to South Bank, his son lohn, who is currently enjoying his most successful season, will be forced to seek new quarters. "It would seem more than likely that I will be forced to vacate season," he said yesterday. "I'm very grateful to my father, who by allowing me the use of South Bank has given me a chance to set myself up as a trainer.

"I feel fortunate to have a band of loyal owners, who I hope will stick behind me during the transition." Manton was put on the market 11 months ago with an asking price of £14 million as Sangster was finding the over-

heads of running the estate increasingly burdensome in the current economic climate. Hills has since been attempting to put together a syndicate of trainers to build accommodation for five yards and 650 horses. Planning permission was sought from Kenner District Council.

The trainer's first offer was believed to have been £8 million, but it was later raised to £12 million. However, Hills's request that any offer was ubject to building permission being granted proved unaccept-able to Sangster.

Sangster, five times leading owner in Britain in the late seventies and early eighties, together with his partners, Vincent O'Brien and John Magnier, revolutionised European racing with their policy of skimming off the cream of the North American yearing crop and exploiting their purchases on the racecourse and then establishing them as stallions.

ever, to continue training at the rich Arabs started to threaten Sangster's supremacy, the mil-

saddled only four winners in his first sesson. Sangster therefore decided to summon his old friend Barry Hills to his sid.

This has been the most rewarding period of Hills' career. He saddled 100 winners for the first time in his first season, He won the Irish Derby in 1987 with Sir Harry Lewis. Currently, if win and place money are taken into acc he is in second place to Heavy Cecil in the trainers' table, having saddled 72 winners and earned a total of £940,559.

It has been suggested that Peter Chapel-Hyme, married to Sangster's stepdaughter, Iane Peacock, and at present an assistant at Manton, is to be appointed the caretaker-trainer with about 25 hourse if the actual with about 25 horses if the estate remains unsold. However, Sangster was not available for

Giving the latest state of play James Laing of Strust and Parker, the agents said: "In the interests of all parties we age anxious to dispel the endless conjecture about this sale. The two parties who have options on the property was two been made to take them up. Therefore the property will be available with vacant possession from Decem-

"I played some of my best golf his week." an ecstatic Thomas, tho has played in the Curtis up four times, said. She lescribed the title as the "pinacle of my career".

The former Welsh champion, here times first reserve for this in at the world amateur hampionships, was duly revarded with selection for this Cup four times, said. She described the title as the "pinthree times first reserve for Britain at the world amateur championships, was duly re-warded with selection for this year's event. Also named to make the trip to New Zealand this October were the runner-

Hereford banned Hereford, the North Midlands Cup holders, have been suspended from playing matches in the first fortnight of the rugby union season after having seven players, including six from the first team, sent off last winter. Two university players. Catnona Lambert. of Stirling, and Helen Wadsworth. from Salford, were named as reserves.

BASEBALL Kruk finds the remedy for a missed meal

By ROBERT KIRLEY YOGI Berra, a leading player and cock-eyed sage with the New York Yankees in the 1950s, once observed that a game "isn't over till it's over."
This is the sort of thing he meant: on Tuesday in Los Angeles, the Dodgers took an II-I advantage over Philadelphia by scoring eight runs in the fifth inning. By the ninth inning. the Dodgers were leading 11-3. Game over? Not quite. Philadelphia, in their last turn at bat, sent 13 men to the plate against three pitchers and scored nine

runs to win 12-11, John Kruk, of the Phillies, said that as the ninth inning started: "I thought we were dead. My thought was to get back to the hotel by 12pm so I could get room service. Kruk missed his midnight meal but figured prominently in the rally. getting a pinch-hit, three-run home run that levelled the scores. Carmelo Martinez drove

in the game-winning run.
Terry Mutholland, of Phila-delphia, pitched the eighth nohitter of the season in a 6-0 home victory over San Fran-cisco. His no-hitter broke the record of seven, set in 1908 and equalled in 1917. Bob Tewks-bury, of St Louis, pitched a perfect game for seven innings before settling for a one-hitter in 2 5-0 win over Houston. Doug Drabek leads the National League with 16 victories, but the right-hander is anything but a one-man show for Pittsburgh. With one quarter of the

season remaining, 19 pitchers, a

league record, have won games

Ken Grifley, aged 40, the last active member of Cincinnati's

"Big Red Machine" of the 1970s, has retired. His son, Ken

ir. of Seattle, was an American

League all-star this season.

# Mirror Black to take centre stage

MIRROR Black, who does not know how to run a bad race, looks well treated in the Beefeater Gin Celebration Mile at Goodwood today, and is fancied to gain his second pattern success of the season.

His first came in a group three race at Baden-Baden in May, but the consistent Alzao coit showed he was capable of holding his own in better class when a neck second to Markofdistinction in the Queen Anne Stakes at Royal Ascot the following month.

Peter Makin's colt finished lame that day but has been given plenty of time to make a full recovery and his shrewd trainer would not contemplate running him in this exalted company were he not back to

RUSSELL Price, the Newmarket-based appren-

tice, was banned for 15 days (August 25 to September 8) by the Jockey Club's disciplinary committee yesterday for his third whip offence of the season. The committee decided that Price was guilty of excessive use of the whip on Abrail's Dream in the J Saville Gordon Claiming Stakes at Wolverhampton on August 18.

At a separate hearing, Charles Cyzer, the Horsham trainer lost his appeal against the

decision of the Kempton stewards not to promote his filly, Molly Splash, to first place in the Beckford Handicap on August 8.

For owners of Swans the racing is not quite enough. They tend to be people who like a hectic social life and are happy to sail across an ocean to have one

Happiness is: the crew of Kwa Ngema. Yacht racing is the finest "people sport", demanding skill and sheer brawn, says the owner, Crispian Hotson (fourth from right). He has not touched his golf clubs for eight months

Cervo in July, Guernsey in August . . . then it must be Nantucket Island in September for the owners of Swan yachts. Their social horizons have been widened to encompass most cruising ambitions by Nautor, the Finnish builders of this aristocratic line of cruiser-racers, which includes partying in its after sales service

larry Pickthall writes). The exclusive Sardinian resort nay be the Costa Lotta of the Mediterranean, where service is dependent on the waiter recalling the size of your last tip: likewise Nantucket an ocean away, but like St Peter Port, these venues have become favourites among Swan owners for their world, European

and Atlantic championships. Racing is only part of the attraction. Such is the bonhomie generated among crews that onthe-water skirmishes are invariably settled in the bar afterwards, or over a round of golf, rather than before a protest committee. And if the wind, or lack of it, looks as if it might impinge on the social programme, then the day's sport is

invariably shortened. Nautor, which built on early successes in the Whitoread Round the World Race and Admiral's Cup to become the BMW of the yachting world, was one of the first builders to appreciate the benefits of an annual programme of events for owners and crews. Its regattas regularly attract 60-plus entries and for many they are as good a reason as any for buying these boats in the first place.

Nautor yachts, which range in

Frers, are craft most yachtsmen espire to Teak decks, exquisite joinery below, proven performance - and price - put them a cut above rival production lines and the pocket of most first time

One exception is Crispian Hotson, a sport-thirsty South African who heads Ryan International, a British coal mining conglomerate second only in size to the National Coal Board. Earlier this year, he took delivery of one of the latest Swan 44 yachts and has been winning races like a veteran ever since. A man with an equal passion for golf and rugby, he had not sailed competitively since racing a Flying Dutchman Olympic dinghy with his father in Cape Town, but has been bitten so badly by the sailing bug, and Swan sailing in particular, that he has

"This is the finest people sport I have ever indulged in," he says with the cothusiasm of the newly converted. "There is such a multiplicity of disciplines - naviga-tion, sail choice and trimming. forecasting and tactics, as well as the brawn required to pull up sails and winch them in.

not touched his golf clubs for eight

"Just as in business, there is a direct link between responsibility

Setting the pace for the party size from 36ft to an elegant 86 footer, both designed by German and accountability. If a manoeuvre goes well, it reflects on everyone. If it goes badly everyone knows who was to blame." Despite the luxurious interior, Mr

Hotson did not buy his Swan for "My wife is heavily into horses.

Racing hard: on Eclipse

She has only been on the boat once and that was to have a glass of champagne at the launch," he says. Mr Hotson's sole interest is in racing, leaving others to deliver the boat from one regatta to

Not averse to importing talent,

**SWAN 391 ECLIPSE** 

Owner: Mike Leadbetter

Springbok players to strengthen Ebbw Vale, the Welsh rugby side his company sponsored last season, has gathered a top crew that includes the former Olympic aspirant Nigel Barrow, and his

Gold Roman Bowl, the top trophy in the Round the Island race, and

the Bembridge Ledge trophy. Mr Hotson's crew described their loth place during the recent world championship as "below par". Undeterred, Mr Hotson's 44ft is set to compete in the classic La Nioulargue regatta at St Tropez in October before being shipped south to Cape Town in December for Rothmans Week, the top South African series. Unlike Mr Hotson, Mike Leadbetter, the Swan European champion, is at heart a cruising man who discovered racing only

after buying his first Swan. He is taking a year's sabbatical from his Motown family forklift business. based in the Midlands, to make up for lost time. Nicknamed "the Birham Admiral" by his rivals, Mr Leadbetter and his family graduated through a succession of cruisers before buying a Swan 371, then the smallest in the range. "Suddenly we found we could sail 120-130 miles in 24 hours

instead of struggling to better 100. It was only a question of time before our competitive instincts took over. he says.

"When I bought the boat, I couldn't believe why anyone would want 11 winches onboard. We were very naive. We turned up at our first regatta in Cork without a measurement certificate and no class pennant, but the committee let us sail anyway and we had a lot of laughs." Two years later, he traded up to his present Swan 391 Eclipse, a design which has just ceased production, and has not looked back. For this, Mr Leadbetter thanks Owen Parker, Edward Heath's former sailing master, who has been helping call

the shots throughout. "I don't believe in taking on hired assassins. My crew are the same people I used to cruise with, but thanks to Owen, our learning curve has been like a climb up the north face of the Eiger. He has taught us something new each time we go out and now I would be happy to pit my crew against any of the hot-shots."

From aspiring to own a Swan, Mr Leadbetter's next goal was to win a gold Rolex, but thanks to Mr Parker's training and tactical calls, he finished with two at last year's European championship in Guernsev after winning both the Rolex race and the principal crown. After sailing to Sardinia from their base at Dartmouth, the Eclipse crew finished a worthy

sixth in the world championship. Mr Leadbetter plans to join Yachting World's race for cruisers across the Atlantic to the West Indies this winter before rounding off his sabbatical by competing in Antigua Week early next year. Will that have satisfied his sailing ambitions? "Oh no. I'm working towards buying a Swan 46. That's a classic yacht, and I would like it in time to defend the European championship next year," he says.

## Rescue mission saves a Bluebird in distress

One of Sir Malcolm Campbell's less speedy craft, his motor yacht,

has been brought back from France and restored to its former glory

or most Britons aged 30 or more the name Bluebird strikes a particular chord. Images come drifting back of the and a prosperous dealer in doomed Sir Malcolm Campbell tearing across a lake or a no suitable answer. It was the salt pan in whatever projectile he was using that year to try to break a speed record. All of them were called Bluebird.

However, there was another craft of the same name owned elegant and answering to a different need in his troubled soul, Campbell's motor yacht lives on, restored by Martin Summers, a London art dealer. "It was a Sunday afternoon in late November 1984 when it all started," Mr Summers recalls. "My four-year-old daughter, Tara, and I were strolling along Chelsea Embankment with some friends, admiring the boats moored at Cadogan Pier by Albert Bridge. The lights on the bridge had just come on, there was a spectacular sunset and I was thinking how beautiful it all was with the boats bobbing around on their

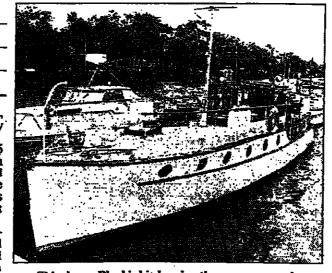

spontaneity of a four-year-old, Tara asked: 'Daddy, why don't we have a boat?

Mr Summers, then aged 46 Impressionist paintings, had beginning of a chain that was to lead him to a near-derelict Bluebird and her restoration. Campbell had commis-

sioned the Thorneycroft yard of Hampton Wick to build by Campbell. Slower, more Bluebird II to his own specifications in 1932. Two years later he dreamt that a discarded eigarette caused her-100hp twin petrol engines to explode and put the 51ft launch up for sale.

It was exactly 50 years from that parting when Mr Summers saw Bluebird advertised for sale. With his friend Scott Beadle, a designer and boat buff, the new would-be-owner travelled to the Gran du Rois in the Camargue to see the discarded mistress. Mr Summers describes the first visit in the book he has written about the history and restoration of the Bluebird.

He was bitter disappointed moorings as if trying to keep at Bluebird's "decrepit and warm. Suddenly, with the sad" condition, "Rotting fab-

Shinshape: Bluebird is braving the open seas again

'She is recognised as something special by people who know nothing of her history

Robinson wiring abounded." The story that follows will be familiar to any lover of old boats: a rational refusal to contemplate purchase, then a glass or two of something romance-inducing once aboard and the glimpse of an

original mahogany locker. Mr Summers paid somewhat less than £15,000 for the boat but, as she limped back through the French waterways on one spluttering diesel, even

ric and Formica with Heath British home for more than a year of renovation was to be the Poole yard of Bernard Hiscock and Graham Titterington, H&T Marine.

The hull was sound, but once it was stripped out, a complex array of shores, beams and stretchers was necessary to help the old lady keep her shape. Plans of Bluebird had been published in The Motorboat at the time of her launch and working from these, plus early photothat seemed excessive. Her graphs of her taken from

Albert Bridge, the shipwrights there, she is recognised as were able to construct a new wheelhouse with additional windows aft and a large, sliding sunroof.

New teak decks were laid ed, on the after deck where the dinghy once sat on chocks, wooden lockers were built to act as seating for an al fresco dining area. The Perkins diesels which had replaced the petrol engines of Campbell's nightmare were stripped and overhauled and powerful new generators installed, for Summers has a passion for

## BRIEFING

## Working on the water holiday

FANCY a working holiday? The Inland Waterways Association (IWA), which campaigns for the retention and development of Britain's canal and river system, relies on volunteers for much of its restoration work and organises low-

cost summer camps for people aged between 16 and 60.
With the support of the Countryside Commission, 18 camps have been organised this year to help clear locks and disused canals at places including Falkirk, Herefordshire, Lincolnshire, Shropshire, Somerset and Sussex. Each camp is limited to about 20 workers, together with leaders and cook. Accommodation is basic, invariably a village hall.

However, John Baylis, vice-chairman of the Waterways Recovery Group, which organises the camps, says: "With plenty of fresh air, hard work and good food, even a wooden floor can be comfortable.

Details from: John Baylis, Waterways Recovery Group, 25
 Bedford Avenue, Mansfield, Nottinghamshire NG18 3AD (0602

## Blitz creek

THE Inland Waterways Association is also organising a blitz to clear the country's waterways and towpaths of litter over the weekend of October 20-21. Its 32 branches, numerous canal societies, boat clubs and other canal-orientated associations will mastermind clear-ups in their areas.

chairman, says: "We want to make a big impact. October is the ideal time to carry out this task because it allows us to clear an entire summer's debris."

 Details from Neil Edwards, Inland Waterways Association, 114 Regent's Park Road, London NW I 8UQ (621 586 2510).

## Free advice

FOR people interested in buying a boat, finding a mooning or taking a holiday afloat, the British Marine Industries Federation operates a free boating advice service. Boatline is on 0932 845890.

Chief of

Laura

## **Power** shares to be paired

By GRAHAM SEARJEANT FINANCIAL EDITOR

SHARES in PowerGen will be be paired with those of National Power, the bigger of the two specialist electricity generating groups, in a single £3 billion-plus sale, if their flotation goes according to sched-

ule in February.

On present plans, revived after the abandonment of a trade sale for PowerGen, institutions and overseas investors will be offered a security that initially combines shares in the two companies, though each will immediately have its own separate quotation.

The government's advisers are also likely to recommend that the two companies be sold as a pair to private investors - for the first time.

In the water sell-off, the public chose individual shares while institutions were offered a package. This pattern is likely to be repeated in the sale of the 12 electricity distribution companies, set for November, but the generators are not local

supply companies.
Negotiations are still continuing between the govern-ment and National Power over its capital structure. The government is pressing for an equivalent settlement to that agreed with PowerGen. The two companies are expected to be sold with similar dividend cover and on a similar, if not identical, share rating. Comment, page 33

#### **Boost for THF** budget move

Trusthouse Forte. Britain's biggest hotelier and caterer, is gearing up its drive into the budget hotels sector through a deal with Bass, Britain's biggest brewer, which owns the Holiday Ing chain.

THF will thereby also add to its roadside restaurants under the banners of Little Chef and Happy Eater. The deal, involving 17 Kelly's Kitchen restaurant outlets, is believed to be worth about £10 million because THF will be gaining a "stanificant" number of sites that can be used to expand its Travelodge chain of budget hotels.

Some Kelly's Kitchen outlets have sufficient space to take a Travelodge and there are several greenfield sites acquired by Bass for expansion of a chair of Highway

## Swedish group boosts TDG stake in raid

By Stephen Leather

PROVENTUS, the Swedish group, mounted a dawn raid on Transport Development Group, the road haulage and storage company, yesterday and snapped up a 7 per cent stake.
Proventus paid about 196p for the shares, which were trading at 245p at the start of the year and were at

293p a year ago.
It now has a 9.9 per cent holding in TDG, which last month announced pre-tax profits down from £19.8 million to £17.8 million for the six months to end-June. TDG

THE International En-

ergy Agency, which has

## BUSINESS ROUNDUP Invesco slips 8.5% on strength of sterling

INVESCO MIM, the former Britannia Arrow fund management group, suffered an 8.5 per cent drop in profits to £15.1 million in the first half of the year because of the strength of the pound against the dollar. The interim dividend is being held at 2.3p. The company said the dollar's weakness had cut pre-tax profits by £1.2 million despite an underlying rise in earnings at its American subsidiary,

The company also blamed heavy spending on marketing for the fall in profits. In Britain, a concerted advertising campaign has made MIM Britannia the market leader in Personal Equity Plan sales. In America, Invesco is carrying the cost of branch openings. Funds under management grew by 9 per cent to £24 billion. In dollar terms, the rise was 24 per cent. Invesco also made a £1.09 million profit on disposals from its £44 million investment portfolio.

## Losses soar at Adidas

LOSSES at Adidas, the West German sports goods comcany, have increased from DM9.3 million to DM112.1 million. The scale of the losses, due to rising costs, was expected. Turnover last year was DM1.01 billion (DM921.6 million). Bernard Tapie, the French businessman, has taken over Adidas with the aim of improving the financial position.

## Paper offer in Australia

ROBERT Holmes à Court, the Australian businessman. has offered to buy the Daily News, the Perth afternoon newspaper, for Aus\$250,000 (£107,300). The bid is for the masthead only and includes an offer of jobs for the majority of the paper's staff. But it excludes the estimated Aus\$14 million debt in the books of Community Newspapers, the parent company.

## Bimec seeks full listing BIMEC Industries, the pollution control, air conditioning

and aerospace group, is to move to the main market on August 30 after seven years on the USM. Bimec is one of the few firms to have started as a greenfield venture in the early years of the market and survived, although only a rescue refinancing and new management saved it from disaster in 1987. Bimec made pre-tax profits of £2.77 million last year. Sam Smith, chairman, said the company had planned to

make the move after the end of this financial year to end-March. But it had decided to bring it forward after the USM reforms announced last year.

## Handley falls to £755,000

HANDLEY-Walker Group, the USM-quoted management consultancy company, has announced a 20 per cent decline in interim pre-tax profits to £755,000 for the six months to end-lune, Turnover was £6.3 million, a 21 per cent improvement on the previous year. Earnings per share were 7.4p (9.5p). The interim dividend is unchanged at 3p.

#### Cargo rises to £454,000 A £1 million container order

from Kuwait Air that had not been delivered by the time of the traci invasion cast a shadow over the near 800 per cent rise in pre-tax profits from Cargo Control. the cargo equipment maker. Profits for the half year to end-June were £454,000 (£51.000). Turnover was £4.96 million (£568,6(2)) and the dividend 0.5p (ml).

## Loss at Dawsongroup

DAWSONGROUP, the truck rental company which came to market in 1988, has reported its first loss as a public company. During the first six months of the year, it made a pre-tax loss of £483,000 against a restated £1.7 million profit for the comparable period last year and £3 million in 1988. Turnover was almost unchanged at £24.3 million.

Peter Dawson, the chairman, said the company is facing "the worst ever downturn in the short-term truck rental market." Almost all Dawsongroup's main clients have required fewer vehicles during period, resulting in lower fleet utilisation. There is no interim dividend.

## Dan-Air hits turbulence amid bid talks head office to Gatwick to cut review of its operations with to have questioned the sirline

By NEIL BENNETT

DAVIES & Newman, the owner of Dan-Air, Britain's second biggest charter airline, was forced to reassure customers yesterday that its operations were continuing as normal during bid talks.

Davies' share price plunged from 325p to a low of 170p after a Daily Telegraph report yesterday that the airline was in "crisis talks" with the Civil Aviation Authority. This followed an earlier report in The Times that Dan-Air, which operates Si aircraft, was talking to the CAA and moving its Dan-Air was "undertaking a were routine. The CAA is said

Dan-Air recently announced it was selling at least The statement also said that said its talks with Dan-Air five planes to cope with the Since the invasion of Kuwait, share prices have fallen about 10 per cent in London, taking prices down from the top to the bottom of an FT-SE index range of 2,400 to 2,100 for the third time in 12 months. In New third time in 12 months. In New York, where there was previously more of an uptrend, prices have fallen half as much again. In Tokyo, the rising oil price has accelerated a downtrend since the hasing of the price has the beginning of the year, dou-bling losses to more than 35 per

The downward momentum looks strong before any fighting between Iraq and the West. But economists seem remarkably agreed that the oil price shock, would not of itself prove disastrous for world economic growth or even inflation, unless prices rise much further. If the momentum is mostly caused by fear, then brave investors might

start to finger their chequebooks. The surest rule of reading trends is that it is much easier to spot the top of a bull market surge than the bottom of a bear market slump. Investors and fund managers who brilliantly liquidate their positions, just

## How to beat the market slump

before prices turn down, rarely perform well over the medium term because they fail to reinvest when prices turn up.

The virtue of "averaging", by investing steadily regardless of short-term market trends, may be dismissed as a cynical marketing ploy. But there is sense in it for big institutions as well as private savers, especially while prices are

Many City fund managers have, like the private investor, become hooked on short-term performance. They will therefore have to start asking themselves if

anything has really changed.
In Tokyo, it clearly has, since
the share price collapse, basically caused by rising interest rates, has gone so far so fast that it endangers parts of the financial

In Britain, still a net exporter of oil, the main change has been to the exchange rate. The sharp rise in sterling will have a much more important impact than

COMMENT

GRAHAM SEARJEANT

be locked permanently into a parity against the mark.

Once the higher level of the pound is believed, forecasts of profits for the high proportion of the top 100 companies that now have substantial hard-currency earnings will be downgraded. But this is a once-and-for-all cut and in nearly all cases will be well below 10 per cent. At home, the high pound will be bad for many chemical, engineering and textile producers, but will not harm the bulk of food, drink and basic

consumer products groups or utilities such as gas or water.

A prolonged war, such as in Korea, would bring inflation way beyond oil prices and change economic prospects. But this economic prospects. But this

usual if, as expected, it is about to remains unlikely. Political turmoil has little long-term effect on share prices. On that script, the traditional domestic defensive stocks will again prove good long-term value, for those prepared to stand short-term paper losses.

## Power play

lectricity shares would come firmly into the solid no-panic category if they were auoted. Punters might well be buying British Coal for recovery. As it is, the intended privatisation of the electricity supply industry has resolved one uncertainty only to meet another.

As a stalking horse, Lord

Hanson proved useful to the taxpayer in persuading Power-Gen to accept £270 million of debt, assuring a similar pro-portionate settlement with National Power. The mooted buyouts have also drawn much interest from institutions well beyond Legal & General, which was prepared to put its head above the parapet.

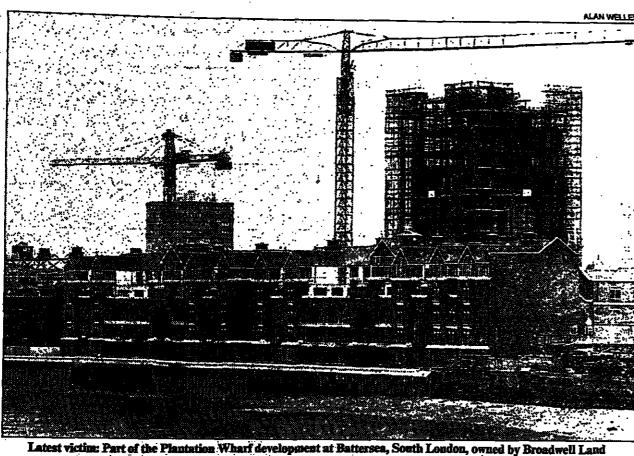

The PowerGen management has ever so discreetly been able to sell itself more vigorously than might otherwise have been the case. PowerGen, once thought the Cinderella of a joint flotation with National Power, may therefore help to sell its bigger rival. The two are almost certain to be sold to institutions together, more like a competitor in a three legged race than a package. They will have similar dividend cover, possibly 2.5 to 3 times, similar capital structures and virtually the same rating.

Selling to the public may not be so easy, since Lord Hanson's

withdrawal will not be seen as a bull point even if it was triggered by the tax factors.

If private investors are to be persuaded to dip into their pockets twice in three months to buy bits of the same industry, the state of the stock market and the fate of the financially more important sales of the 12 distribution companies will be crucial. That makes it doubly important that the disco sale, if it goes ahead in November, should be a popular success.

At present, most small investors in gas or water will feel, rightly or wrongly, that the stock market is not a good place to put money. This can easily change over the next two months. The government is likely to go ahead with the disco sale if the FT-SE index does not fall below 2,000 in the meantime. If share prices stabilise and fear fades from the front pages, there could easily be a rebound, as there was between the pricing and sale of water shares. Otherwise, the public is likely to boycott both sales, so wise advisers will keep their options open until the last

## Receivers are called in at both **Broadwell Land and Citygrove**

Citygrove. Broadwell Land, the unlisted securities market quoted property developer, which is heavily involved in the Plan-Battersea, South London, has forfeited by the proposed asked its bankers to appoint buyer who defaulted.

Arthur Andersen as receiver. The group added that Richard and Mark Breen had resigned as executive directors. Broadwell shares were last traded at 17p before their

offer for sale of 7 million shares at 155p each. The offer was more than seven times over-subscribed.

Broadwell has of late been hit by financing problems, and in June said it was in talks with an institution. It was thought to have been seeking a cash injection of £20 million. This month Broadwell said talks about a cash injection.

By COLIN CAMPBELL AND MICHAEL TATE RECEIVERS were called into had failed. The new funds £36 million at the last balance receive any return. ## Queen bee returns to hive

By GILLIAN BOWDITCH

RENE Stein, founder, former chairman and queen bee of Regina Health and Beauty, which markets royal jelly as a health product, is set to make a return to the USM-quoted company from which she was ousted in a boardroom coup last November.

Mrs Stein is returning on October I as a consultant for a £40,000 salary. She has the backing of a consortium of investors headed by TC Coombes, the stockbroker, which has put together a escue package for the group. C Coombes has underwritten a five-for-two rights issue that is expected to save the company from impending bankruptcy. Mrs Stein is not taking up her rights and her 29.4 per cent will fall back to 10 per cent. David Tett will remain chairman of Regina.

Regina was in decline before Mrs Stein's departure. The shares, having hit a high of 93p in 1987, fell to 17p in November and costs doubled. But since she left, the company's affairs have gone from bad to worse. The share price is now 24p and Gerry Simler. the finance director, who took over as chairman after Mrs Stein's departure, has left.

Despite her year away, Mrs Stein has lost none of her enthusiasm for the company or its product, to which she

Buzzing with enthusiasm: Irene Stein, royal jelly fan beekeeper 15 years ago. She which is said to help everywill take a special interest in thing from arthritis to acne, marketing the jelly, which is include the Princess of Wales, produced by worker bees and the Millwall football team, fed to queen bees.

Stein's departure, less has been heard of the celebrities who use the jelly.

She intends to promote the product in different ways and is considering the possibility of direct selling and multilevel marketing, where agents take orders for the product friends acquaintances.
"There is great potential for

Thatcher's cat. But since Mrs

the product," says Mrs Stein.
"It is the ideal product in times of stress. I think we were marketing it in the wrong way before. There's a lot of potential for direct selling to the public. We may need to market royal jelly direct to the public and through the shops using two different brands."

Having overcome the initial shock of losing her company, Mrs Stein has not been idle in her year away from Regina. In addition to "building her dream home", she has been working on two books, one on lifestyle, to help promote royal jelly, and the other the story of the intrigues at Regina at the time of her departure. She has also been investigat-

ing other natural products and considering the possibility of using royal jelly as an agricultural aid to increase milk and egg production. But at a cost of about £40 for a monthly human supply, it may be an unaffordable lux-

## BT loses \$880m on McCaw stake From Philip Robinson in los angeles

able to interest buyers.

BRITISH Telecom has lost \$880 million on paper after a sharp drop in the value of its largest American investment in the mobile telephone market. The shares of McCaw Cellular Communications, America's largest car phone company

this week fell a further \$1.25 to \$15.75. Wall Street analysts have become increasingly pessimistic over its future in an economic downturn and worry how McCaw will finance the interest on \$4 billion worth of debt.

McCaw's shares have fallen \$12 in the past month and \$31.25 from their \$47 peak last year when John Stanton, the vice-chairman, sold \$3.4 million worth of shares at \$43 each for "personal reasons". BT's \$1.45 billion purchase of a 20 per cent stake is now worth just \$564.3 million, but it says that whatever the short-term movements in the share

million share stake on January 19, 1989. Analysts say the shares have further to fall as the American economy slows and car phones become the easiest expense to cut. Kenneth Leon, an analyst with Bear Stearns, who advised clients to sell when the shares were \$26, says the company may need to raise fresh funds to pay the \$390 million annual interest on its debts, which cannot be covered by cash flow at present. Some analysts think McCaw might have to raise \$1 billion of new capital over the next four years just to pay its interest bill.

McCaw grew rapidly during the late Eighties and become last year's darling on Wall Street in an industry investors thought could only go up. It has revenue of \$500 million, but is not expected to generate enough internal cash to meet its payments until 1993. Michael

BT paid \$41.50 for its original 32.4 Murphy, who publishes the Overpriced Stock Service newsletter, believes the

shares could hit \$9. When BT topped up its stake last April, it paid \$60 million to the four founding McCaw brothers - \$31.98 a share. More than half went to McCaw's chairman, Craig McCaw, aged 40, who was paid \$35 million. Last year, the chairman and chief executive became America's best paid director, earning \$53.94 million in salary, bonuses and share options.

McCaw's debt burden increased in March when the company took majority control in LIN Broadcasting, a rival. It has an option to buy the rest in five years, but would have to raise \$5 billion to do so. McCaw still has some fans. Goldman Sachs has been recommending aggressive purchases of the shares on the basis of an asset value of \$60 a share.

STOCK MARKET

## Dawn raid gives Swedish firm 9.9% stake in TDG

strated yesterday what it had been hinting at all week, that, in the current uncertainty, it is the most resilient of the world's equity markets.

A strong pound, buoyed by Britain's self-sufficiency in oil, with the further insurance of membership of the European exchange-rate mechanism room, means that British equities are attractive to international investors.

A dawn raid on Transport Development Group, up 7p to 95p, plus talk of a buy rogram from an overseas ecurities house confirmed ondon's international apeal. Proventus, the Swedish roup, now has a 9.9 per cent take in TDG after Hoare fovent's raid for 10 million hares at 1960 each.

But shares in London were iso appealing to domestic ovestors. After the falls of the est fortnight, which had seen he FT-SE 100 index tumble y about 160 points, the sellers ere absent yesterday. What ritish institutions wanted to o was to buy at what some onsidered bargain basement

As the market-makers struged to shake out some stock or them and moved to cover neir own short positions beore the three-day weekend, he FT-SE 100 index steadily ose. At 10am, it was 17 points p and by Wall Street's openg, it was standing more than

Trafalgar House had a rough ride, down 22p to 208p. on a profits downgrading by Laing & Cruickshank, There has been mounting concern about the company's exposure to the property market.

Shares in Davies & New man, the Dan-Air parent, more than halved at one point to 150p on reports that the company was in "crisis" talks with the Civil Aviation Authority. The shares recovered to 255p, a 70p fall on the day, after a reassuring statement from the company.

Another reassuring statement, this time from Renters Holdings, that was issued late on Thursday, continued to help the shares, which had been badly hit by worries about the company's Dealing 2000 system. Reuters closed 43p better at 829p.

Also on the way up was Allied-Lyons, 7p higher at 456p, on further consideration of Suntory's increased stake. On Thursday, the Japanese drinks group took its holding to 4.8 per cent. But continuing to head the

other way was Wellcome, down another 21p to 423p.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## AVOID PAYING TAX ON YOUR SAVINGS. CUT OUT THE MIDDLE MAN.

If you save with a bank or a building society, the Chancellor is taking up to a 57% cut on the interest your money

 $I_{-1}$ 

But if you put your money in a Personal Equity Plan (PEP) you can avoid paying this tax.

PEPs were set up by the Government to encourage people to save money. So if tax-free saving appeals to you, consider the TR City of Landon PEP.

With this PEP your strings will be invested through the TR City of London Trust.

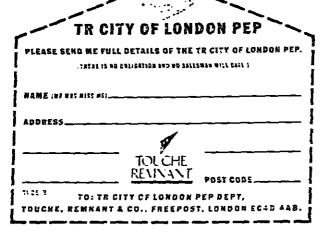

It invests in blue chip companies such as British Petroleum, British Telecom and Rolls Royce, And it's managed by Touche Remnant, one of the UK's leading investment management groups, with over \$2 billion under management.

In the long term, this trust has provided for higher returns than either hank or building society accounts. And that's before you take the tax savings into account.) Past performance is not necessarily a reliable guide to the luture.

You can start saving from as little as £50 a month, or with lump same

> To find out more, cut out the coupon.

UK tax laws may change. The price of shares, and the income from them, can go down 24 well as up. Investors may not get back the entount they invested.

ben Nigel Lawson.

Despite a shaky start, personal equity plans are now up and running, reports Neil Bennett. Plans proliferate, money the Exchequer. introduced personal equity plans (Peps) in his 1986 Budget, nobody could have predicted the turbulent beginning his creation would suffer. The simple tax break has swung from promise to near collapse to commercial

The arrival of Peps was no great surprise to economic commentators. The government was known to be keen to extend the shareholder democracy it believed it was building through privatisation issues. It wanted to encourage those shareholders to become more sophisticated in their investment behaviour while still backing British com-panies. The Treasury, meanwhile, was enthusiastic about any measure that promised to boost savings ratios.

success in the space of four

However, the initial pro-posals for Peps disappointed savings experts. Mr Lawson stopped short of allowing tax relief on amounts invested in the plan, such as the former Monory in France or Individual Retirement Accounts in the United States. He substituted this with a ragbag of allowances on withdrawals from the scheme. principally freedom from tax on dividends and capital gains

Investment was limited to £2.400, while only £420 or a quarter of the plan, which ever was greater, could be invested in unit or investment trusts. Asset managers baulked at the problems and expense of establishing Pep schemes. potential of marketing a new tax-free investment to the public. Two days after Mr Lawson's Budget proposal. Fidelity advertised that it would offer Pep schemes and

pours in, and even Labour has softened its once tough stance

Peps were the brainchild of Nigel Lawson, the former Chancellor of the Exchequer

received 18,000 inquiries. In all. 250,000 investors took out plans in 1987, the first year of operation. Lloyds Bank took the lead, with 50,000 customers, followed by Save & Prosper, with 27,500. The fan club among investors and fund managers, however, proved to be short-lived.

Few investors make capital gains large enough to qualify for CGT. Since Pep investment then was limited to £2,400, the largest saving most investors could expect was £40 a year on dividend tax. This was normally eaten up in the high costs of running the schemes, since managers were However, they also saw the plagued with additional paperwork and the investment restrictions.

> The cracks started to show when Fidelity, so keen to take increase in unit or investment an early lead in the market, trust investment from a maxi-

investors, too, had realised it would take years of faithful Pep investment before they began to notice the tax break. and plan numbers slumped to 100.000 in 1988.

Mr Lawson was faced with a mandate in 1989 to either scrap the scheme or save it from oblivion. He chose the latter, and his revisions have put Peps on a sound footing for the future. His decision to increase the

investment limit from £3,000 to £4,800 was predictable. More unexpected was the decided not to offer a plan in mum of £750 to £2,400, and it marked a reversal in government sentiment. Previously the Conscrvatives had advocated direct public invest-

lier plans. The limit on cash the plans to boost investment holdings was abolished, but in Britain. they were made subject to tax.

delighted with the offering and piled back into the market-place. By April this year, investment had reached £1.5 billion, from 400,000 people There are now more than 350 companies offering plans. while most managers are already seeing them rival their traditional unit trust sales.

As competition for Pen business has grown, the number of variants on a theme has also multiplied. Dominion Investment Management in-troduced a Pep morigage repayment plan even before the 1989 Budget, since fol-lowed by Norwich Union and Sun Life. The schemes give investors the same benefits as unit-linked repayment plan, which allows excess investment to be drawn out at any time (although underinvestment must be made up). with the added bonus of tax-

## Profits start to roll

FOUR YEARS after they were introduced, personal equity plans (Peps) have become

profitable for managers to run.
"I suspect nobody made any money in the first three years," Robin Berrill, managng director of Henderson Administration, says. "But Peps have undoubtedly now got the volume behind them. He adds, however, that the year away for five years they plans will never become a

truly cheap product because they are too complicated. More than 160 plan managers, including banks, in- But lately, talks with Labour surance companies and politicians on the City lunch stockbrokers, offer 350 difent plans, ranging from monthly payment of £50 to a

Commercial Union Trustees Limited. Registered in England No. 2045981. Registered Address: St. Helen's, 1 Undershaft, London ECJP 5DO.

The second second

variety of investment needs.
Savers can have their funds managed for them or do it themselves. They can invest in unit trusts, investment trusts, a portfolio of shares or in a hybrid of trusts and shares. Peps can be used to pay off a mortgage, top up a pension or save for school fees.

The first choice to make is whether you want to manage the shares in the Pep yourself. or leave it to a professional. Most investors should, and do, leave it to the professionals, opting for so-called discretionary management.

Discretionary services cover Peps which invest only in shares and Peps which invest only in unit trusts or investment trusts. A third option is the Pep which invests up to £3,000 in unit trusts or investment trusts and a further £3,000 in shares.

The BESt Investment Publishing Company has re-searched every Pep on the market. It recommends Peps based on unit trusts or investment trusts because: They offer a diversified

portfolio of shares and therefore a good spread of risk; • Their performance can be monitored easily, by looking at the prices published in papers and magazines;

They can offer an inter-

national content because the trusts are able to invest up to 50 per cent directly in overseas shares; and

• They offer the best value because the dealing costs are investment trust managers erage investor, who switches

#### shares an average amount, vary between 1.7 per cent and 9.1 per cent of the Pep Handy guide through investment in the first year. Do-it-yourself investment managers should also check what restrictions a plan makes a confusing jungle on their choice of shares. Many only cater for invest-ment in the top 100 shares because this is sufficient for When choosing a Pep to top up a pension plan or pay off a

The world of personal equity plans (Peps) has grown quickly into a jungle to rival that of pensions or the second hand car market. There are now more than 350 plans. each with its individual charging structure, performance record, and band of salesmen determined to show investors and intermediaries that their plan is the one to choose.

Until recently there was little performance information to guide consumers through the maze. Last November, however, the BESt Investment Publishing Company, previously known for work on Business Expansion Schemes and Enterprise Zone Property Trusts, published a Pep Investor guide which attempts to give independent advice to ease the choice.

John Spiers, BESt Pep Advice's author, is a convert to the scheme, even though he started working on the guide only when the 1989 Budget changes made Peps more fea-sible. "This should be all investors' first equity investment," he says, "providing they have somewhere else where they keep their short

term savings. "Most people should forget about trying to do their own stock-picking. Very few have the expertise or the time. Peps are now no more expensive than investment in normal unit trusts, and they should look at those instead.

So far this financial year, schemes have raised £200 million from 50,000 investors, after investments of £1.5 billion last year. Mr Spiers sees this as only a beginning, "The news is still not reaching the people it should but it was a good performance for the first year. I would expect investment to be running at double this in two years time. Many managers think annual sales of Peps will exceed unit trusts within three years."

He admits that the bulk of Pep investment still comes from wealthy individuals searching for tax shelters, and would like to see some marketing to bring home the benefits of unit and investment trusts to the person in the street. "A lot of it is down to the Unit Trust Association to launch a unified campaign for its members. If a tenth of the money which is spent on specific products was diverted show the industry as a

Investors should put their first equity investment into Peps, says John Spiers, convert to the scheme and author of a guide. The news must get to the person

on the street. Neil Bennett reports

City view: John Spiers advises on choosing a plan low charging structure, man- This is equivalent to a agers would derive a lot more substantial 17 per cent of the long term benefit."

BESt Pep Advice's figures show the benefit of long-term investment in a scheme. The saving from a single £4,800 plan to a basic rate tax payer would only be £6 in the first year, rising to £36 after five. But a top rate taxpayer would gain £233 in the same five years, or £819 if the investor is

original investment.

The comparison of the tax benefits on a longer term investment is even more startling. The return on £1,000 in a typical unit trust over 25 years is approaching £25,000. If the Pep tax-free status had been available, it would have been more than £40,000.

whole has a good record and a subject to capital gains tax. long-term myths in his search 64A (071-936 2037).

show that there has been no material difference in asset performance between unit and investment trust performance over the past year, and that investment trust outperformance was solely due to the narrowing of the discount.

He also risks the wrath of investment companies which would like to see their customers investing year after year. "I urge people not to enter into a long-term commitment," he says. He believes investors should choose a different plan each year, guided by investment performance and the need to spread their risk.

His report scrutinises each company's charging structure, and calculates it into an immediate realisation value (IRV), which is the amount an investor would receive if he cashed in his policy immediately after taking it out. This reveals marked variations. Lloyds and Perpetual have the lowest charges, with IRVs of 97.7 per cent. At the other end of the scale are Trumark and Whitechurch, with 88 and 88.7 per cent respectively.

But Mr Spiers stresses that charges should not play a major part in Pep selection. 'Fluctuations in performance in the first year alone will be far greater than the range of charges," his guide states.

nstead, the centre of his research is the unit trust performance statistics which show which quartile each trust was ranked in over one, three and five years. In future, BESt Pep advice will take individual years to remove the distortion the figures can suffer if a trust performs exceptionally well or badly in a single year.

Despite the number of Peps already available, Mr Spiers sees development continuing. The international element is not being fully exploited, he believes, even though the limit on non-UK holdings was increased to 50 per cent of any plan in the last Budget. Also, more managers should add a cash option to their plans, allowing clients the chance to leave the equity market for short periods when it looks

WHO ELSE CAN **GIVE YOU THIS COMBINATION OF** PERFORMANCE & FLEXIBILITY?

There can be no doubt that anybody contemplating a stockmarket investment should first consider a PEP. Following the Budget, you can now invest up to £3,000 in the 1990/91 tax year (£6,000 for couples) in a unit trust PEP and benefit from total freedom from tax on both income and capital gains.

But how do you choose the PEP that's right for you? We believe that Prolific has the answer.

#### **MAXIMUM CHOICE**

With a Prolific PEP, you can choose from one 'Growth,' three 'Income' and three -Balanced- portfolios, depending on your particular investment needs.

#### **MAXIMUM FLEXIBILITY**

You can choose to receive up to six gross income payments each year or reinvest the income in additional units. Alternatively, you can invest for growth initially and then start receiving income payments at a later date when required - ideal for pre-retirement planning. And if you prefer to invest on a regular basis, there is a monthly savings facility. The choice is entirely yours.

## MAXIMUM PERFORMANCE ::

The unit trusts into which Prolific PEPs invest all have excellent performance records. £1,000 invested in Prolific Special Situations Unit Trust at launch (1st February 1982) is now worth £7,529, in Prolific High Income Unit Trust (2nd September 1974) £31,344 and in Prolific Extra Income Unit Trust (13th October 1984) £3,294: Over 5 years, the figures are £2,580, £2,407 and £2,565 respectively.\*

## ACT-NOW

Send for full details of the new Prolific PEP range and choose the investment that ideally suits your needs for tax-free investment returns.

Most investors reserve judgment HAVE personal equity plans (Peps) been successful? With and investment trusts within Peps. However, without these

the Pep concept more than four years old, it should be possible to provide an informed response to the question. However, the answer depends on who is being

On the face of it, Peps have been an enormous success. My company has been producing a guide to Peps since December 1986. In the first issue, we compared 16 schemes. We are working on the ninth edition, which will feature more than 300 schemes. Those figures alone suggest that Peps are a success.

However, if the government was asked if Peps had been a success, the answer should be no. The reason is that the original Pep concept was intended to generate wider share ownership. In this respect, Peps have not been particularly successful. The majority of the £2,000 million invested essary inclusion of unit trusts Investments.

TAX FREE INCOME

taxman takes a quarter of income and gains while higher rate tax payers see 40 per cent of their income and capital gains expropriated. And if the Labour party wins the next election, it has indicated that top rates of income tax - and thus top rates of CGT - will have to rise substantially to

meet their spending promises. All the indications are that. although new Peps may be banned under a Labour government, existing Peps will keep their tax-free benefits.

Those who have substantial investment capital are making the best, and most efficient, use of Peps: they invest directly into shares through their Pep, treating their Pep portfolio as a small, but growing, part of their overall investment funds. The individual who had a £100.000 portfolio in 1987, taking maximum advantage of the Pep rules, by now could have transferred more than £16,000 of the capital into Peps. while retaining the direct equity shape of the overall portfolio

including the Pep. Look at the benefits if top tax rates go to 50 per cent. With a conventionally invested portfolio of £100,000, vielding a gross 6 per cent in dividends, after tax income is £3.000. But with £22,000 safely locked away in a tax free

Just who gains?

Pep, after tax income rises to £3.660 - a 22 per cent increase. Who needs tax free capital gains when the tax free dividend income benefit is so attractive from Peps?

That may be all right for the "haves": they have the resources to put away the maximum allowed for Peps each year, and because they have existing portfolios, there is less need to ensure a wide spread of investments within the Pep; their portfolio spread is obtained by combining their non-Pep and Pep portfolios.

But the Peps opportunity is nowhere near so great for the "have-nots". For those wishing to save for the future, to build up their future portfolio of investments, the Pep limits for investment into unit trusts and investment trusts effectively operate to reduce the amounts they can save under

the Peps scheme. This is because only £3.000 can be invested in unit trusts, and the balance of the maximum allowable subscription must be invested directly into ordinary shares. The costs and difficulties of dealing discourage ordinary savers from using this extra £3.000 to invest in the necessary wide spread of equities needed to create a balanced portfolio.

Somewhere along the line, the government has missed a trick: obsessed with encouraging direct equity investment has failed to give the maximum opportunity to the ordinary saver to use the Pep scheme to build up capital for the future. The "haves" are able to transfer £6,000 from their existing portfolio each year to build up their tax free Pep fund. But the "havenots", are effectively locked into a £3,000 per annum maximum subscription if they wish to safeguard their savings in a wide spread of underlying

## More excitement with split shares

ASSUMING an investment into equities makes sense in the first place, investors' first priority must be to take up the full ration of Peps, and as from this tax year it is possible to build in an international flayour to the portfolio providing it does not exceed 25 per cent of the investment

What is disappointing at present is that the investment performance of Peps is not more inspiring, and in many cases is below that of the All Shares index. But remember that a typical managed Peps has a portfolio of around only half a dozen shares, so that the performance of any individual share has a marked impact on the overall return.

One is also comparing a fund with management charges against an index that does not allow for charges.

is there any way of gearing up the investment performance? The answer is yes, by including the income or capital shares of a split-level

investment trust for an amount of £3,000 (this is the maximum Peps entitlement for investment or unit trusts). These are fascinating investments made up of in-

## **WEEKEND MONEY**

# Mortgage lenders turn to the rule book for safety

JUST as high interest rates are gage products inflicting pain on home own-available. ers, mortgage lenders are learning from their mistakes

and becoming more cautious. are banks, building societies, or centralised lenders, mortreduce the risk of borrowers being unable to pay.

They are doing this by sticking more rigorously to their rules for loan sizes and, occasionally, by removing products from the market.

Ian Darby, marketing director at John Charcol, the London mortgage broker, has noticed lenders becoming Societies Commission (BSC) more cautious. We are gen- to lay down more stringent

Some mortgage lenders made mistakes in the heady days of the summer of 1988, when loans of four and five times annual income were available. A range of innovative, but often risky, mort-

With house prices rocketing, there did not seem to be Regardless of whether they not meet payments, the mortany risk. If the borrower could gage lender could repossess gage providers are seeking to of a loss. But then interest rates rose and house prices

fell. As a result, more houses were repossessed in the first half of this year than in the previous six months. The number of people falling behind with their mortage payments is also at record levels. The growing arrears problem has caused the Building

erally seeing a tightening of underwriting," he said.

rules covering societies' marketing of new mortgage prodketing of new mortgage products. The amount of capital a society must have on deposit compared with its outstanding raised. The tighter rules cover loans to borrowers with rec-

loans where no proof of in- society has asked its managers come is needed, loans where to refer to the area manager's the lender takes a share in the office for approval of any property, and loans where in- borderline cases. Typically, terest payments are deferred.

The Bank of England has also cautioned mortgage lendthe property with little danger ers. Robin Leigh-Pemberton, the governor, told members of the Association of International Savings Banks in from mortgage brokers have June that "they must market their products responsibly".

The Halifax, the country's largest building society, has direct contract with a number restricted its lending practices. It has said that home buyers can borrow no more than three times their income, regardless of how much is being paid for in cash for a property. It has asked branch managers for more details when they think there is a case for exceeding such guidelines.

A spokesman emphasised that the changes were the result of a regular review of

The Birmingham Midshires

For readers who may bave missed a copy of *The Times* this week, we repeat below the neek's Portfolio price changes (today's are on page 27).

But many investors are wishing they had never heard of unit trusts, especially those who were caught up in the New Year euphoria spread by some investment groups. As the Berlin Wall came down, investors were invited to roll up and invest in the new Germany. There had never been a better time to buy. Pieces of the wall were even provided for some investors.

Those who went in at the height of the hype in January could have lost 20 per cent and the immediate prospects are not too healthy.

Unit trusts are long-term investments, not cheap tricks to be turned. Unfortunately, the industry seems to be falling more and more into the hands of the marketing men, who seize every spurious opportunity to excite interest - usually after markets have been rising for some time. The new-age hype about Germany was just such a marketing

# Sales hype discredits unit trust industry

ploy. Investing in any single country is always risky. Not only do the individual businesses in that country stand a chance of falling, but the value of the country's currency may fluctuate

To make matters worse, the unit trust industry has tarnished its image by cooking the books over the years. In the first quarter of this year, the Unit Trust Association reckoned the industry had net sales of more than £400 million.

The Bank of England disagrees. Figures in its latest quarterly bulletin put net sales at £99 million.

The unit trust industry claims it is a matter of interpretation. To reach its figures, it has always added in sales of units to life assurance companies. This means that any funds life assurance companies have switched into units have been

counted. For years, financial journalists

## COMMENT

LINDSAY COOK WEEKEND MONEY EDITOR

have called the validity of such statistics into question.

At quarterly briefings on the statistics, fund managers and investment groups are hardpressed to explain where the figures come from. Yet they do not seem to worry. They can count on a lack of sophistication on the part of the British investor. If they read in their newspaper that, say, £100 million has been invested in unit trusts. they will not imagine that only £25 million has been forked out by individuals or brokers.

In the same way, they do not question announcements of successful launches that tell of millions flowing in when, in fact,

much of the success might be due to a nifty internal transfer of funds. The marketing people know investors are lured into unit trusts because they think they recognise a bandwagon when they see one. They often plunge in at the top of the market. That is why sloganising can be dangerous. It appeals to the

mentality of the short-term gain. Unit trusts should not be in the business of hype and making a fast buck. They should be selling a long-term investment. And while the big money for the groups is to be made on lump sum investment, the best results are achieved for investors by investing little and often. Savings schemes that enable investors to put £20 a month into funds are ideal. With them, a fall in the market can be greeted as good news. A 20 per cent fall means that their monthly investment buys 20 per cent more units. Then when the market rises there are more units to increase in

Investors can ride out stormy markets. With such schemes it may take some time to reach £500 invested, the usual minimum for lump sum investment. Groups still want to bring the money in fast. They should back the tortoise and not the hare.

## Homes at risk

ne in four British households still has no home contents insurance, according to the Woolwich Building Society. In some areas, the figures are higher. Of the 2,800 homes affected by the Towyn

floods in North Wales, 40 per cent had no contents insurance and others were underinsured. These householders are having to rely on a public fund which has so far raised £600,000. This will not go very far.

Household insurers paid out £2.5 billion in the five weeks to the end of February to cover storm damage. But unfortunately memories are short, and those who did not suffer in the extreme weather conditions last winter will not expect storms, frosts or floods this year.

Now, ahead of the winter weather and the peak burglary season, anyone without insurance should be thinking about the risks involved.

Bad weather can destroy inminutes a home that has taken a lifetime to build up. It is not

worth taking the risk. In most parts of the country, replacing a stolen television set will cost more than the annual premium for the contents of a typical semi. Most households will never pay in premiums enough to pay for the damage caused by a burst pipe while the owners are away.

A PLAN to market Indian herbal medicines and therapy investment opportunities on offer in about 40 business expansion scheme (BES) prospectuses.

But this particular proposal. from the Ayurvedic Company of Great Britain, has other uncommon features that investors should examine with care, according to analysts who are especially wary ahead of October 5. This is the deadline for BES investments. which can be partly offset against the previous year's

Ayurvedic is offering investors between 100,000 and 750,000 shares at £1 each: 50 times the 2p price paid by the directors and other founders for their 2.8 million shares. If the offer raises only £100.000. issue costs will leave the net asset value of 2.9 million shares at £85,000, or just under 3p per share.

The prospectus carries no financial projections, noting only that they have been prepared and reviewed by the company's directors and ad-

Another note explains that no directors' service contracts exist, but that these will be prepared in due course.

John Spiers, of Best Investment magazine, described the price differential between the directors' shares and those on offer as "outrageous".

The usual arrangement with start-up companies was for shareholders and founders to pay the same price, since no goodwill was involved at that

## Value of 'frozen' pensions to gain from change in law.

By Barbara Ellis

PEOPLE currently changing jobs could miss out on huge increases in the value of their pensions if they let ill-informed salesmen rush them into buying a personal pension to "unfreeze" money locked into a previous employer's scheme:

This is because the transfer values of many deferred or "frozen" pensions could rise steeply during the next two years as a result of imminent changes in the law.

A transfer value is an estimate of the amount a pension scheme member would need to invest today to provide the same benefits as the scheme by the retirement date. Although scheme rules sometimes say that a transfer value must at least equal the amount of contributions paid by the member, there is no direct connection between the two.

Calculations are based on current interest rates, but use very conservative assumptions about likely rates of return on investments.

So it is all too easy for pension salesmen to produce illustrations based on different, standard assumptions, that appear to show a personal results.

But such quotations often ignore the effect that changes proposed in the forthcoming social security bill might have on transfer values themselves. Under the bill, the first use

for a pension scheme surplus will be to provide increases to pensions in payment of up to 5 per cent a year. It will also become mandatory for schemes to extend

the revaluation of pensions for future leavers. At present, any pension earned since 1985 has to be increased by 5 per cent a year from the leaving date until retirement. The new law will also apply increases to pen-

sions earned before 1985. Both changes would raise the final pension and therefore the amount of the transfer value needed to produce equal benefits.

The recent European court decision in the Barber case, giving men the right to an equal retirement age to women, could also bring higher transfer values for men. And, paradoxically, a fall in interest rates would also boost

transfer values. lan Cartwright, an actuary with IS Cartwright, which specialises in advising individuals on transfers, says that it could become commonplace for transfer values to more than double over the next year.

He points out that the increase in a transfer value in one year could come to more than the salary earned by the consulting actuaries. employee.

In an extreme example, a tious," he said. man might receive more than six times his present transfer value simply by waiting maybe 18 months for the main legislative changes to feed through and interest rates to about half the cases it saw, but predict what growth rates will

fall, said Mr Cartwright. His noted that the average adviser calculation took a man of 40 likely to be consulted by the earning £40,000 a year and man in the street was almost leaving a company after 20 invariably sugg years, where the pension into pensions policies. scheme provided one-sixtieth for each year of service. pension schemes has found

Based on an investment return of 12 per cent a year (the redemption yield on longdated government securities). the transfer value for this man would come to £12,000.

But the value would rise to £19,000 if interest rates fell by

And it would jump to £32,000 if the pension scheme switched from paying a level pension to giving annual increases of 5 per cent.

Finally, increases on pensions earned before 1985 would again more than double the transfer value to £74.000. All these factors make pen-

sion transfers a classic test of the "best advice" investment salesmen are supposed to give clients. At National Westminster

Bank, one of the few high street sources of independent advice, salesmen are under instructions to advise a delay in transferring pensions unless the ceding scheme already provides for 5 per cent increases to pensions in payment or does not have a surplus to fund improvements for early leavers.

"We are forsaking a significant amount of commission each month, but we don't feel we have a choice," said a NatWest spokesman. He pointed out that the Trust Regulatory Organisbank was taking the same view

## Insurers seek growth in the courts

Some insurers underwrite the policies organisations such as clubs.

Mr Keith Loney, deputy chief executive of the Association of British Insurers, says: "People are becoming more and more aware of their legal rights and liabilities. but legal advice is expensive. Where legal aid is not available, legal expenses insurance is a practical and straightforward way of getting protection against the costs

recognised by the Law Society as an effective way of giving more people access to the legal system."

Insurers call on a panel of lawyers, and use local solicitors for routine contract disputes. Specialised representation is provided in complex cases. Usually, 2 policy holder has a right to object to the nominated solicitor and the insurer will offer an alternative name. The insurer will exercise the right not to pursue a case where it feels there is no reasonable hope of

Legal insurance covers launching as well as defending cases and can be used in than one claim can be made in a year. CU's

of taking legal action. It has been criminal and civil actions. Typical examples include suing a local council for injuries caused when a policy holder fell over a kerbstone, recovering the cost of carhire from the other driver in a car accident, and reaching a compromise with a neighbour over a house extension that

Policy limits vary between insurers. Commercial Union, for example, charges £6.50 a year for domestic insurance that covers items such as disputes with neighbours or employers and goods and services

motor aid insurance, costing £8 a year, includes legal cover up to £25,000 with a 24-hour telephone legal hotline, but this service also includes help with breakdowns.

Union is offering optional coverage up to £25,000 at £4 a year - half price - to

Royal Insurance covers legal expenses up to £50,000 under its Homeshield policy, while its Motorshield includes legal fees up to £25,000. Both Homeshield and Motor-

Guardian Royal Exchange automatically covers £25,000 or £50,000 of legal costs on its household insurance, depending on the type of policy,

RODNEY HOBSON

THE INVESTMENT HOUSE &

INSURANCE companies see legal expenses as their potential growth area. With coverage of cars and houses close to NEED saturation, insurers are putting leaflets in **ADVICE ON** with their renewal notices to tempt policy holders to tack on a safeguard against the COSL Of going to court.

Legal expenses insurance has been available in this country for about 15 years, but it has taken off comparatively recently. An estimated ten million people are now Norwich Union has joined the growing

ranks of insurance companies offering the service. Next could be Prudential, which is considering a pilot scheme in southern England later this year. Norwich Union says: "We offer this insurance through an underwriter. The growth in the market led us to introduce it.

By CAROL LEONARD

TALL, handsome and charming. He does not smoke or swear, never loses his temper, is happily married and loves sport. Bob Bauman, the chief executive of SmithKline Beecham, is the original all-American boy.

Bauman, aged 59, winces at that description. "I suppose it's meant as a compliment." He pauses. Thinks about it. "it's the all-American bit that troubles me. I don't see myself like that '

But although he has travelled extensively on business - "I always have airline tickets and a passport," he says repeatedly — it was not until he took over the helm at Beecham four years ago that he had lived anywhere other than America. And he was unknown in Britain. He made headlines immed-

intely, being billed as the million dollar man. After an exhaustive ten-month search in Britain, Lord Keith, cham's stand-in chairman, had been unable to find anyone he considered capable of filling the vacancy left by the ousted Sir Ronald Halstead. The company needed to e turned around. Bauman, Keith concluded, was the man to do it. And he would be paid \$1 million a year. Exchange rates aside, Bau-

an's salary has since more than doubled. Last year, he carned £1.26 million (\$2.42 million), making him the third ighest paid businessman in Britain after Lord Hanson and Tiny Rowland.

I put the £1.26 million figure to bim, seeking verifica-tion. He stared back blankly. 'Is that what it is?" he replied. I would have to look it up."

His justification for such salaries is well rehearsed. "We are a global company. Our compensation is not out of line with other global companies. To get good people you have to remunerate them eil. I'm not embarrassed about the compensation this

COMPANY DAVS." Against comparable American companies, his package is not exceptional. "The gap between British and American salaries is narrowing," he says. But Sir Paul Girolami, the chairman of Glaxo, which is istently more highly rated that Beecham, nevertheless

carned a comparatively paltry

As for an American being hosen to run one of Britain's God, but I don't go to hosest public companies — church," Bauman retorts. He 55,000 people and is capitalised at £3.6 billion - Bauman of his disarming charm. points out that there are more British managers running a steely manager, an ardent American companies than the team player who will ruthother way round. But he ad- lessly dispose of any member mits he was a little taken of his manage aback when Beecham ap- does not fit in. proached him. Then vicegroup, after a lengthy career with General Foods — his first job was as a coffee salesman "putting up posters in small retail stores and trying to get

them to buy a few cases" - he was "interested immediately". "I had travelled to London a lot and loved it, and so did. my wife Patsy," he recalls. "So when the thought first came up for this job, which was quite a surprise, I was interested immediately. I liked London and I like global businesses. But it's always harder for the non-working part of the family. It has worked well with Patsy, however, although she did have year with SmithKline Beckreservations initially, about man, was really master- play games by listing his catch

BUSINESS—

**Bob Bauman** 

They are now so settled in their home in Chelsea that when this whole thing is over we are likely to retain some sort of ties." While he admits that they may lose their daughter Elizabeth, aged 24, and a psychology gra London, "because she likes it so much," there is clearly no question of him and his wife settling permanently in Britain. Even though he was born in Cleveland, Ohio, his house overlooking the Atlantic coast

in Maine is "home". "My sister lives in Maine and so does my mother and we go back there each year for almost the whole month of August. It's a great place to relax and just enjoy people. Patsy is still over there, on holiday." Their son John, at 27 the eldest of their two children, has just finished a college course in America and is likely to remain there.

group. Robb resigned in 1988 satisfied." just as carnings per share group Wellcome. The company had defi-Robb left. The short-term

strategy to get Beecham's earnings back on course was his, he unveiled it three months before Bauman arrived," added the analyst. But I guess the place wasn't big enough for both of them. He's a very laconic Scot and they were probably too much

But what no one can take away from Banman is the idea for and the implementation of Beecham's £9 billion merger with SmithKline, to create the second biggest research-based pharmaceutical group in the world. Many people doubted the wisdom of his master plan at the time. They said that the two could not be merged together. They were too big. It simply would not work. Those same individuals are now forced to eat their

It is still early days, and **Bauman has gone on record as** 

'He's a very polished performer, he doesn't even use prompting cards when he makes a speech and he is a very, very nice guy. But he doesn't suffer fools gladly and you should never underestimate just how tough he is. I certainly wouldn't like to cross swords with him if my job depended upon it.'

All-American boy or not, Bauman is the sort of man you can imagine enthusiastically cheering on his favourite football or basketball team on television, with a can of Budweiser in one hand and a slice of pizza in the other. Once a keen athlete, he used to go for a run every evening until an arthritic knee forced him to stop. "I do drink, beer and wine. But never the hard stuff, and never at lunch time. And I just adore settling down to a big piece of chocolate fudge cake, dripping in cream and ice cream," he admits, animatedly. "I'm a chooobolic," "He's the sort of man who probably goes to church every Sunday. observer. "I do believe in

and is no doubt all too aware But beneath that charm lies

"He's a very polished perchairman of Textron, the former, he doesn't even use aerospace and financials prompting cards when he makes a speech and he is a very, very nice guy," says a City follower. "But he doesn't suffer fools gladly and you should never underestimate just how tough he is. I certainly wouldn't like to cross swords with him if my job

depended upon it." Some cynics distrust his charm. He does, after all, seem almost too good to be true.
"There is a lot of suspicion in the City as to whether or not it is sincere," said a pharmacentical analyst. Such sceptics also point out that the tranformation of Beecham. before its merger in July last

saying that the real benefits will not be seen until next year and beyond, but barely 12 months down the road there are clear signs that it is

As for integrating the two companies - the merger of the Swiss chemical companies Ciba and Geigy took ten years to combine operations - Rauman says that his

method was entirely new. "We wanted to design a new company, one company, right from the start. In every country in the world we have now finished integration, to a single location, creating a new

To bring about this integration, he divided 2,000 managers into more than 300 "project groups" to work out a trustee of the Royal Hortihow they should go about it. cultural Gardens, Kew, and is We refused to tell them their new jobs were going to be, they didn't even know who was going to be the head of each country. They were the ones who knew what was going on in each country, they had to be part of designing it and, most importantly, if we wanted it implemented suc-cessfully, it helped that it was their own plan. In the immediate period after a merger, the employees of both companies are expecting change. You

it straight away." If he had to tackle it again, he would not do anything differently.

cannot wait, you have to get at

He has also been responsible for providing incentives to almost the entire Smith-Kline Beecham staff. All managers who earn more than £30,000 a year are included in a cash bonus scheme, linked to performance.

Bauman uses business school jargon frequently. He spent two years at Harvard. Analysts at results briefings

acting chief executive of the a new company." couraged." Sometimes they moved decisively ahead. He is impersonate him. "I do use now the chief executive of those words a lot," he admits, rival British pharmaceuticals laughing. He had been unaware of their antics. "I'm obviously going to have to nitely turned the corner before create some new ones." He is a man who wants to be liked and who obviously cares about what people think, But when he has to abandon his business jargon, to talk

about himself and more personal issues, he clearly finds it difficult. He may appear laid back, but he is never off his guard. "I'm not very experienced at this," he says, almost a little defensively. "I've never agreed to a personal interview

And an hour and a half into the interview, as we broached one or two more personal subjects, he suddenely referred to an appointment he was meant to have had half an hour previously. "I think I forgot to mention it." Perhaps it was true. Or just another business school technique. I persisted. His secretary then appeared to take something from his desk. "I know, is he waiting?" he queried as she opened the door. But she obviously had not heard. "Just ignore me," she said cheerily, instead. His escape route vanished silently from the room. We continued. Bauman met his wife on a

golf course in Philadelphia. "It was definitely interest at first sight - there's no such thing as love at first sight." Since he has been at Beecham his golf handicap has risen by four points to 12. He attributes the success of their marriage when so many businessmen in comparable positions have tattered personal lives - to the fact that they married when they were 30. "I'm sure the fact that we married quite late has helped. You change so much between the ages of 20 and 25."

And a book he once read, Self Renewal by John Gardner, has been a major influence. "It's basic philosophy was that every ten years any organisation or individual should stop and take stock and restructure themselves in order to go on developing. I've been lucky. Every 10 years an opportunity has come along for me to do just that."

A keen horticulturalist, he is of the New York Botanical Garden. His book Plants as Pets tells readers how to adapt houseplants to their lifestyles, rather than the other way around. "It was written at 35.000 feet, in an aeroplane." He used to breed orchids and talks about his plants with affection.

Bauman also keeps poodles, two in America and one in Britain. His one regret is, he says, that he did not spend more time with his children when they were growing up. "Patsy had to bring them up on her own." Beneath the façade, he is clearly an emotional and affectionate man.

But perhaps most revealing of all is his admission that his role model was his father, the chief executive of a large trucking company. "I was very fond of him. He was busy, but a good father. He liked sports, liked people, was very friendly. I admired him very much. I suppose, if you must, he was an all-American

## Checking out a lack of grand hotels

FROM the outside, the Hotel Europa, in Prague's Wenceslas Square, lures the unassuming visitor into admiring one of the city's, and indeed one of Europe's, oldest and grandest hotels.

Located on the edge of the historic square, the Hotel Europa, with its art nouveau facade, in keeping with adjoining buildings, reflects the style of a capital that lays claim to be Europe's most picturesque city.

Once inside the hotel, however, the

visitor is suddenly reminded of 40 years of communism. Not a grand hotel in the least, not even second class, but more like a shabby guest house. The rooms are basic and there are no telephones. Europa might perhaps be an extreme

case. However, it reflects the lack of a tourist infrastructure in Eastern Europe. Nationals of the European Community no longer need visas to enter Czechoslovakia, and recent media coverage of Eastern Europe has played its part in adding to the country's image abroad. But it is primarily the lack of available hotel space and the quality of the hotels which exercises the single largest con-

straint on tourism in the region. Even those hotels which can call themselves grand, like the Alcron just off the square, are not up to West European standards. On first impressions, the Alcron evokes images of turn-of-thecentury Europe. Black-tied attendants are in abundance and a pinnist plays Schubert a scene straight from the pages

of a Thomas Mann novel. Yet, even at the Alcron, the quality of the service fails to match appearances. The telephones reach no further than the

FROM WOLFGANG MUNCHAU IN PRAGUE

Old style, poor content: the Alcron reception desk. Wake-up calls may be part of the service, but their execution is mostly forgotten.

Room service displays the strongest discrepancy between style and content, when the food, usually sauerkraut and

dumplings, is artistically arranged on a silver plate. Czech charm is easily the most effective shield against undue com-

The visitor will have no better luck with Prague's restaurants, which are constantly overbooked. U Sloupu, outside the city centre, is acknowledged as one of Prague's best.

I recall one Friday night when, despite a reservation, the manager refused my humble request to enter the place because it was overbooked, or so he said. After a small fracas, and a not unsubstantial Deutschmark transaction, my guest and I were finally admitted, only to discover that less than half the seats were taken. And once again there was no alternative to the inevitable dumpling, sausage and sauerkraut cuisine.

It is not surprising that western hotel chains are keen to enter the eastern market. Europa, I understand, has five western hotel groups, including Steigenberger of West Germany, queuing up for a takeover. But the Czechs, aware of the potential

fetch one day, are reluctant to sell on the cheap what might turn out to be the country's single largest asset. The lack of space and planning restrictions preclude the building of new

prices its art nouveau properties might

hotels in the city.

Despite the democratisation of Czechoslovakia, and the promised reform of its economy, tourists and businessmen in Prague will have little choice but to put up with those central European anachronisms for a little while

Credit reference agencies face action

for contravening data protection laws

#### SUMMARY

## **Fimbra** obtains warrant

WARRANT was issued for the first time under the Financial Services Act this week to allow the Financial Intermediaries. Managers and Brokers Regulatory Association (Fimbra) to search the business premises of an broker in Northern Ireland.

When investigators entered the premises of Edward J McCann Brokers in Porta-down, County Armagh, they were concerned by "the ab-sence of records". The firm

was suspended by Fimbra on July 25.

The Royal Ulster Constabulary is helping with the investigations.

#### Loans launch

Abbey National is to introduce a fixed-rate mortgage on Tuesday at 13.7 per cent until the end of 1992, and expects people struggling with record rates of up to 15.4 per cent to apply. Meanwhile,

visions of the act."

#### THE data protection registrar is expected to confirm next week that he will take legal action into "black" and "white" against the four largest credit Some lenders, such as banks, reference agencies for allegedly provide information only on cusblackening the names of customtomers whose accounts are in ers who apply for credit by passing on details of the debts of other default, and even then give bormembers of their households.

About 100,000 new borrowers every

year find their names are blackened

by the credit records of others.

Money Editor Lindsay Cook reports

on moves to end the practice

Eric Howe, the registrar, says

agencies should only pass on in-

formation to lenders about the

person applying for a loan or other credit. Instead, they have been

giving details of the credit records

of previous occupiers of the same

address, or other people living in

the same house at the same time.

been providing lists of credit transactions, debts and county court judgments relevant to people who lived at an applicant's

former address. Such information

about a former lodger, adult son or

daughter, disadvantages about

100,000 people a year when they

apply for credit, says Mr Howe.

They are effectively tarred with

the same brush as a debtor in the

same household, despite such use

of credit records being prohibited

The four agencies were given

until August 6 to agree not to use

third party information, but they

have not done so. This week the

Data Protection Registrar indicat-

ed that legal action would be taken

against ČCN Systems, Infolink,

Westcot Data, and Credit and

Lenders who use the agencies

still want to use information not

only about loan applicants, but

also about the people who live

with them. Their trade body, the

Industry Forum on Data Protec-

tion, representing building soci-

eties, finance houses, retailers and

mail order companies, has agreed

that from the end of next July it

will no longer expect agencies to

supply information about people

merly lived at the same address.

The National Consumer Coun-

cil (NCC), says more information

should be on credit reference

agency records. It wants details of

serious mortgage and rent arrears

to be available to lenders. In its

report. Credit and Debt: The

Consumer Interest, the NCC ar-

gues that lenders should know

about a household's gas, electricity

It says: "Additional data would

help to pin-point more accurately

those already struggling to meet

household commitments and for

whom more credit would bring

More than a million bad debts a

year would be added to the records

if the utilities, local authorities

and building societies supplied in-

formation. "Default details like

these are, we believe, even more

pertinent to assessing the risk of

financial overcommitment than

The agencies have records on

most adults in Britain. All 44

million people on the electoral

register are on file. This gives

surnames, first names, full postal addresses and length of residence.

The ten million or so county court

judgments made in the last six

years are listed, as are all bank-

ruptcies. Lenders also supply

information about customers'

worse financial problems."

the data used now."

and water debts.

Data Marketing Services.

under the Data Protection Act.

And in some cases, they have

rowers 28 days' notice that information on their bad debt will be handed over. Others also provide details of all the accounts a customer has. They give the current balance plus a payment profile. These figures tell potential lenders whether the customer's payments are up to date, if a payment has been missed, or if the account is in dispute,

Some categories of lending are more likely to end up on the files of credit reference agencies than others. Mortgage arrears, debts on most bank accounts, arrears on credit cards, poll tax, rent, gas, electricity, telephone or income tax will not appear on the files of agencies unless the debtor has been taken to court or is in default.

Debts with retailers, finance houses or mail order catalogues, on the other hand, are almost certain to be recorded. A county court judgment would remain on records for six years, while a bad debt that did not reach court is likely to be removed after three. The vast majority of people who have their homes repossessed do not appear on the files.

Anyone applying for credit from Marks and Spencer is told that the information given will be entered on computer. It checks information on public record and credit reference agencies files. The store says: "Favourable information may support your application, but if you are already having difficulties, it may not be in your best interest to have more credit." Credit reference agencies will

supply public information from electoral registers and county and bankruptcy courts to any subscriblenders have to provide more. Those who reveal the debts of their own customers receive black information from other subscribers. Two years ago, banks began providing information on loan accounts that had gone into default. Now they are beginning to share white information on some accounts. Bank customers who do not want such information to be held on computer must read the small print on any application.

Bad debts on unsecured loans are forcing building societies to look at how they can improve vetting. Most use the public information from credit reference agencies. Branches are often computerlinked to an agency so that when customers want to open a current account, take out a credit card, or open an investment account staff can check they are on the electoral roll, have no court judgments against them and are not bank-

A few mortgage lenders are starting to offer information to agencies on serious arrears. The Learnington Spa Building Society gives data on serious arrears to CCN Systems and in return learns about other debts that mortgage applicants might have. Bob Neill, managing director,

said: "If someone's in arrears with another lender you want a good

explanation before making a loan." The Abbey National is also supplying black information on mortgages and receiving debt information back. The Abbey has a pilot scheme using credit scoring and credit rating for mortgages. The only information we sup-

ply is on mortgages in the pilot branches, where arrears are serious enough to consider repossession. The customer is always informed in advance," it

Everyone has the right to have incorrect information held. amended. Most people check their files after being turned down for credit. Infolink calculates that for every 1.000 credit searches it carries out 13 consumers request their files. And about 10 per cent of those consumers ask for additions or amendments to be made.

Anyone turned down for credit should ask the retailer if they used an agency, and for its name and address. They should then write enclosing a £1 fee asking for any information on file. The agency is required to reply within seven working days. The file should include all the information that would be supplied to a subscriber.

The payment profile used by the agency will be coded. Generally, the lower the numbers the better the payer. If the information appears incorrect a written request should be made to change it. The Registry of County Court Judgments supplies details of all

judgments to the main reference agencies and also undertakes to pass on any notices of correction from one agency to the other three. In the first half of 1990 about 1,000 notices were exchanged.

Members of the public can find out what is on record at the registry. Personal visitors to the

office at 173 Cleveland Street. London W1P 5PE, can search the register for £1. Postal enquiries cost £2.

Information is only supplied on the name and address requested. A woman from Rochdale, Greater Manchester, who asked what was on record about her, was not told. about the judgments against a neighbour with the same surname. A woman from north London who wanted to know what was on her

for £178 against her, plus two appeared to live at the same

Some lenders only use information about people with the same surname as the applicant at the same address. But others argue that information about other people living at the same address at the same time as a borrower is relevant. From the name alone it is not possible to determine relationships. It may be that two people with different surnames at the same address have separate flats, or they might be married and

Brian Bailey, managing director of Infolink, said that one of the problems in Britain was the lack of an identity number. His agency only supplies information on the exact name and address of an applicant from private informa-tion. On public information it supplies near and close matches of both the name and address. If a husband applied for credit, the lender would not learn of the wife's credit agreements unless they were a matter of public

Simon Moulton, assistant data protection registrar, said that the proposal from the industry forum would still mean that people would have their chance reduced of obtaining credit by information that did not relate to the applicant. Third party information has been a major source of complaint. Several hundred complaints were received last year.

Sir Gordon Borrie, director general of the Office of Fair Trading, told the Institute of Credit Management, that the growth in credit had brought with it problems of default.

For responsible and, indeed, profitable lending, creditors clearly need information to confirm the identity of the borrower, to confirm that he or she has no history of regayment problems, and such other information as is necessary to make an informed assessment of the prospect of repayment and risk of default." Sir Gordon said he was happy

with the view of the Jack Committee on banking that white information should be disclosed only with the customer's express consent. I do not see why a bank Should not require express con as a condition to the grant of a loan." In Holland, all consumer credit agreements are required to be registered with an agency. The NCC, says that such a system "would certainly throw up a great many instances of multiple debt and has much to commend it. However, extending white information to agreed overdrafts and other personal account details would not, we believe, significantly reduce default and credit

## Registrar awaits computer files hearing against the Halifax

tion registrar is already being taken against the Halifax, Britain's largest building society, for information it kept about customers on its computer files.

The case, which was originally scheduled to start last October at Halifax magistrates' court, is now expected to be heard towards the

end of this year. Under the Data Protection Act companies and other organ-isations are required to notify Eric Howe, the registrar of the kind of information they keep and why they store it.

The case under section 5(2)d of the Data Protection Act relates to the use by the society of personal information for the purpose of crime prevention and the prosecution of offenders. It alleges that the society held personal data without registering it under the Act.

A spokesman for the society said: "We will defend the summons vigorously as we are salisfied that the Halifax has at all times complied with the pro-

The Halifax, like other societies

Taking action: Eric Howe and banks, keeps information on its computer to counter fraud and other crime.

For example, if money was fraudulently withdrawn from a customer's account the society would look at all the information it held to establish the extent of the fraud and to help it trace the people responsible. In this way it customer before October 1988,

has been able to help the police to deal with cases of extortion and

The registrar wants such information to be registered separately under the act, whereas the society believed that the use of information for this purpose was a normal part of the administration of customer accounts.

Societies have been urged this year by the Building Societies Association to be more vigilant when opening accounts, to prevent stolen cheques being cashed through them, and to watch out for suspicious deposits that might

be drug money.

Banks have been particularly concerned at the apparent ease with which cheques could be paid into building society accounts and withdrawn as cash without adequate checks being made to verify the name and address of the new account holder.

The Halifax did register the use of its information for crime prevention and prosecution purposes in October 1988. The case refers to information held about a
